for complete registration information.

Entirely case based, this course features discussion of clinical pearls derived from challenging and unusual cases.

This course is designed for Retina Physicians.

At the conclusion of this course, participants will be able to:

- Identify unusual vitreoretinal disorders.
- Evaluate the most appropriate diagnostic approach for various signs and symptoms.
- Organize seemingly disparate signs and symptoms into a cogent diagnosis.
- Formulate a treatment plan for patients with both medical and surgical retinal diseases.
