Friday, January 11 - Saturday, January 12, 2019
Danville Community College, 1008 S. Main St., Danville, VA 24541

Presented by the Virginia Department of Health in partnership with the Virginia Oral Health Coalition, Virginia Dental Association Foundation, and Virginia Commonwealth University Department of Pediatric Dental Dentistry.

Course Description

Special Needs Dentistry – You Can Do It! is a free continuing education course to help dental professionals realize they can see most individuals with special health care needs (ISHCN) without a tremendous change to their existing practices. Dr. Matthew Cooke, a pediatric dentist, dental anesthesiologist, and Director of Healthy Athletes, Special Olympics of VA and PA, will present interactive case-based discussions covering several topics related to the dental care of ISHCN, including multiple commonly seen conditions with orofacial implications, risk vs. benefit, and behavioral guidance options within a dental office setting. Kami A. Piscitelli, RDH, VA Department of Health Special Needs Oral Health Coordinator, will provide a brief presentation regarding pregnancy as a special health care need, disability etiquette, and hygiene adaptations for people with home care challenges. In addition, The Virginia Oral Health Coalition will be presenting a lunchtime discussion regarding oral health policy, Medicaid expansion, and more! Teaching methods include lecture, demonstrations, and audience engagement. The speakers have no relevant financial relationships to disclose. No prior skill level or knowledge is required to attend.

**Free
CE**

Learning Objectives

1. Identify at least one common chronic condition or disability and a potential orofacial implication linked to that condition.
2. Identify at least one reason for determining risk-versus-benefit while treatment planning for ISHCN.
3. Identify at least one reason dental care during pregnancy is highly recommended.
4. Identify at least one possible dental hygiene tool modification for some ISHCN.

Course Agenda

Speakers: Matthew Cooke, DDS, MD, MPH; Kami Piscitelli, RDH; Sarah Bedard Holland, VAOHC

Friday

ADA CERP® | Continuing Education Recognition Program

The Virginia Dental Association is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The Virginia Dental Association designates this activity for 11 continuing education credits.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between the Virginia Department of Health, Virginia Dental Association Foundation, Virginia Oral Health Coalition and Virginia Commonwealth University Department of Pediatric Dentistry.
