

**PERIOPERATIVE CARE IN
LIVER TRANSPLANTATION**

PROGRAM

International Liver Transplantation Society
Perioperative Care in Liver Transplantation Meeting 2022

PERIOPERATIVE CARE IN
LIVER TRANSPLANTATION
MEETING

2022

New Orleans, USA

October 21, 2022

www.ilts.org

Time and Date

October 21, 2022
07:30-17:50

Venue

Ochsner Health
1415 River Road
Jefferson, LA 70121, USA

Program Chair

Dmitri Bezinover, MD, PhD
Penn State Hershey, Hershey, PA, USA

Program Co-Chair

Joseph Koveleskie MD
Ochsner Medical Center, New Orleans, LA, USA

Purpose

The program is designed to update the participants on important problems regarding perioperative care during liver transplantation.

Target Audience

- Anesthesiologists
- Critical Care Specialists
- Hepatologists
- Surgeons
- Residents/Fellows
- Transplant Coordinators
- Medical Students
- Other Healthcare Professionals interested in Perioperative Liver Transplant Care

Learning Objectives

- Development of multimodal analgesia approach for liver transplantation
- New options to bridge critical patients to transplant
- Monitoring of coagulation during transplant surgery: review of current literature
- PRO/CON debates regarding use of antifibrinolytics and management of cirrhotic cardiomyopathy
- Management of postoperative complications and disease recurrence
- Development of ERAS in liver transplantation: what we learned after the 2022 "ERAS4OLT.org" Consensus Conference

Scientific Program

Welcome 07:30-07:40

Session 1 Patients Optimization: New Perspectives

07:40-08:00 Multimodal analgesia for donors and recipients

08:00-08:20 Cyto-absorption: a new bridge to transplantation

08:20-08:40 Cardiac workup for NASH vs non-NASH patients

08:40-09:00 Discussion

09:00-09:20 Break

Session 2 Perioperative Management: A Multidisciplinary View

09:20-09:40 Living donor hepatectomy

09:40-10:00 What is the coagulation monitoring strategy for optimal immediate and short-term outcomes?

10:00-10:20 Early extubation: We should, why don't we?

10:20-10:40 Discussion

10:40-11:00 Break

Scientific Program

Session 3 SIG Group Presentation

11:00-12:20	Cardiac challenges in liver transplantation. Discussion based on presentation of cases.
12:20-13:40	Lunch Coagulation Workshop

Session 4 Life With Your New Liver

13:40-14:00	The critically ill post-transplant patient. Management of complications: PNF, DGF, HAT, PVT?
14:00-14:20	Perioperative thromboprophylaxis in pediatric liver transplantation: When, what to monitor, and how?
14:20-14:40	Life after transplant: CAD, HCC, NASH, alcoholic steatohepatitis recurrence
14:40-15:00	Discussion
15:00-15:10	Break

Session 5 PRO/CON Discussion: Use of Fibrinolytics in Liver Transplantation

15:10-15:25	Routine use of antifibrinolytics is a normal component of liver transplantation
15:25-15:40	Routine use of antifibrinolytics is absolutely contraindicated during liver transplantation
15:40-15:55	Rebuttal/Discussion
15:55-16:05	Break

Scientific Program

Session 6 PRO/CON Discussion: Cirrhotic Cardiomyopathy

16:05-16:20	Patients fulfilling CCM criteria: LT is contraindicated
16:20-16:35	Patients fulfilling CCM criteria: LT can be done safely
16:35-16:50	Rebuttal/Discussion
16:50-17:00	Break

Session 7 Scientific and Society Updates

17:00-17:30	What we learned from ERAS: what was answered and what was not
17:30-17:50	ILTS update
