

AO Trauma NA Course - New England Regional Fracture Summit

January 15, 2027 - January 18, 2027
Stowe, Vermont, USA

The New England Regional Summit is a discussion forum where nationally prominent local trauma experts interact with community-based orthopedic surgeons who are actively involved in the treatment of patients with fractures.

This informal, almost entirely discussion-based Summit is **highly interactive** with clinical presentations that include:

Tips, tricks and techniques on how the faculty **tackle clinical problems**

Frank confidential discussions about **how to manage cases “on the fringe of normal”** – a routine case that isn’t going normally

Complications and **frustrations of the experts and how they dealt with them**

Each session incorporates an alternating case presentation-discussion format followed by participant case presentations. ALL participants are strongly encouraged to bring personal cases for discussion to optimize their personal experience and involvement – you will personally get more out of this course as a result.

There will be an opportunity to explore state of the art equipment with practical lab demonstration(s).

If you’ve been to this course, you know why so many participants return annually. In fact, **surgeons wait all year just for this one course**. If you’ve never been to this course, make this year the year that you do participate. This course always fills up and space is limited. Kick-off your new year by registering today to ensure your spot at this important AOTrauma orthopedic discussion.

Event Summary

Tuition:

Level Name: Participant - Orthopaedic
Pricing Tier: Resident
Tuition: \$600.00

Level Name: Participant - Orthopaedic
Pricing Tier: Fellow
Tuition: \$600.00

Level Name: Participant - Orthopaedic
Pricing Tier: Attending
Tuition: \$600.00

Level Name: Participant - Orthopaedic
Pricing Tier: ORP and PA
Tuition: \$600.00

Course Prerequisite(s):

No Prerequisites

Venue:

StoweLake Mountain Resort and
Conference Center
1746 Mountain Road
Stowe, VT, USA

- Practicing

CME

- AO North America is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement - AO North America designates this live educational activity for a maximum of [Hours Pending] **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Continuing Medical Education (CME) mission of AO North America (AONA®) is to provide comprehensive multidisciplinary needs based education to surgeons, fellows, and residents in the specialties of orthopedic, hand, craniomaxillofacial, spine, neurosurgery, and veterinary surgery in the areas of trauma (i.e.), operative reduction and fixation), degenerative disorders, deformities, tumors, and reconstruction.

Expected results of AONA's CME activities for surgeons, fellows, and residents are to:

- Increase their knowledge base and surgical skill level
- Improve competence by applying advances of knowledge in patient care in the areas of trauma, degenerative disorders, deformities, tumors, and reconstructive surgical techniques
- Address practice performance gaps by improving management of aspects of traumatic injuries and musculoskeletal disorders (i.e., pre-operative planning to post-operative care)

Learning Objectives

Upon completion, participants should be able to:

- Identify the latest approaches to both common and difficult fracture problems
- Recognize and avoid clinical problems in fracture care
- Apply innovative techniques for fracture care in the community setting
- Discuss difficult problems encountered in practice and approaches to solutions
- Reaffirm the principles and advanced techniques of fracture care that apply to common fractures seen in everyday practice
- Identify the latest cutting-edge technology that can be applied to practice

Faculty

Camuso, Matthew - Co-Chairperson

MD
Orthopaedic Trauma Surgery
Maine Medical Center
Portland, Maine

After residency and fellowship in Seattle, Dr Camuso spent four years on active duty in the Navy at LAC-USC medical center prepping corpsmen, nurses, residents and surgeons for deployment to Iraq and Afghanistan. He is now the chief of the orthopaedic trauma division at Maine Medical Center in Portland, Maine and an active member of the AO.

Dyer, George - Co-Chairperson

MD, FACS
Associate Professor of Orthopaedic Surgery
Harvard Medical School
Brigham and Womens Hospital
Massachusetts General Hospital
Boston, Massachusetts

George S.M. Dyer, MD, FACS is staff orthopaedic surgeon at the Brigham and Women's and Massachusetts General Hospital in Boston, MA, and associate professor of surgery at Harvard Medical School. He received his bachelor's degree from Harvard College, and attended medical school at Harvard Medical School following seven years' active duty service in the United States Air Force. He completed his surgical training in the Harvard Combined Orthopaedic Residency Program, followed by an additional year of fellowship in hand and upper extremity surgery at BWH, Children's Hospital, and MGH. Dr. Dyer specializes in the management of complex injury to the upper extremity. He has returned to military service in the U.S. Navy Reserve.

Schottel, Patrick - Co-Chairperson

MD
Associate Professor
Department of Orthopaedics and Rehabilitation
University of Vermont
Burlington, Vermont

Yoo, Brad - Evaluator

MD
Professor
Department of Orthopaedics and Rehabilitation
Yale School of Medicine
New Haven, Connecticut

Blankstein, Michael - Lecturer

MSc, MD, FRCS(C)
Associate Professor
Adult Trauma and Lower Limb Reconstruction
University of Vermont Medical Center
Burlington, Vermont

My clinical practice is focused on lower extremity trauma, as well as complex primary and revision hip and knee arthroplasty. I have specific interests in hip fractures, complex periprosthetic fractures, conversion arthroplasty and post-traumatic osteoarthritis. I am highly committed to education and research.

**Moran, Christopher - Guest Lecturer**

MD, MBBCh, FRCS
Professor
Nottingham

Prof. Chris Moran is Honorary Professor of Orthopaedic Trauma Surgery at Nottingham University Hospital having trained in Cardiff and Newcastle with fellowships at the Mayo Clinic, USA and the University Hospital in Basel, Switzerland. He is still a practicing trauma surgeon and has a special interest in surgery for polytrauma, complex articular fractures and the treatment of nonunion. Prof. Chris Moran is also Honorary National Director for Resilience at NHS-England. This is a senior leadership role focusing on crisis management at a national level, working within the National Health Service (NHS) and across government to direct and coordinate the national response to many incidents, including the Coronavirus Pandemic and the recovery of health services. He played a key role in the development of Major Trauma Centres in England, subsequently leading the National Trauma System in England for 7 years from 2013-2020 as National Clinical Director for Trauma. During this time, he was involved in the leadership of the response to several major incidents and developed the national peer review system for all Major Trauma Centres and Trauma Units. Prof Moran is a long-standing member and ex-chair of the BOA trauma group and co-authored many of the British Orthopaedic Association Standards for Trauma. Prof. Moran is international adviser on trauma systems to a number of Governments. His research portfolio includes over 248 published scientific papers and abstracts with 13,400 citations, mainly in the field of trauma. He continues in active research in this field. He is editor of a major textbook, the AO Principles of Fracture Surgery and has also authored multiple book chapters. Prof. Moran is Civilian Adviser on Orthopaedic Surgery to the Royal Air Force and was previously Honorary Colonel to 16 Medical Regiment in the British Army. Prof Moran was awarded OBE by Queen Elizabeth for services to trauma surgery in 2021.

**Ryan, Scott - Lecturer**

MD
Dr.
Tufts Medical Center
Associate Professor
Tufts University School of Medicine
Boston, Massachusetts

Although most confuse Scott as being from the state of Michigan, given his obsession with the Wolverines, he is a tried and true New Englander. Scott grew up in Connecticut and then went off to the University of Michigan where he obtained a BS in Cellular Molecular Biology. He then returned to New England to attend medical school at Tufts University School of Medicine. He caught the "trauma bug" during his residency at Boston University Medical Center. Scott (affectionately known in residency as "Scooter") completed a trauma fellowship at R Adams Cowley Shock Trauma Center in Baltimore. He returned to Boston to become the first fellowship trained traumatologist at Tufts Medical Center where he has been since 2011. Scott loves teaching and considers the crowning moment of his career when his first class of residents honored him with the Tufts Residency Teaching Award.

**Smith, Raymond - Lecturer**

MD, FRCS(Eng)
Professor of Orthopedics
Brighton, Massachusetts

AO NA Disclaimer Information

Faculty Disclosure:

It is the policy of AO North America to abide by the Accreditation Council for Continuing Medical Education Standards for Commercial Support. Standard 2: "Disclosures Relevant to Potential Commercial Bias and Relevant Financial Relationships of Those with Control over CME Content," requires all planners, including course directors, chairs, and faculty, involved in the development of CME content to disclose their relevant financial relationships prior to participating in the activity. Relevant financial relationships will be disclosed to the activity audience. The intent of the disclosure is not to prevent a faculty with a relevant financial or other relationship from teaching, but to provide participants with information that might be of importance to their evaluation of content. All potential conflicts of interest have been resolved prior to the commencement of this activity.

Off-Label / Experimental Discussions:

Some medical devices used for teaching purposes and/or discussed in AO North America's educational activities may have been cleared by the FDA for specific uses only or may not yet be approved for any purpose. Faculty may discuss off-label, investigational, or experimental uses of products/devices in CME certified educational activities. Faculty have been advised that all recommendations involving clinical medicine in this CME activity are based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

All scientific research referred to, reported or used in this CME activity in support or justification of a patient care recommendation conforms to the generally accepted standards of experimental design, data collection and analysis.

Disclaimer:

AONA does not endorse nor promote the use of any product/device of commercial entities. Equipment used in this course is for teaching purposes only with the intent to enhance the learning experience.

USE THE BELOW TEXT FOR DIDACTIC COURSES ONLY!

The opinions or views expressed in this live continuing medical education activity are those of the faculty and do not necessarily reflect the opinions or recommendations of AO North America or any commercial supporter. The certificate provided pertains only to the participants' completion of the course.

Conflict of Interest Resolution Statement:

When individuals in a position to control or influence the development of the content have reported financial relationships with one or more commercial interests, AO North America utilizes a process to identify and resolve potential conflicts to ensure that the content presented is free of commercial bias.

Liability Statement:

AO North America faculty and staff assume no personal liability for the techniques or the use of any equipment and accessories used for teaching purposes in the laboratory. The certificate provided pertains only to the participants' completion of the course and does not, in any way, attest to the proficiency of the participants' clinical experience.
