More About 2nd Healthcare and Technology - Africa

About us:

Bricsa Consulting is involved in hosting industry specific gatherings and currently our focus area is Healthcare and Technology, which is one of the key priorities in terms of large-scale development across emerging markets. We have successfully executed programmes in Malaysia, South Africa, India, Saudi Arabia, Qatar, UAE, Kenya and Vietnam while we are exploring some of the upcoming emerging markets like Nigeria, Ghana, Tanzania, Oman, Myanmar among others.

Our programmes are extensively researched and all efforts are put forward to highlight current projects in the respective regions. The audience is a mix of Ministries, Government Agencies, Healthcare Experts, Information Technology Agencies, Infrastructure Developers and Healthcare Maintenance, Consultants and Advisors, etc. with a goal to create a practitioner focused platform and making it a leading global meeting place for the Healthcare Infrastructure and Investment community.
