

37th Conference on Pediatric Disease
**UPDATE ON PEDIATRIC PATHOLOGY:
ASPEN CONFERENCE ON PEDIATRIC DISEASE SERIES**

August 6-10, 2018
Mountain Chalet Resort
Aspen, Colorado

CONFERENCE DESCRIPTION

Continuing in the tradition of pediatric pathology conferences in the Aspen area since 1970, the 2018 lecture-based course (with CME and SAM credits) is designed for general and pediatric pathologists, but will be of interest to pediatric surgeons and pediatricians who would like to advance their knowledge in various pediatric neoplastic and non-neoplastic diseases. Handouts and PowerPoint presentations, including case discussions, will be posted on The University of Chicago website. Each participant will receive a 25 case slide set in advance. The cases will be discussed in detail during the conference. A microscope will be available to review with faculty interesting cases that participants may bring to the conference. In addition, there will be space for presenting posters on current topics in pediatric pathology. Abstracts can be submitted by any participant to aliya.husain@uchospitals.edu. Additional information is available at <https://pathology.uchicago.edu> or call Linda Willis at 773-834-2555.

CONFERENCE OBJECTIVES

At the conclusion of this activity, participants will be able to:

- Plan a diagnostic approach to the examination of neoplastic and non-neoplastic childhood diseases;
- Apply molecular genetics to the study of neoplastic and non-neoplastic pediatric diseases;
- Recognize the gross and histologic appearance of various neoplastic and non-neoplastic diseases of major organ systems including the central nervous system, hematopoietic system, bone/soft tissue, digestive tract, liver, kidney, lung, heart, placenta, and skin;
- Identify the appropriate use of ancillary techniques such as IHC Stains, Electron Microscopy, and Molecular Tests in the diagnosis of non-neoplastic and pediatric diseases;
- Recognize a variety of non-neoplastic pediatric diseases through the study of microscopic sections.
