Advanced Clinical Practice Musculoskeletal Masterclass

Introduction

This course is designed for nurses, advanced nurse practitioners and allied health professionals (including radiographers) practicing at an advanced level who come in to contact with oncology patients.

This masterclass will be taught by expert clinicians and will include revision of musculoskeletal anatomy and physiology, normal and pathological radiology, degenerative and inflammatory MSK conditions and bone health. There will also be an opportunity to practice advanced MSK examination skills

Learning Outcomes

The masterclass will provide an opportunity for advanced practitioners to update and gain further knowledge regarding the musculoskeletal (MSK) system

Key Themes

- MSK anatomy & physiology revision
- Normal & pathological radiology of the MSK system
- Degenerative & Inflammatory MSK conditions
- Bone health

Delivery

The morning sessions are open to all advanced practitioners, advanced practitioners in training and allied health professionals working at an advanced level

The afternoon is aimed at advanced practitioners where clinical examination and interpretation of test results is part of their role. It will consist of three practical clinical stations and an Interactive pathological radiology session

Fees

£125 (full day)

£75 (morning only)

Intended Audience

The course is aimed at Advanced Nurse Practitioners and Advanced Practitioners in training, Allied Health Professionals and Radiographers
