A sample of companies attending **World Summit AI Americas**

What's World Summit AI **Americas?**

We are launching the first ever World Summit AI Americas!

Year one will be an intimate, exclusive gathering of 1000 of the major influencers in AI globally, including 60 speakers, across business, science and tech. On April 10-11, Montreal will host two full days of mind-boggling innovation, heated discussions on AI4good, applied solutions for enterprise, hands-on workshops and the development of plans for advancing the application of AI in the coming year.

Brought to you by the organisers of the World Summit AI the global series made up of the world's largest and most active AI community of over 40,000 members from the global AI ecosystem of enterprise, big tech, startups, investors and science from 161 countries worldwide. The WSAI Global community gathers every October at World Summit AI in Amsterdam to set the global AI agenda.

Tickets are selling fast – book now to secure your place – we will sell out.

What's on?

You'll hear from the most pioneering AI speakers in **business, tech and science** from across the world

You'll be privy to **high level closed-door discussions and plans** for developing AI

You'll be introduced to the **top tech companies** creating mind-blowing AI applications

You'll be the first to hear about the **latest AI innovations and product launches** from across the world

You'll have **fun!**

What World Summit AI **Attendees** say

"At last a "no bullshit" conference on AI! Curated speakers provided us with fundamental insights on where we stand and where we go with AI."

Chief Innovation Officer at Insign

"World Summit AI challenges the way you think about technology and intelligence giving you **great insights on how the world around is going to be.**"

Managing Director Europe at Aaeon

"A whirlwind two days of talks from some of the biggest names in AI including Yann Lecun from Facebook, hands-on workshops and networking opportunities. A cutting edge look at the future of AI and a space where the biggest players in the game could meet and network. Wow!"

Director at Digitalus

"Great event where enterprise and academia meet to join forces and push the limits of AI even further."

Senior Scientist at Philips

What we **talk** about

AI IMPLEMENTATION ROADMAP:

How to embed AI throughout your whole business to increase productivity, accelerate growth and broaden your customer base

MIND-BLOWING ADVANCES IN AI:

Genuinely ground-breaking new innovations in AI soon to go into full-scale application

AI USE CASES:

Cross-industry enterprise stories of how AI has transformed businesses, the impact on the bottom line, the hurdles and challenges faced, what's fact and what's not

ADVANCES IN THE AI REVOLUTION:

From the world's leading tech innovators across industry & academia – the recent breakthroughs in natural language processing, artificial general intelligence, AI and robotics, image and voice recognition, and learning from encrypted data

HOW TO ATTRACT, MANAGE, DEVELOP & GROW THE AI TALENT POOL:

Engaging and enticing talent to be a part of your organization and embracing a culture of test and learn to upskill and reskill your workforce line, the hurdles and challenges faced, what's fact and what's not

AI ETHICS, SAFETY & CREATING VALUE-ALIGNED SYSTEMS:

Building responsible and controlled AI

ANALYSING THE SOCIAL & ECONOMIC IMPACT OF AI:

Implications for productivity, wages and employment

INVESTORS:

Understanding what investors are looking for and how to get a share of the AI investment pie

SPECIALISED
WORKSHOPS

CONSIDERING THE
ETHICS OF AI
