11:00AM-Noon	Lesley Kupiec— Myofunctional Therapy: Tongue-Up, Lips-Closed, Healthy Breathing Through the Nose

Speakers

Soroush Zaghi, MD
Dr. Zaghi graduated from Harvard Medical School, completed residency in ENT (Otolaryngology- Head and Neck Surgery) at UCLA, and Sleep Surgery Fellowship at Stanford University. The focus of his sub-specialty training is on the comprehensive treatment of tongue-tie, nasal obstruction, mouth breathing, snoring, and obstructive sleep apnea. He is very active in clinical research relating to sleep disordered breathing with over 80+ peer-reviewed research publications in the fields of neuroscience, head and neck surgery, and sleep-disordered breathing.

Dr. Zaghi is particularly interested in studying the impact of tethered-oral tissues (such as tongue-tie) and oral myofascial dysfunction on maxillofacial development, upper airway resistance syndrome, and obstructive sleep apnea. He is an invited lecturer, author, and journal reviewer for topics relating to the diagnosis and management of sleep-disordered breathing and tongue-tie disorders. I, Dr. Soroush, have no financial relationships relevant to this presentation to disclose.

Dr. Nora Ghodousi-Zaghi
Born and raised in Los Angeles, CA, Dr. Nora Ghodousi received her undergraduate degree from University of California, Los Angeles (UCLA) and Doctor of Dental Surgery Degree from the University of Southern California (USC). Dr. Ghodousi specialized in Pediatric Dentistry at University of Nevada and is a board-certified Diplomate of the American Board of Pediatric Dentist. Empowered by the mission to educate her young patients on habits leading to positive oral health and orofacial develop, Dr. Ghodousi succeeds in creating a positive and caring dental experience for her patients.

Dr. Nora offers functional and integrative oral health care and interceptive orthodontics with a focus on whole-body health and well- being. Dr. Nora is a UC Regent Scholarship Magna Cum Laude graduate from UCLA.While at Dental School at USC, she received the Pediatric Health Award for her volunteer efforts in the underserved community. She then went on to complete a two-year Pediatric Dental Residency program at UNLV, where she gained experience providing high-level dental and orthodontic care for fragile, behaviorally challenging, and medically compromised pediatric patients. Dr. Nora has experience as faculty at UNLV where she supervised the dental students providing pediatric dentistry for children with difficulties accessing care. I, Dr. Nora Ghodousi-Zaghi, have no financial relationships relevant to this presentation to disclose.

Dr. Tim Yu DDS, MSD
Dr. Tim Yu DDS, MSD is a specialty trained, board certified orthodontist focusing on the growth and development of the craniofacial complex, orthodontic TMD treatment and facial esthetics. He takes a comprehensive approach to treatment, working with an interdisciplinary team of physicians, dentists, myofunctional therapists, and other healthcare professionals to deliver quality care to patients.

Dr. Yu received his DDS degree from the UCLA School of Dentistry and went on to complete his orthodontic speciality training at the University of the Pacific Arthur A. Dugoni School of Dentistry. Here, he obtained a Master of Science in Dentistry for his research on the effects of maxillomandibular advancement (MMA) surgery for sleep apnea. Dr. Yu’s research has earned numerous accolades, including awards from the American Association of Dental Research, and he has presented at the Pacific Coast Society of Orthodontics and American Association of Orthodontics. He is currently an active member in various dental allied health professional associations, and is passionate about disseminating the message of airway health to the community.

As the new lead at Face Focused Orthodontics, he is devoted to upholding the practice’s strong legacy of providing exceptional dental care and spearheading innovative orthodontic practice.

Dr. Audrey Yoon
Dr. Audrey Yoon is a dual-trained orthodontist and pediatric dentist who specializes in sleep medicine. She has established World Dentofacial Sleep Society and serves as a founding president. She is also a diplomate of the American Board of Dental Sleep Medicine and a diplomate of the American Board of Orthodontics.

She is currently a Clinical Professor of Stanford Sleep Medicine Center at Stanford University and an Assistant Professor in Orthodontics at University of Pacific. She founded Pacific Ortho-Dental Sleep Medicine Fellowship at University of Pacific and serves as a program director. She is a board of director at Edward H. Angle Society of Orthodontists, Northern California, a board of Director at California Sleep Society and International Board of Director at the Korean Association of Dental Sleep Medicine.

She completed her orthodontic and pediatric dentistry residencies at the University of California Los Angeles (UCLA). She also earned her Doctor of Dental Surgery and Master of Science degree, completing extensive research in Obstructive Sleep Apnea (OSA) at UCLA.

She practices the full scope of non-surgical and surgical orthodontics from pediatric to geriatric population for airway management including growth modification, pediatric palatal expansion, customized Miniscrew-Assisted Rapid Palatal Expansion (MARPE), Distraction Osteogenesis Maxillary Expansion (DOME), Orthodontic treatment for Maxillomandibular Advancement (MMA), clear aligner therapy and oral appliances for sleep apnea. I, Dr. Audrey Yoon have no financial relationships relevant to this presentation to disclose.

Dr. Richard Baxter
Dr. Richard Baxter is a board-certified pediatric dentist, Fellow of the AAPD, and Diplomate of the American Board of Laser Surgery. He is an internationally-recognized speaker on tongue-ties, instructor of the acclaimed online course Tongue-Tied Academy, and lead author of the bestselling book Tongue-Tied: How a Tiny String Under the Tongue Impacts Nursing, Speech, Feeding, and More. He is passionate about educating parents and healthcare providers about the effects a tongue-tie can have throughout the lifespan. He lives in Birmingham, AL with his wife, Tara, and their three girls, Hannah, Noelle, and Molly. He is the founder of the Alabama Tongue-Tie Center where he uses the CO2 laser to release oral restrictions. He had a tongue-tie himself, and all of his girls were treated as infants, so this field is a personal one. In his free time, he enjoys spending time with his family, running, and outdoor activities. He serves in Kids Ministry as a Faith Trainer at the Church at Brook Hills and participates in global missions projects around the world.I , Dr. Richard Baxter have no financial relationships relevant to this presentation to disclose.

Dr. Kevin Coppelson, DDS, MD
Dr. Kevin Coppelson, DDS, MD, an airway-focused Oral & Maxillofacial Surgeon, brings a wealth of experience in advanced surgical treatments for sleep apnea. The founder of the BreatheMAX department at The Breathe Institute in Los Angeles, California, Dr. Coppelson’s educational background includes his dental education at the University of Southern California (USC), medical school and Oral & Maxillofacial Surgery training at the University of Maryland and R Adams Cowley Shock Trauma Center. He further honed his skills through a fellowship in Advanced Maxillofacial Surgery at Houston Methodist Hospital. Alongside his clinical practice, Dr. Coppelson is actively involved in lecturing and conducting research on airway topics related to Oral & Maxillofacial Surgery. I, Dr. Kevin Coppelson have no financial relationships relevant to this presentation to disclose.

Lesley McGovern Kupiec, RDH, MS
Lesley is a Registered Dental Hygienist, Orofacial Myofunctional Therapist, and Integrative Breathing Therapy Practitioner. Lesley completed her undergraduate education in Sport Management and later, Dental Hygiene in Massachusetts before moving to Los Angeles in 2010. In 2014, she earned a Master of Science in Dental Hygiene from USC. She has continued her education in Orofacial Myofunctional Therapy, Integrative Breathing Therapy, and Breathing Behavioral Analysis. She works at The Breathe Institute where she treats patients, manages research endeavors, and provides educational content. She is a member of the California Dental Hygienists’ Society, American Academy of Physiological Medicine and Dentistry, and the Academy for Sports Dentistry. I, Lesley McGovern Kupiec have no financial relationships relevant to this presentation to disclose.
