

Pathology Review:

Hematopathology, Head and Neck Pathology and Fine Needle Aspirations for the General Pathologist

Release Date: July 1, 2019 | 14.5 AMA PRA Category 1 Credit(s)TM

About This CME Teaching Activity

This CME activity is designed to provide a practical review of hematopathology, head and neck pathology, molecular diagnosis and fine needle aspiration biopsy (FNAB). Faculty discuss basic to advanced techniques, pitfalls and pearls to pathologic diagnosis. A variety of case reviews emphasize the didactic presentations to round out the program.

Target Audience

This CME activity is primarily intended and designed to educate pathologists.

Scientific Sponsor

Educational Symposia

Accreditation

Physicians: Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this enduring material for a maximum of 14.5 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

**AMA PRA Category 1 Credit(s)TM
for this activity may be claimed until June 30, 2022.**

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975.

This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

Educational Objectives

At the completion of this CME teaching activity, you should be able to:

- Recognize the different types of tissue fragments in FNAB specimens, recognize several cytomorphologic patterns of FNAB specimens, and render a diagnosis based on a pattern recognition of FNAB specimen.
- Render a diagnosis based on pattern recognition of thyroid FNAB specimens and formulate a broad differential diagnosis.
- Recognize the basic architectural pattern seen with salivary gland aspirates and be able to identify and diagnose common benign and malignant salivary gland lesions.
- Render a diagnosis based on pattern recognition and salivary gland FNAB specimens and formulate a broad differential diagnosis.
- Describe the basic technique and pitfall avoidance of fine needle aspiration biopsy performance.
- Discuss the new WHO Criteria for the diagnosis of myeloid neoplasms in blood and bone marrow.
- Apply strategies for integrating molecular and genetic testing into routine clinical practice.
- Recognize lesions of the sinonasal tract and differentiate bad actors from benign lesions.
- Achieve a more practical approach to lymphoid disorders in blood and bone marrow.
- Differentiate mucosal lesions of the head and neck.
- Appreciate new WHO 2016 criteria and testing recommendations for acute + chronic lymphoid neoplasms.
- Appreciate strategies for blast enumeration and dysplasia assessment.
- Develop list of required tests in AML, MDS, MDS/MPN and MPN.
- Recognize newly proposed AML subtypes and newly proposed entities for other categories of myeloid neoplasms.
- Appreciate key new molecular tests essential in the evaluation of myeloid neoplasms.

No special educational preparation is required for this CME activity.

A CME Teaching Activity

Pathology Review:

Hematopathology, Head and Neck Pathology and Fine Needle Aspirations for the General Pathologist

Faculty

Osama M.A. Abdelatif, M.D.

*Chairman, Department of Pathology
Carondelet St. Joseph's Hospital
Clinical Assistant Professor
Department of Pathology
University of Arizona, Health Science Center
Tucson, AZ*

Kathryn Foucar, M.D.

*Distinguished Professor
Department of Pathology
Clinical Pathology/Hematopathology
The University of New Mexico Health Science Center
Albuquerque, NM*

Jennifer L. Hunt, M.D.

*Chair of Pathology and Laboratory Medicine
Aubrey J. Hough Jr, Endowed Professor (with tenure)
Pathology and Laboratory Medicine
University of Arkansas for Medical Sciences
Little Rock, AR*

Pathology Review:

Hematopathology, Head and Neck Pathology and Fine Needle Aspirations for the General Pathologist

Program

Session 1

FNA of the Salivary Glands

Osama M.A. Abdelatif, M.D.

FNA of the Thyroid

Osama M.A. Abdelatif, M.D.

Session 2

FNA Diagnosis by Pattern Recognition

Osama M.A. Abdelatif, M.D.

Session 3

Overview of Acute Myeloid Leukemia and Chronic Myeloid Neoplasms: 2016 Strategies

Kathryn Foucar, M.D.

Session 4

Myeloplastic Syndromes and Mimics:
New Names, New Traps

Kathryn Foucar, M.D.

Session 5

Salivary Gland Pathology in the Molecular Era Old Friends, Old Foes, and New Acquaintances

Jennifer L. Hunt, M.D.

Session 6

Lesions of the Sinonasal Tract:
From Benign to Banal to Bad Actors

Jennifer L. Hunt, M.D.

Session 7

Lymphoid Disorders in Blood and Bone Marrow: A Stepwise Diagnostic Approach (WHO 2016) - Part 1

Kathryn Foucar, M.D.

Lymphoid Disorders in Blood and Bone Marrow: A Stepwise Diagnostic Approach (WHO 2016) - Part 2

Kathryn Foucar, M.D.

Session 8

Lymphoid Disorders in Blood and Bone Marrow: A Stepwise Diagnostic Approach (WHO 2016) - Part 3

Kathryn Foucar, M.D.

Session 9

Pearls and Pitfalls in Early Neoplasia of the Head and Neck

Jennifer L. Hunt, M.D.

Session 10

Potpourri of Head and Neck Cancer

Jennifer L. Hunt, M.D.
