This congress distinguishes itself from other congresses in the world that it would concentrate on the scientific clinical aspect of female genital cosmetic-plastic surgical field. The preliminary congress program available on the website is a testimony of the same, and an indicator of what the congress has in store, for the very first time anywhere in the globe. The Congress also offers very exciting and relevant pre-congress workshops and master-classes as well as the post congress certification course, which are essentials for any one practicing cosmetic-plastic gynecology to be included in their skill armamentarium..

With confirmed best and the brightest speakers from Americas, Europe, Africa, Australia and Asia, the conference would be providing ample opportunity for researchers, clinicians and professionals to not only share information, but also to establish a network essential for future collaborations with people across the globe. Delegates are expected not only from the Indian Sub-continent but also from all continents of the globe since this congress shall be a unique opportunity in skill building for the participants. The Congress has already generated intense interest in the gynecologists, plastic surgeons and dermatologists from across the globe and the prominent specialists from the whole world would be seen in this congress, majority of course from the host nation, INDIA.
