52. Wissenschaftliche Tagung der Deutschsprachigen Mykologischen Gesellschaft e. V.

gemeinsam mit der

Österreichischen Gesellschaft für Medizinische Mykologie

Myk2018

06.–08.09.2018 | INNSBRUCK

www.dmykg-kongress.de

Grußwort

Liebe Kolleginnen und Kollegen,

Wissenschaft wird immer internationaler, so auch die mykologische – ein Teil unserer, besonders jüngeren Mitarbeiterinnen und Mitarbeiter, aber auch unsere Kollegen aus den Nachbarstaaten kommunizieren mit uns ausschließlich auf Englisch. Daher werden einige Symposien und der Gesellschaftsabend weiterhin auf Deutsch abgehalten, die allgemeinen Informationen und viele Workshops sind auf Englisch. Wir hoffen auf Ihr Verständnis!

Welcome note

Dear colleagues,

We hereby warmly welcome you on behalf of the DMyKG and the ÖGMM to MYK2018, the major annual conference of both societies. The conference will be bilingual, only the moderation of the Gala dinner (reached by bus; www.speckbacherhof.at) will mostly be in German. From the workshop title you can deduce the working language and that of your abstract. This bilingual arrangement may facilitate attendance of our international students, but also of our colleagues from neighboring countries. To further support a broad attendance, six ÖGMM travel grants will be announced; three are reserved for ÖGMM members and three are open to all abstract submitters.

The venue is located in the new Biocenter building, about 10–20 min away (by foot) from all hotels, city centre and railway station. The airport is 10 min away by taxi, Munich airport is connected by both a regular train (via Munich Hbf) and an airport taxi service.

Innsbruck is a charming sports and science town and the conference will serve all facets of basic research and clinical mycology.

See you soon in Innsbruck,

Cornelia Speth

Martin Hönigl

Reinhard Würzner

Call for Abstracts

We kindly request your active support by submitting your scientific contributions to the following abstract topics:

- A Diagnosis of Fungal Infections
- B Clinical Relevance of Mycobiome
- C Antifungal Susceptibility and Resistance Mechanisms
- D Clinical Mycology and Therapy
- E Cystic Fibrosis
- F Dermatomykosen (German session)
- G Innenraum- und Umweltmykologie (German session)
- H Taxonomy, Epidemiology and Typing
- J Emerging and Rare Fungal Pathogens
- L Pathogenicity and Virulence
- M Host-Fungus-Interaction

ABSTRACT DEADLINE: 30 APRIL 2018.

Abstracts should be submitted in English online at www.dmykg-kongress.de.

Submissions in German for Abstract topics F and G only.

REGISTRATION

Please register online at www.dmykg-kongress.de.

SPONSORS AND EXHIBITORS

GILEAD Sciences GmbH (Martinsried, München/DE)
Merck Sharp & Dohme Ges.m.b.H. (Wien/AT)
AlphaScience GmbH (Riedstadt/DE)
EUROIMMUN AG (Lübeck/DE)
PathoNostics BV (Maastricht/NL)
PYROQUANT DIAGNOSTIK GmbH (Mörfelden-Walldorf/DE)

State 8 February 2018
