14th Annual International Pediatric

Current practice and pediatric expertise

Immerse yourself in this exciting and interactive four-day program, featuring global leaders in pediatric orthopaedic care. From frequently-seen problems to rare conditions that demand specialized care, discover new insights, learn new techniques, and integrate best practices into your care of children and adolescents.

Build your own adventure

Customize your learning experience to match your specific needs! IPOS offers programming for everyone — residents and fellows, non-operative physicians, advanced practice practitioners, as well as experienced orthopaedic surgeons. All subspecialty fields of pediatric orthopaedics are represented, complementing the complexity and diversity of your practice.

In addition to focused lectures and engaging case discussions, select from over 40 breakout sessions, including:

- Surgical skills demonstrations
- Hands-on technical workshops
- Industry-sponsored satellite sessions on cutting edge techniques

Find more details at ipos.posna.org

Orthopaedic Symposium

“This is one of most well-run, well-organized educational meetings with such a depth and breadth of topics in pediatric orthopaedics. I always learn more and improve my practice after attending.”

– 2016 IPOS Attendee

Special IPOS Programming

- IPOS' signature **Annual Top Gun Surgical Skills Competition** for orthopaedic residents and fellows
- **IPOS Mentors Program**, a once-in-a-career chance for practicing orthopaedic surgeons to connect with recognized leaders in the field

NEW IN 2017! Fundamentals in Pediatric Orthopaedics

This one-day intensive review course prepares you for the 2018 Pediatric MOC Recertification Exam, the Board Examination and is an all-around foundation builder in pediatric orthopaedics.

At the conclusion of this course, attendees should be able to:

- Effectively assess children with musculoskeletal conditions requiring care
- Compare and contrast surgical and non-operative treatment options for common pediatric orthopaedic conditions
- Apply alternative treatment techniques for selected pediatric orthopaedic conditions
- Identify, manage, and prevent complications of common pediatric orthopaedic conditions and treatments
- Implement evidence-based strategies for infection control, fracture care, and management of sports-related injuries
