Welcome to ESUR 2023

I am certain the Congress will turn out to be a memorable event.

Not only because of the scientific and professional knowledge provided by the outstanding international panel of experts, but also thanks to the extraordinary opportunity to visit one of the oldest and most beautiful cities in the world.

Hope to have you on board and see you in Rome!

CONGRESS VENUE

Auditorium della Tecnica

There is a place in Eur, the well-known Roman business district, where space and technology give concrete form to ideas, transforming them into unforgettable experiences: it is the Auditorium della Tecnica, the Congress Center owned by Confindustria Servizi Spa.

Although it presents itself to our eyes as one of the congress centers of the Italian avant-garde, it has a long history that officially begins on May 30th, 1974, the day of the inauguration, during the Confindustria General Assembly when Giovanni Agnelli was elected President.

At the Auditorium della Tecnica, space also plays a fundamental role: the refined creation of the Architect Pier Luigi Spadolini, in fact, fits perfectly inside the building designed by the Architect Edoardo Monaco, and for this reason it has won the title of “architecture in architecture”.

As soon as you cross the entrance you will encounter a combination of innovation and contemporary structures, technological equipment, and artistic, as well as functional lines; everything was further enhanced during the restyling that the Congress Center undertook between 2015 and 2016. From there and for over forty years, the building has played a key role in the conference scene, for both national and international events

ABSTRACT

ESUR has reserved a space during the symposium for scientific presentations.

The abstracts will be evaluated by the Organising and Scientific Committee of the Symposium.

IMPORTANT DATES

- **Deadline for abstract submission: June 25th, 2023**
- **Notification of acceptance: July 20th, 2023**
- **Registration of one of the Authors: August 5th, 2023**
- **Deadline for accepted electronic poster submission: September 4th, 2023**

Information for the submission of abstracts to the 29th European Symposium on Urogenital Radiology:

The abstract can be presented as oral presentation or electronic posters (scientific or educational). Scientific Posters can be submitted for scientific studies. Educational posters can be submitted for educational purposes.

The format will be the following:

- Oral Presentation Format: Purpose, Materials and Methods, Results, Conclusion.
- Scientific Electronic Poster Format: Purpose, Materials and Methods, Results, Conclusion.
- Educational Electronic Poster Format: Teaching Objectives, Review of the Topic and Conclusion.

The abstract file must not include Authors Name and Affiliation. The appearance of this information may lead to the rejection of the abstract.

The abstract must have a maximum of 300 words, tables and images are optional. The Abstracts will be evaluated anonymously. After evaluation by the Organising and Scientific Committee of the Congress, authors will be notified of the acceptance or rejection of the abstract, as well as the final presentation format, within July 20th, 2023.

At least one of the authors must be registered for the 29th ESUR Symposium before August 5th, 2023. Otherwise, the paper will not be accepted. The author giving the presentation must be registered for the Symposium.

Once notification of acceptance has been received, authors will have until September 4th, 2023 to submit the electronic poster. At this point, the text can be updated, and the corresponding images and tables can be added.

Awards

The best poster and best two oral presentations will be awarded an ESUR prize certificate and a complimentary registration for the ESUR symposium 2024
