INVITATION

The Global Conference on Pharmacy and Pharmaceutical Science (GPPS 2019) will be held during June 26-27, 2019 at Bali, Indonesia. Pharmacy and Pharmaceutical Science 2019 is a global platform for pharmacists, pharmaceutical-industry professionals, pharmaceutical marketing professionals and researchers, scientists, clinicians, academics, students and other healthcare professionals. The primary goal of the conference is to promote the latest advancements, research and developments, explore the challenges in Pharmacy and Pharmaceutical Science and related areas.

There is a need to improve, educate and upgrade the knowledge and skills of pharma professionals working in rapidly transforming pharmaceutical industry. At this prestigious event, the participants can expect engaging sessions on trending topics along with featured teaching courses, poster sessions and industry symposiums. The global-renowned speakers from the US, UK, Australia, Europe, Canada, Africa, Japan and the Middle East, will share their valuable insights on the advancements in pharmaceutical sciences. Leading pharmaceutical companies are expected to exhibit their latest pharmaceutical manufacturing processes, cutting-edge technologies and top quality machinery.

The pharmacy profession is undergoing substantial transformation towards specialization and specifically up-gradation of quality services. To keep in pace with the rest of the world it is most important for pharmacy to re-engineer, reinvent and realign the methodology in order to be an essential part of the healthcare community. Therefore it is of vital importance that the emphasis should be on upgrading and enhancing skills and professionalism, facilitating staff advancement, pursuing comprehensive global collaboration.

The conference will have the intensive 2-day program with a wide range of topics covering pharmacy practice, pharmaceutical science, drug recalls and shortages, quality and safety of medicines, medication management, governance, best practices, continuing professional development and learning.

GPPS 2019 scientific program includes Pharmacy and Managerial skills Workshops, scientific session, proficient faculty and student poster presentations, student poster and short oral presentation competitions. The state-of-the-art technical information from the pharmaceutical companies will be emphasized in the Pharmaceutical Technologies Show which congregates international pharmaceutical companies from all across the globe.

We look forward to welcome you in Bali.

Best Regards,
Organizing Committee

CONTINUING PROFESSIONAL DEVELOPMENT

GPPS 2019 is a 2 days conference features eminent experts from across the globe who share various thought provoking topics required for the continuous development in pharmacy and pharmaceutical science. Enhanced in-depth learning of new techniques and methods, which the attendees will be able to perform and use the information in their daily healthcare practices. Enhance the degree of skills of pharmacy and pharmaceutical professionals including students by participation in keynote and plenary sessions, hands-on workshops and symposia

In the fast-paced pharmacy field, continuing education is important for career growth and licensure. Pharmacists need continuing education to renew their state licenses. Continuing education focuses on subject areas in health care, including pharmacology, patient counseling, regulatory issues, and other topics that contribute to professional pharmacy practice.

Staying current and constantly learning new skills is critical for any job or career, but even more so when you work as a pharmacist or pharmacy technician. After all, healthcare itself is changing every day and pharmacy is no different. You don't want to wake up one morning and find that you've become irrelevant or worse: a danger to your patients. Technology today makes it easier for those working in the pharmacy profession to keep their continuing education credits up-to-date.

You more than likely wouldn't have become a pharmacist or pharm tech if you didn't enjoy learning for learning's sake. Continuing with your education improves your career outlook, the pharmaceutical outcomes of your patients and your "just because I love learning about pharmacy" attitude.

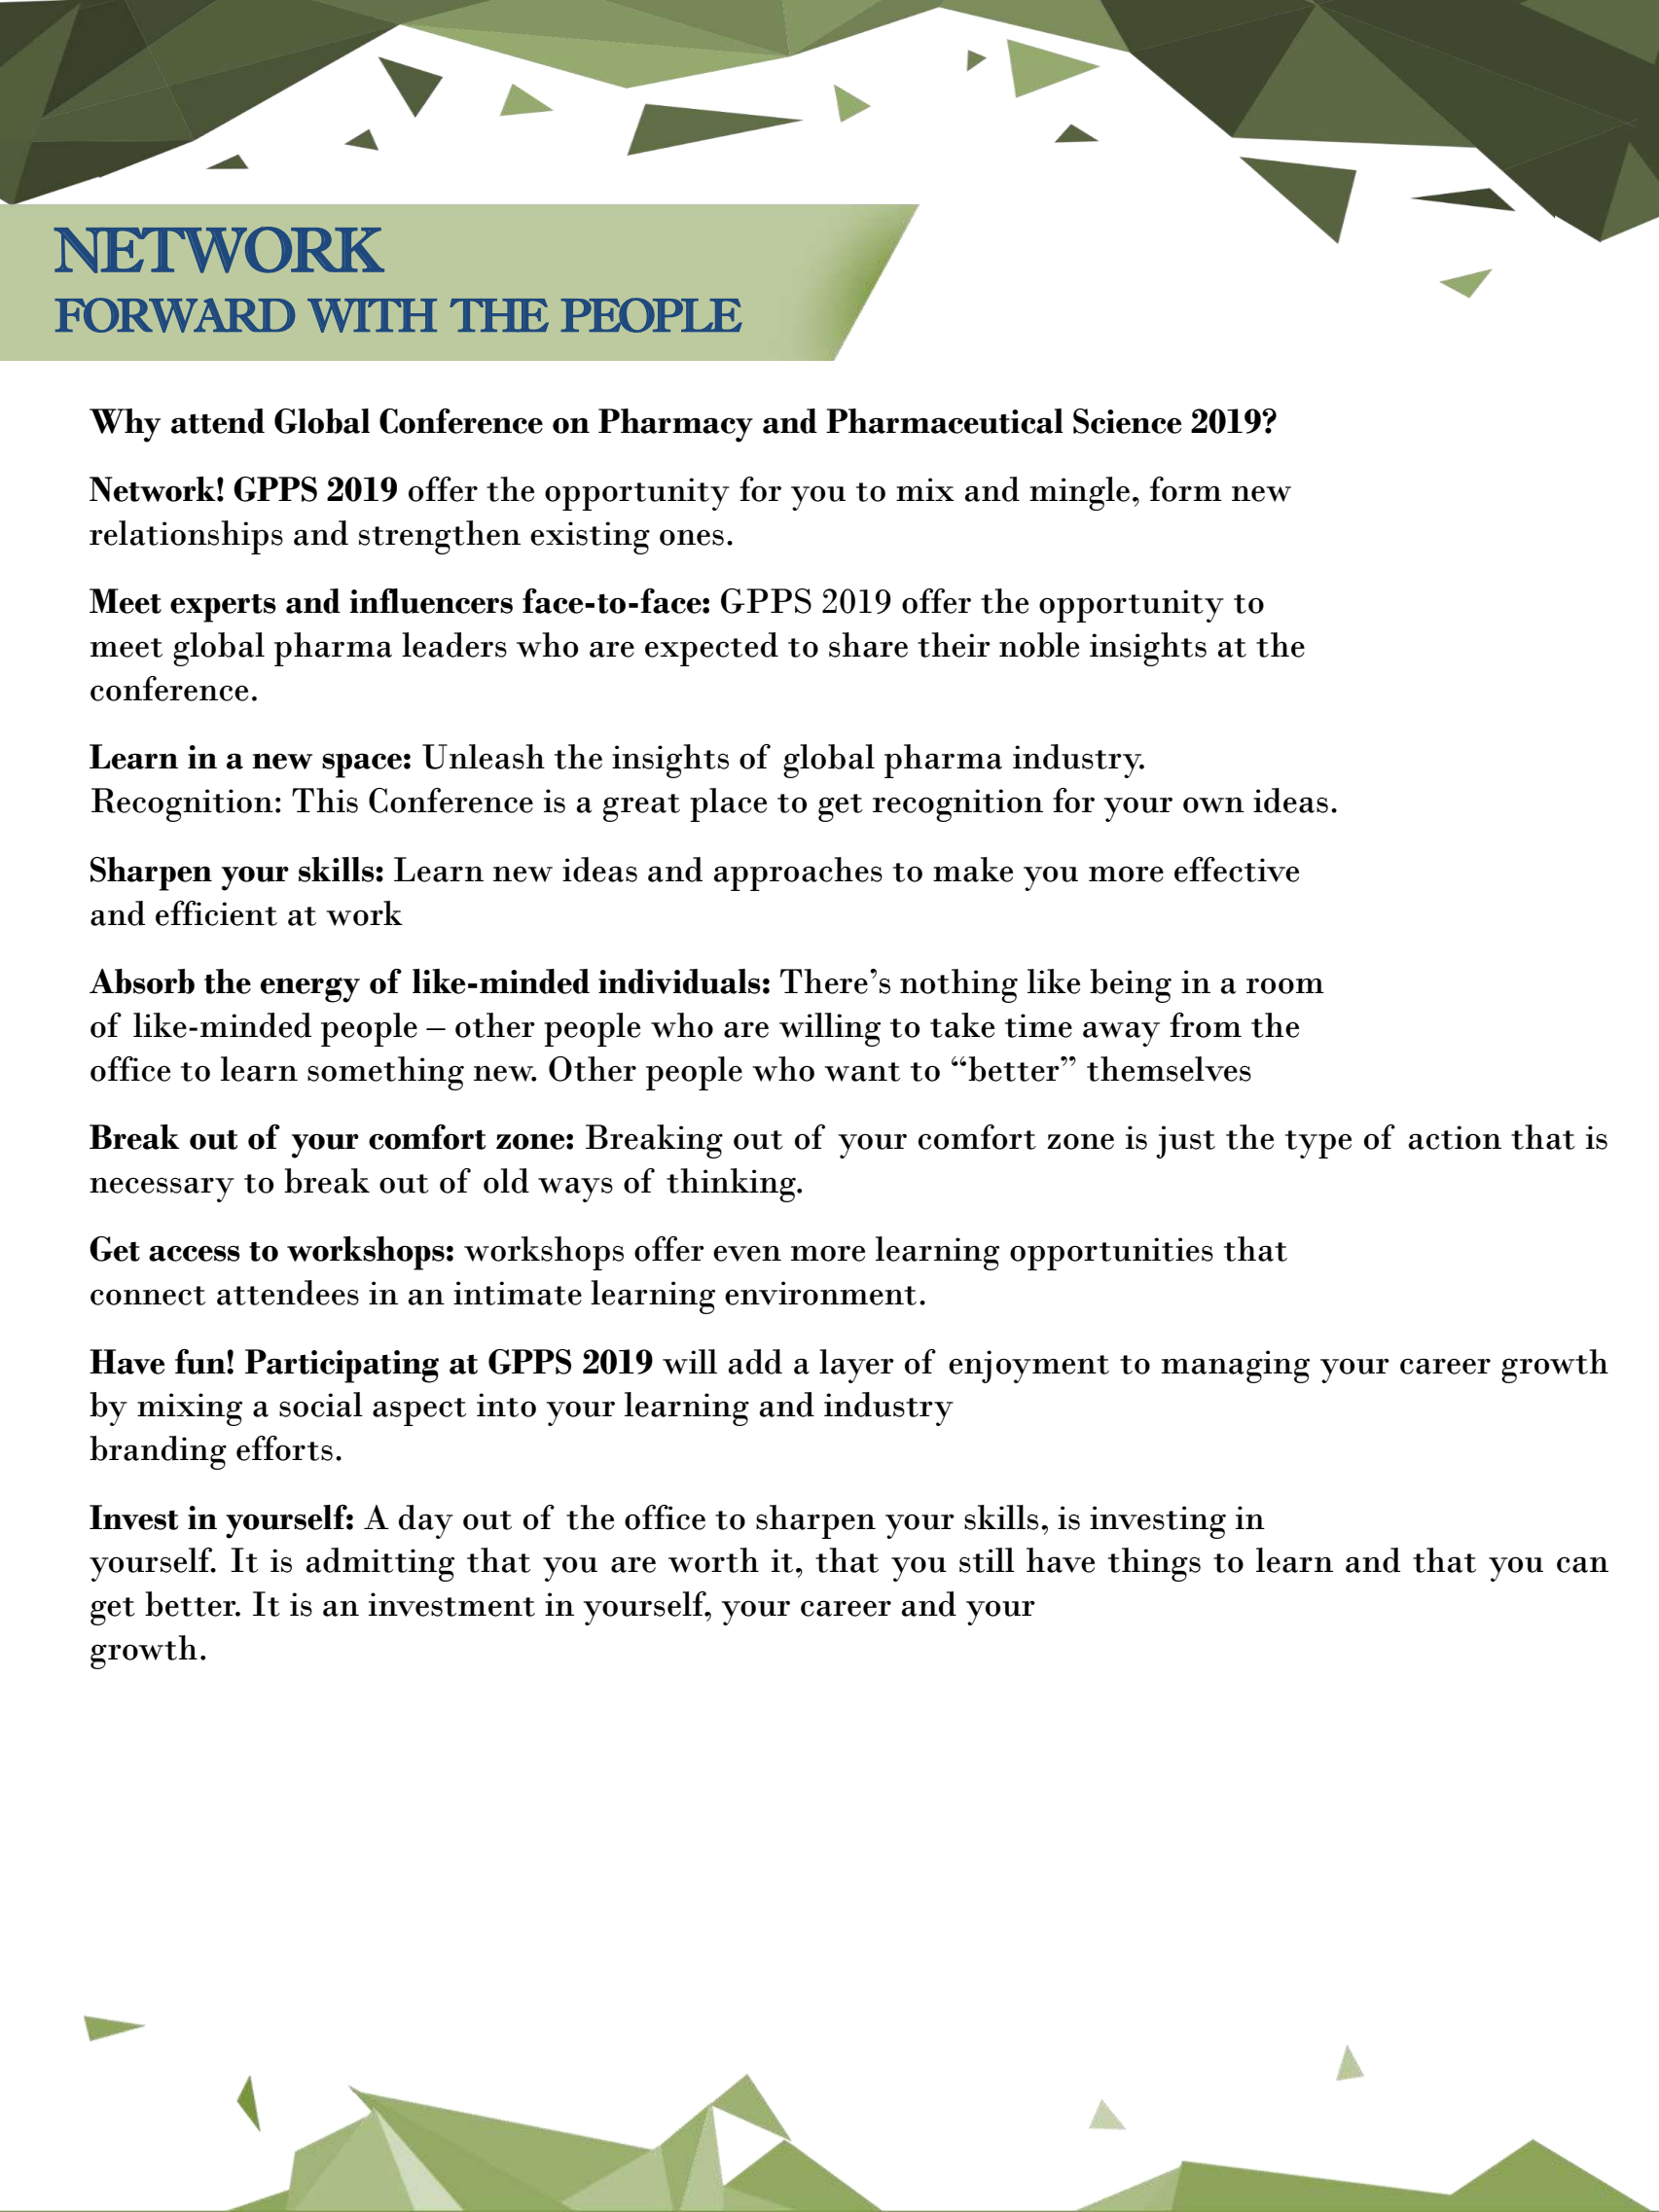

CALL FOR ABSTRACTS

Topics of interest for submission include, but are not limited to:

- **Pharmaceutics**
- **Pharmacology**
- **Pharmacognosy & Phytochemistry**
- **Pharmaceutical Chemistry**
- **Pharmaceutical Biotechnology**
- **Pharmacy Practice**
- **Medicinal Chemistry**
- **Molecular Pharmacology**
- **Novel Drug Delivery System**
- **Nanotechnology**
- **Analytical Chemistry**
- **Organic Chemistry**
- **Natural Chemistry**
- **Polymer Sciences**
- **Clinical Pharmacy**
- **Industrial Pharmacy**
- **Hospital Pharmacy**
- **Regulatory Affairs**
- **Medical Devices for Drug Delivery Systems**
- **Bioavailability and Bioequivalence**

GOOD REASONS TO SUBMIT YOUR ABSTRACT

- **Global Networking** - Discuss your findings with other experts from around the world. Approximately 300 experts will attend the International Conference from approximately 60 countries. Meet with your colleagues who are interested in your topic.
 - **Visibility** - Your name will be recognized in the online Programme.
 - **Improve** - Develop your presentation skills, an essential competence for advancing your career. It is an added value to your resume to make you stand out among other candidates, makes you look like a recognized expert.
 - **Be Creative** - submission allows you to be creative in visually sharing your presentation as either oral or poster presentation.
 - **Opportunity for oral presentation** - Authors of outstanding abstracts will have the opportunity to present their work in diverse sessions at **GPPS 2019**.
- 

NETWORK FORWARD WITH THE PEOPLE

Why attend Global Conference on Pharmacy and Pharmaceutical Science 2019?

Network! GPPS 2019 offer the opportunity for you to mix and mingle, form new relationships and strengthen existing ones.

Meet experts and influencers face-to-face: GPPS 2019 offer the opportunity to meet global pharma leaders who are expected to share their noble insights at the conference.

Learn in a new space: Unleash the insights of global pharma industry.
Recognition: This Conference is a great place to get recognition for your own ideas.

Sharpen your skills: Learn new ideas and approaches to make you more effective and efficient at work

Absorb the energy of like-minded individuals: There's nothing like being in a room of like-minded people – other people who are willing to take time away from the office to learn something new. Other people who want to “better” themselves

Break out of your comfort zone: Breaking out of your comfort zone is just the type of action that is necessary to break out of old ways of thinking.

Get access to workshops: workshops offer even more learning opportunities that connect attendees in an intimate learning environment.

Have fun! Participating at GPPS 2019 will add a layer of enjoyment to managing your career growth by mixing a social aspect into your learning and industry branding efforts.

Invest in yourself: A day out of the office to sharpen your skills, is investing in yourself. It is admitting that you are worth it, that you still have things to learn and that you can get better. It is an investment in yourself, your career and your growth.

Why BALI...?

Bali is the most popular island holiday destination in the Indonesian archipelago. The island's home to an ancient culture that's known for its warm hospitality. Exotic temples and palaces set against stunning natural backdrops are some of its top attractions. Dining in Bali presents endless choices of local or far-flung cuisine. After sunset, famous nightspots come to life offering exciting clubbing and packed dance floors. Inland, towering volcanoes and pristine jungles greet you with plenty to see and do. Most can't stay away from the beach for long, though. For tranquil seascapes and sunrises, the eastern beach resorts are your best bets. These include Sanur, Nusa Dua and the remote coast of Candidasa are your best bets.

Bali received the Best Island award from Travel and Leisure. Bali won because of its attractive surroundings (both mountain and coastal areas), diverse tourist attractions, excellent international and local restaurants, and the friendliness of the local people. The Balinese culture and its religion are also considered as the main factor of the award. One of the most prestigious events that symbolizes a strong relationship between a god and its followers is Kecak Dance. According to BBC Travel, Bali is one of the World's Best Islands, ranking second after Santorini, Greece.

TOP ATTRACTIONS BALI

SEKUMPUL WATERFALLS

By far the most impressive waterfall we have seen in Bali. Dislocated from all other tourist attractions this waterfall is a real gem! At the foot of the waterfall, you will experience its power and be rewarded with a fresh shower and, if the sun is there a beautiful rainbow. The number one on must does in Bali!

TEGALALANG RICE TERRACES

One of the most popular tourist attraction in Bali but still one of our top things to do. Tegalalang is a beautiful rice paddies valley located near Ubud. Experience sunrise or sunset which are the best times to visit Tegalalang.

THE DINOSAUR HEAD OF NUSA PENIDA

Yes, the title is a little strange. Nusa Penida owns some mind-blowing views which the place on the photo is one of. Now, Nusa Penida is a must-visit on our round trip to Bali. Just a 40-minute boat ride from Sanur will get you to experience the most impressive views you will experience around Bali.

UBUD MONKEY FOREST

Ubud Monkey Forest is one of Bali's several grey long-tailed macaque-inhabited forests and perhaps the best known. Also known as the Sacred Monkey Forest of Padangtegal.

BE ENTERTAINED at BALI

SURFING

No matter if you are a surfer or not. Bali is made for surfing. Kuta is for all the beginners like us and loads of other spots like Uluwatu or some beach at Canggu for the more experienced surfers. For all the beginners out there: Grab a board and get an instructor on the beach and you are ready to go!

DREAM MUSEUM ZONE 3D

Dream Museum Zone Bali offers a great time indoors with a collection of galleries that are filled with immersive large-scale wall paintings that create a 3D effect for photos. You can set up your camera timer to share wonderful group shots with friends, or simply pose and play around with the numerous themes available.

UPSIDE DOWN WORLD BALI

Upside Down World Bali adds to the growing list of fun indoor activities on the island, where you can enter seven specially designed rooms whose décor and furniture are simply, and deliberately, the wrong way up. It is where you can enjoy a fun day out with your partner or friends and strike many whacky poses, only to end up as gravity-defying stunts in photos.

BALI NIGHTLIFE

Bali nightlife caters to a wide range of crowds, styles and budgets. Beach clubs to chill-out at sunset and well into the wee hours, night clubs to get loose with live DJs, rooftop bars, theatre shows, or simply an easygoing sunset dinner cruise, all prove that you can enjoy life after dark in Bali.

VENUE & HOSPITALITY

Located on the white sandy beach of Kuta with its beautiful sunsets, Grand Inna Kuta offers direct access to the famous Kuta Beach besides a mere 5 – 10 minute walk to the shopping center and entertainment areas. Only 3 miles from Ngurah Rai International Airport, 6 miles from Denpasar City.

With its refreshing hospitality concept, Grand Inna Kuta offers two distinct design styles in its accommodations – the Bali Wing and the Beach Wing. Featuring a traditional room style with a private balcony in each room, the Bali Wing is designed for those seeking a Balinese ambience. Alternatively a modern touch in the Beach Wing offers a contemporary atmosphere with various choices of views from the room being it pool, sea or garden views.
