Challenges in  
Laparoscopy & Robotics

Since 2004 - Vincenzo Pansadoro Foundation

Dear Friends and Colleagues,  
Covid-19 has been a dramatic experience for all of us and we are still struggling to return to a normal situation. Worldwide vaccination is probably the right thing to do but until that time we have to do our best, with the right security measures, to go back to normality.

With this spirit, we have decided to organize the 18th edition of Challenges in Laparoscopy and Robotics in presence! The city we have chosen for CILR 2022, June 15-16-17, is Milan for the transmission of the Live surgery. The Congress venue will be Grand Hotel Dino located in Baveno, a nice town located on the west shore of Lago Maggiore.

Our first aim will be safety, therefore ,only delegates with a Green Pass or a certificate of vaccination will be allowed to enter the congress center. Every delegate must have a recent PCR molecular test. Only 50% of the seats can be occupied.

Since 2004 Challenges in Laparoscopy and Robotics is the European meeting where, year after year, the new procedures and the new technologies have been presented.

We look forward to a very special edition in a unique venue where cutting edge new technology, innovation, surgical expertise and social friendship will all convene to create a unique event!
