THE SECRETS OF GUIDED BONE REGENERATION IN IMPLANT DENTISTRY: HANDS-ON WORKSHOP

Herman Ostrow School of Dentistry of USC
Saturday, March 17, 2018
9:00 am - 5:00 pm

★ Life-Long Tradition and Excellence ★

Speakers

Bach Le, DDS, MD, FICD, FACD

Dr. Le is a Clinical Associate Professor, Division of Oral and Maxillofacial Surgery and Assistant Director, Oral and Maxillofacial Surgery, Herman Ostrow School of Dentistry of USC and USC Medical Center. He is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, the American Dental Society of Anesthesiologists, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the International College of Dentists and the International Association of Oral and Maxillofacial Surgeons. Dr. Le also maintains a private practice in Whittier, California.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Herman Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Herman Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Synopsis

This bone graft course will feature a combined one-day scientific lecture and hands-on workshop. The course will focus primarily on the principles of guided bone regeneration in implant dentistry and on the most up-to-date techniques in bone grafting to improve long-term clinical success with dental implants. This course is designed for the clinician that has prior implant experience and would like to broaden his/her knowledge and scope of practice and improve surgical skill.

Upon Completion Participants Should Be Able To Know:

- Biologic basis of bone regeneration
- Criteria for patient selection
- Step-by-step surgical procedure
- Properties of barrier membranes
- Selection of biomaterials
- Biologic modifiers and their relationship to bone regeneration
- Flap design for optimal esthetic and predictability
- Guided bone regeneration in various post-extraction defects
- Guided bone regeneration for simultaneous implant placement - "the Esthetic Contour Graft"
- Guided bone regeneration for vertical ridge augmentation
- Proper use of screws in the "screw tent-pole grafting" technique
- All aspects of the post-operative management
- Recognition and management complications associated with guided bone regeneration

This course is intended for:

- Dentists, dental hygienists, dental assistants
- Clinician who has prior implant experience and would like to broaden his/her knowledge and scope of practice and improve surgical skill

Please be cautioned about the potential risks of using limited knowledge when integrating new techniques into your practice.

"Very informational. Dr. Le was great."

- Dr. Tae Oh

"Wonderful as always - look forward to attending future courses."

- Anonymous

"Bach Le is the best."
