

Pelvic Floor Imaging Course

June 27, 2026
Hamilton, ON

Join us for a **half-day lecture series** on pelvic floor imaging, offered both **in person and online**. Designed for clinicians and sonographers looking to expand their ultrasound skills, this session explores pelvic floor anatomy, scanning protocols, trauma-related injuries, and prolapse assessment. Build confidence in this emerging area of practice through focused, expert-led learning.

PROGRAM DIRECTOR

Mathew Leonardi, MD, PhD
McMaster University
