The Enrolled Nurses' Conference - Brisbane 2019

An Annual Ausmed Education 2 Day Event

Need for Program

Enrolled nurses (ENs) are under pressure to extend their scope of practice and broaden their nursing knowledge. This includes being proficient and skilled in selected areas of care. In addition, the gap between evidence and practice continues to widen - weakening the effectiveness of patient outcomes. As responsibility and accountability is fundamental to the work of ENs, it is imperative that continuous updates to knowledge and skills are integrated into all aspects of patient care.

Purpose of Program

The purpose of this program is to improve patient outcomes by increasing the clinical and professional knowledge and practice of enrolled nurses.

Learning Outcomes

At the conclusion of this program it is expected that the participants will be able to:

- Use information from patients about their care preferences in the development of the nursing care plan
- Critically interpret and use patient information from a range of sources to provide best practice nursing care
- Use communication as a therapeutic tool to facilitate collegial and interprofessional collaboration
- Implement and evaluate care that reflects best available nursing evidence so that safe and quality care is provided
