CME Accreditation

Accreditation Statement

The California Orthopaedic Association is accredited by the California Medical Association (CMA) to provide continuing medical education for physicians. The California Orthopaedic Association designates this live activity for a maximum of **16 AMA PRA Category 1 Credit(s)[™]**. Physicians should only claim credit commensurate with the extent of their participation in the activity. The California Orthopaedic Association takes responsibility for the content, quality, and scientific integrity of this CME activity.

10 of these credits also qualify for **CME in radiation safety**; and **4** of the 10 credits qualify for **fluoroscopy certification** required by California state law and the Radiologic Health Branch.

ABOS MOC CREDITS:

This meeting will be accredited for 10 ABOS MOC scored and recorded Self-Assessment Examination (SAE) credits. You must take a post-meeting test to receive the credits.

QME CME CREDITS:

The QME Course is accredited for **8 hours of Qualified Medical Evaluator (QME) CME credit hours**. COA is provider #100.

Target Audience

This program has been designed for the general orthopaedic surgeon to instruct them in the latest research and best practices in: Practical AI Applications in Orthopaedics, Clinical and Practice Pearls in Trauma Injuries, Osteoporosis, Hand/Upper Extremities, Arthroplasty/Joint Preservation, Sports Medicine and Foot and Ankle.

The QME course will update physicians on disability evaluation issues for common work-related injuries and instruct them in how properly assess their disability levels.

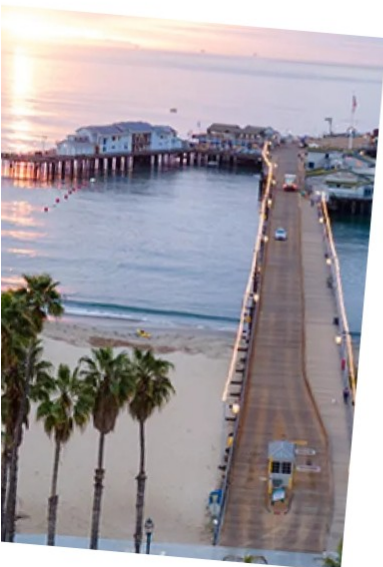

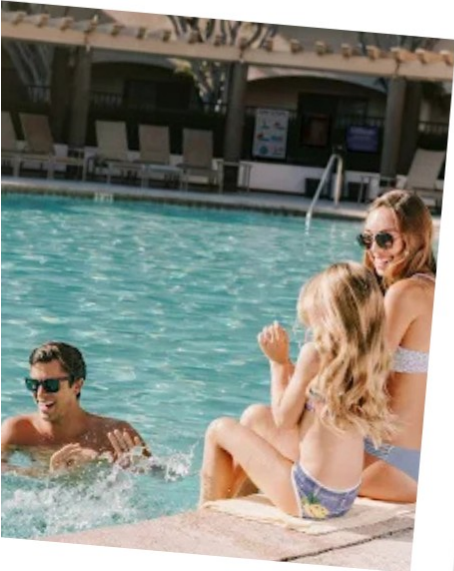

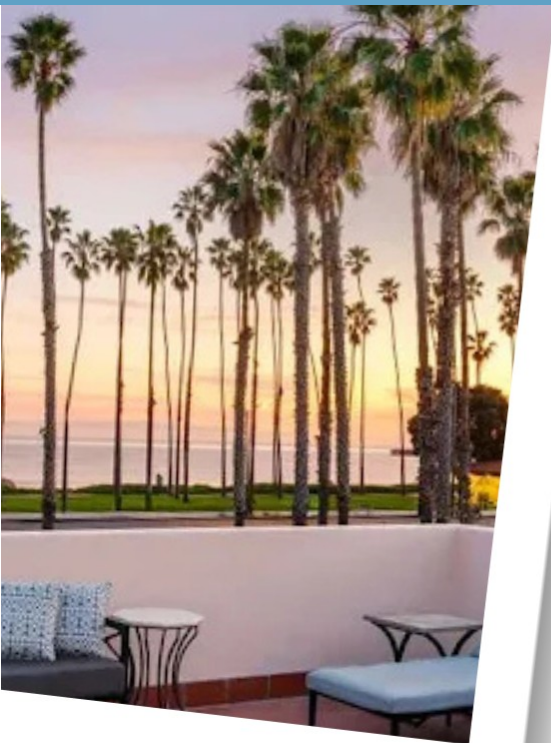

Orthopaedic Surgeons and other Orthopaedic Team members are encouraged to attend.

Educational Objectives

- Understand unique musculoskeletal issues for individuals involved in space travel and undersea exploration and what we can learn to improve care for all patients.
- Be updated on new AI musculoskeletal applications.
- Be reminded of the importance of work/life balance for a successful medical practice.
- Understand unconscious bias potentially involved in an evaluation and how to ensure your evaluations are unbiased.
- Help orthopaedic surgeons understand new orthopaedic innovations and what to expect in healthcare in the next 5 years.
- Update orthopaedic surgeons on new orthopaedic procedures and techniques.
- Help orthopaedic surgeons handle common trauma cases.

This activity is in compliance with California AB 1195 which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. Cultural competency is defined as a set of integrated attitudes, knowledge, and skills that enables health care professionals or organizations to care effectively for patients from diverse cultures, groups, and communities. Linguistic competency is the ability of a physician or surgeon to provide patients who do not speak English or who have limited ability to speak English, direct communication in the patient's primary language.

Santa Barbara Museum of Natural History

Founded in 1916, the Museum has been a beloved educational destination since 1923. Located on a serene 17-acre oak woodland near Mission Santa Barbara and the Botanic Garden, it features 3.5 million specimens—including a striking blue whale skeletons—and the region's only planetarium. SBMNH recently expanded its outdoor exhibits with the Prehistoric Forest and Nature Nook. While walk-ins

Old Mission Santa Barbara

Old Mission Santa Barbara is one of the city's most renowned landmarks. The 10th of California's 21 missions, it's the only one to be continuously occupied by the Franciscans and it's long been referred to as "The Queen of the Missions" for its distinctive twin bell towers. You can take a self-guided tour of the mission, its gardens, cemetery, and chapel. Take a step back into history when you visit the Mission. The Mission Rose Garden across the street is also well worth a visit and makes for a prime picnic spot.

Keynote Speaker

Catherine ("Cady") Coleman, PhD

Catherine ("Cady") Coleman, PhD is a former NASA astronaut and retired Air Force Colonel who has explored the farthest reaches of human experience—from orbiting Earth for over 180 days aboard the International Space Station to diving into the ocean's deepest depths as an aquanaut on the NEEMO mission. With riveting stories of leadership, resilience, and discovery from both outer space and the ocean floor, Dr. Coleman will challenge us to reimagine what's possible—above, below, and within.
