#9109 Evidence-based Clinical Decision Making: Clinical Cases using iOrtho⁺® Mobile App

Instructor
Dawn T. Gulick, PhD, PT, ATC, CSCS

Audience:
Physical Therapists & Athletic Trainers.

Time:
3 hours of course work

Summary: The purpose of this continuing education opportunity is to provide a unique opportunity to use patient cases to shepherd a clinician through the decision-making process using state-of-the-art mobile technology, i.e. iOrtho+® mobile app which will be provided COMPLIMENTARY with the purchase of the course. It is unreasonable to try to teach everything there is to know. To the contrary, it is more important to help a person learn "how" to think. This course will exemplify the way in which evidence can be used to make clinical decisions regarding medical screening, selection of clinical tests, and the interpretation of the results of these tests.

PRESENTER: Dawn T. Gulick, PhD, PT, ATC, CSCS, is a Professor of Physical Therapy at Widener University in Chester Pennsylvania. She has 20 years of teaching experience. Her areas of expertise are orthopedics, sports medicine, modalities, and medical screening. As a clinician, she has owned a private orthopedic/sports medicine practice and provided athletic training services from the middle school to elite Olympic level. As a member of the Olympic Sports Medicine Society, Dr. Gulick has provided medical coverage at numerous national and international events. As a scholar, Dr. Gulick is the author of four books (Ortho Notes, Screening Notes, Sport Notes, and Mobilization Notes), four book chapters, and more than 24 peer-reviewed publications in 18 different journals. Dr. Gulick is a member of the APTA (orthopedic section), NATA, a PKP scholar, and a reviewer for several journals and home-study courses. Dr. Gulick earned a Bachelor of Science in Athletic Training from Lock Haven University, a Master of Physical Therapy from Emory University, and a Doctorate of Philosophy in Exercise Physiology from Temple University.

OBJECTIVES: Upon completion of this course the participant will be able to:

1. Differentiate between how sensitivity and specificity statistics can be used to screen or confirm a given pathology
2. Identify at least 2 tests each to screen for medical pathology of the spine, lower extremity, and upper extremity
3. Given 5 rotator cuff tests, differentiate which tests are best for "ruling out" vs. "confirming" the diagnosis
4. Given 1 example of the position of the sacral base, ILA, lumbar spine, & sit-slump test results, correctly identify the potential sacral dysfunction
5. Given 2 upper or lower extremity neural tension test positions, correctly identify the nerve incriminated
6. Given 5 knee meniscal tests, differentiate which tests are best for "ruling out" vs. "confirming" the diagnosis

FORMAT: This is a 3-hour course equivalent to 0.3 CEUs offered as a self-study course. Materials will be presented for reading from PDF documents. You will need a computer device and the internet to take this course and a phone to download the app.

PT CEU's: Motivations Inc is an approved provider of Physical Therapy continuing education by these professional bodies: Texas Chapter of the American Physical Therapy Association, ILDPR- Illinois Department of Professional Regulation Approved PT CE Sponsor, NY- New York State Education Department, Office of the Professions. Physical Therapy Board of California. Many state boards recognize these for pre-approval purposes. Contact us if you would like verification for your state.

ATC CEU's: Motivations, Inc. is recognized by the BOC Board of Certification, Inc. to offer continuing education for Certified Athletic Trainers

AGENDA:

Pre Study: Plan to read the course materials, references and review the post test before the start time.

0:00 - 0:30	Intro to evidence-based clinical decision-making & statistics
0:30 - 0:45	Components of the physical examination
0:45 - 1:45	Case 1: Shoulder
1:45 - 2:15	Case 2: Knee
2:15 - 3:00	Case 3: Lumbosacral spine

Post test: Research, identify, and submit your post test question answers on the online form. This is an open book test you can take multiple times if needed to obtain the 70% score.
