Urban Diffused Meeting

GET SCIENCE OUT THERE

New.

The Urban Diffused Meeting (UDM) in Ferrara represents an exciting novelty which will make SMBE 2023 a remarkable and pioneering event.

Safe.

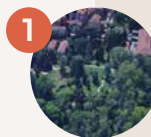

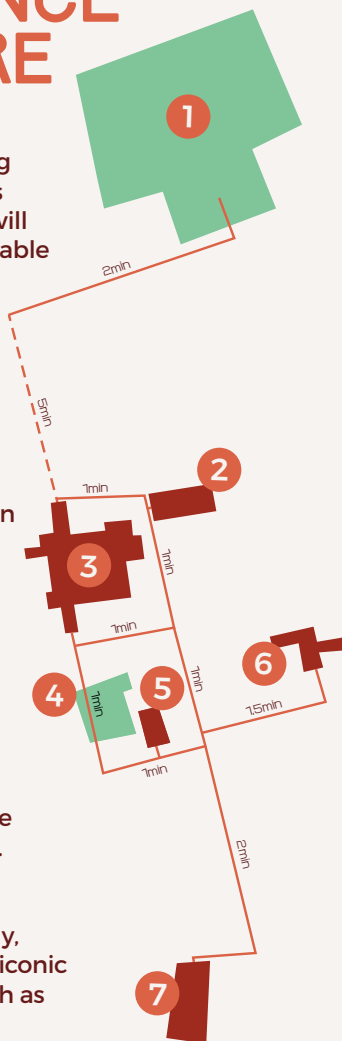

Ferrara is perfect for a UDM, even in the unlikely case of rain! Being "on the street" for poster sessions, coffee and lunch breaks, and when moving between symposia room will also increase safety in a pandemic era.

Beautiful & Convenient.

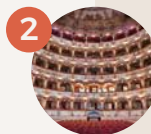

The town is a great renaissance city and part of the UNESCO world heritage, with a range of budget sleeping options.

In Italy!

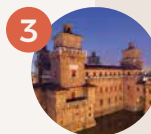

Ferrara is in the heart of Italy, close to the seaside and to iconic art and university cities such as Bologna, Florence, Venice, Padua and Rome.
