NDTA Contemporary Practice Model™ Certificate Course in the Management of Adults with Stroke and Brain Injury

PAGE 1 of 2

FOCUS: ADULT **LEVEL:** Intermediate **CONTINUING EDUCATION HOURS:** 112.0

REGISTER TODAY! [NDTA.org/certificate](https://www.ndta.org/certificate)

An NDTA member or non-member account is required in order to register for this course. Log into your NDTA account or create an account to register online. For assistance, please contact info@ndta.org.

COURSE DATE

Part 1: January 27-30, 2022

Part 2: February 24-27, 2022

Part 3: March 18-21, 2022

Part 4: April 21-24, 2022

COURSE INSTRUCTORS

Jodi Renard, PT, DPT, C/NDT, CBIS, CI

Karen Guha, PT, C/NDT

Katy Kerris, OT, C/NDT

Joyce Lyndelle Owens, SLP, C/NDT

Teresa Siebold, PT, C/NDT

TARGET AUDIENCE

PT, OT, SLP

HOST LOCATION

OhioHealth Eastside Health Center

4850 E Main St. Columbus, Ohio 43213

COURSE CONTACTS

Jodi Renard / jarenard1973@gmail.com

TUITION *

NDTA Members: \$2,700 / Non-members:
\$2,925

APPLICATION FEE

None

APPLICATION DEADLINE

December 7, 2021

CANCELLATION POLICY

In the event the course cancels due to inadequate numbers, participants will be notified no later than one month prior to the start of the course and deposits will be refunded. If a participant cancels prior to the start of the course the deposit will not be refunded unless a qualified replacement is available. Cancellations by the attendee less than 30 days from the first day of the course are not eligible for any refund.

COURSE SCHEDULE HOURS

Parts 1-4: 8:00 am – 4:30 pm with an hour lunch and two 15-minute breaks.

AOTA CLASSIFICATION CODES

1. Domain of OT: Performance Skills
2. Occupational Therapy Process: Intervention
3. Professional Issues: Contemporary Issues / Trends

SPECIAL NEEDS REQUEST STATEMENT

Please contact the Coordinating Instructor (CI) if you are requiring classroom accommodations or modifications because of a documented disability.

LEARNING OUTCOMES

For detailed learning outcomes please go to [NDTA.org/certificate](https://www.ndta.org/certificate) and click on "Key to the OT Course Content"

COURSE DESCRIPTION & OBJECTIVES

Additional information is available on the next page.

CONTINUING EDUCATION

112.0 Continuing Education Hours will be awarded upon successful completion of this course.

NDTA is an AOTA Approved Provider.

COURSE DESCRIPTION

NDTA Certificate courses are postgraduate continuing education courses offered to Physical Therapists, Occupational Therapists, and Speech-Language Pathologists who work with adults or children with movement disorders associated with neuromuscular impairments.

The Certificate Course core curriculum includes didactic information, hands-on lab work in which participants practice problem solving and application of intervention strategies, treatment demonstrations by instructors, and mentored clinical practice in which participants work with a variety of clients.

Instruction in the NDT philosophy as an interdisciplinary team approach assures that all therapists learn to address each client using a holistic approach. All therapists, regardless of discipline, cover the same course material. Throughout the course, they assess and treat clients with neuromuscular disorders to gain a thorough understanding of each individual's underlying posture and movement impairments and the resultant functional consequences. This provides them with the opportunity to understand the "whole" client in order to develop basic handling skills.

Participants must meet attendance requirements, successfully achieve course objectives, perform effective assessments, develop appropriate intervention strategies, plan and implement effective treatment plans, and successfully pass the standardized final exam and competencies. Once accomplished, an NDTA Certificate of Completion is awarded.

COURSE OBJECTIVES

1. Observe, analyze and synthesize effective and ineffective posture and movement and its impact on a client's functional abilities/limitations
2. Demonstrate integration of course content information within practicum assignment:
 - Postural control
 - Typical/Atypical development/movement analysis in function
 - Evaluation and Treatment planning
 - Treatment - Analysis and facilitation of movement
 - Parent/caregiver training/home management
 - Team work
 - PT, OT, ST content
 - Neurophysiology
3. Identify components of typical movement and how it relates to the development of: sensory processing, upper extremity, and visual motor function
4. Problem solve multi-system, and single system impairments as it relates to sensory-motor processing, upper extremity function and visual motor function and chose effective NDT strategies to address identified functional limitations.

DISCLOSURE

Financial: The Course Instructors Jodi Renard, PT, DPT, C/NDT, CBIS, CI, Karen Guha, PT, C/NDT, Katy Kerris, OT, C/NDT, and Joyce Lyndelle Owens, SLP, C/NDT are compensated for instruction in this course.

Non-Financial: All instructors are members of the NDTA Instructor group and hold leadership and volunteer roles within the NDTA, but are not financially compensated for these roles.

For questions, please email info@ndta.org or call 800-869-9295.
