WEBINAR
#7227 Vision Cut and Neglect
in Neurological Diagnosed
Patients

Instructor:
Michelle Mioduszewski, MS, OTR/L

Audience: Physical Therapists, Occupational
Therapists, and Assistants, and
related Healthcare professionals.

Delivery Options:
Live Webinar or Self-Study Options

Motivations, Inc.

SUMMARY: Feeling lost in determining a treatment plan with a vision challenged neurological client?

Have you asked yourself:

- What is the best evidence-based therapy protocol?
- How do you know if you are facing a field loss or a neglect?
- How do you determine visual function when your client is confused?
- How do you run an assessment and develop a treatment plan?

Michelle has been in that fog and come out the other side with wonderful, functional, and cost-conscious options to show and share. She sustains that therapy should be specific to the client's challenge and that requires an astute awareness of the impairment. This insight comes from clear assessments that are revealed in this course, along with functional treatment interventions to ensure successful therapy sessions. Michelle shares anecdotes and case studies that highlight how the protocols can be put in to practice. These stories assist in enlightening the inexperienced therapist and commiserating with the experienced therapist. The course content will cover visual field impairment and spatial inattention/neglect commonly experienced after a stroke or brain injury. Course instruction methods include lecture, demonstration, videos, case studies and question/answers. Introductory Level

PRESENTER: MICHELLE MIODUSZEWSKI, MS, OTR/L, has been practicing occupational therapy since 2000 in acute, inpatient rehabilitation, and outpatient settings. She also consults for legal, education, and professional situations. Since her thesis work focused on the impact of FIM testing for the patient with a CVA in the CMS PPS, she has made the pointed effort to work with the neurological population. Currently, Ms. Mioduszewski owns and operates Niagara Therapy, LLC, a team-oriented practice based in Erie, PA that offers OT, PT, and SLP to adults and children with neurological concerns. She is the AOTA Administration and Management Chairperson for the Rehabilitation and Disability Special Interest Section, National MS Society Board of Trustees, and is a National MS Society Partner in Care Designation. She also owns and operates Niagara Therapy Professional Services, LLC and Niagara Properties, LLC. A graduate of D'Youville College in Buffalo, NY, she was the youngest person to receive the Delta Sigma Award from the Marguerite D'Youville College Honor Society. In 2017 she was named 40 under 40 by the Erie Reader. Ms. Mioduszewski was trained in NDT and NEURO-IFRAH (NDTC), Bioness Certified, REO Certified, SAEBO Certified, and specialized in vision and cognitive rehabilitation. A published writer by AOTA Press, she also teaches on topics such as IASTM, Neuro-Rehab/Neuro-Handling, vision, cognition, spasticity, ergonomics and complex wheelchair evaluations. Some attendees have said, "Your dynamic personality kept me engaged...She was very approachable, professional, and made the lecture feel at easy...Knowledgeable, energetic, and interactive..." The instructor(s) received an honorarium for teaching and does not have any financial and non-financial relationships to disclose.
Financial— Received a teaching honorarium from Motivations Inc. *Nonfinancial*— No relevant nonfinancial relationship exists

OBJECTIVES: Upon completion of this course, the participant will be able to:

1. Identify an understanding of visual field loss and visual spatial inattention
2. Identify competent assessment of visual field loss and visual spatial inattention
3. List the difference between field impairment and neglect.
4. Identify treatment interventions for visual field loss and visual spatial inattention
5. Determine effective documentation of assessment to justify skilled services

FORMAT: This is a 3 contact hour course equivalent to 3 CEU's or 0.3 CEUs offered as a live webinar or self-study.

For Live courses, the content is presented via an internet website displaying real time power points. Learners will receive a course instruction link. Instructors lecture through livestreaming internet on your computer. Questions may be asked during the webinar using the chat feature or the "raise hand" feature for live discussion.

For Recorded courses, learners will not be able to participate in real time with questions.

PT CEU's: Motivations Inc is an approved provider of Physical Therapy continuing education by these professional bodies: Texas Chapter of the American Physical Therapy Association, ILDPR- Illinois Department of Professional Regulation Approved PT CE Sponsor, NY- New York State Education Department, Office of the Professions. Physical Therapy Board of California. Many state boards recognize these for pre-approval purposes. Contact us if you would like verification a state.

OT CEU's: Motivations Inc. is an AOTA Approved Provider of professional development. Course approval ID# **04886**. This Live and Distance Learning—Interactive and Distance Learning—Independent and Blended/Hybrid activity is offered at 0.3 CEUs **Introductory-Level**, Occupational Therapy Service Delivery, Foundational Knowledge. The assignment of AOTA CEU's does not imply endorsement of specific course content, products or clinical procedures.

AGENDA:

Pre-Study: 30 Minutes Plan to read the course materials, references and review the post test before the start time. Please be prepared to share patient case study and related question during the discussion time.

45 Min-Define, assess (including documentation example), and treatment of visual field loss

45 Min- Define, assess (including documentation example), and treatment of visual spatial inattention

15 Min-Comparison discussion and alternate cases (cognitive impairment and having both field impairment and neglect)

15 Min-Case study, questions and open discussion

Post-test: 30 Minutes Research, identify, and submit your post test question answers on the online form. This is an open book test you can take multiple times if needed to obtain the 70% score. Complete the evaluation feedback survey and needs assessment. Obtain, review and save your auto-emailed certificate for your files.
