## A Joint British Association of Day Surgery & HCUK Conference

# Day Case Orthopaedic Trauma

Wednesday 29th January 2025

Virtual Conference

The GIRFT report on Orthopaedic trauma shows national variation on Orthopaedic trauma being delivered as a day case and has identified an opportunity to improve patient care and release the pressure on inpatient beds. Increasing the delivery of day case orthopaedic trauma surgery across the NHS is achievable and it is important to share learning so that day case surgery becomes the normal in units across the UK. Attendance at this conference will allow delegates to hear from some of the teams delivering high levels of Day Case Orthopaedic Trauma Surgery, both for upper and lower limb trauma. Join us to see how units across the UK have been leading the journey to successful day surgery orthopaedic trauma delivery.

### This conference will enable you to:

- Understand the need nationally to support day surgery orthopaedic trauma delivery.
- Network with colleagues including those from the wider multi-disciplinary team who are working to improve day surgery orthopaedic trauma services.
- Learn from outstanding practice in day surgery orthopaedic trauma provision.
- Reflect on national developments and learning.
- Understand how you can challenge your day surgery pathways and improve patient experiences.
- Identify key strategies for implementation of a day surgery trauma pathway.
- Ensure you are up to date with the latest national practice.
- Self assess and reflect on your own practice.
- Supports CPD professional development and acts as revalidation evidence. This course provides 5hrs training for CPD subject to peer group approval for revalidation purposes

### About the British Association of Day Surgery (BADS)

The British Association of Day Surgery (BADS) is a multi-disciplinary organisation constituted of surgeons, anaesthetists, nurses and allied healthcare professionals, including operating department practitioners, anaesthetic practitioners, perioperative assistants, physiotherapists and hospital managers.

It is committed to promoting excellence in day surgery via its educational activities, publications and collaborations with other organisations including Getting it Right First Time and The Centre for Perioperative Care.

Membership benefits include free access to our online handbooks, advice sheets, day surgery directories and previous annual conference presentations. Members also receive discounted fees for the BADS Annual Conference and HCUK/BADS virtual conferences and are eligible to apply for the BADS Educational Grant and complimentary membership of the International Association of Ambulatory Surgery. They may also submit unlimited publications to the Journal of One Day Surgery without incurring article processing fees.

Further information is available from the BADS website: [www.bads.co.uk](http://www.bads.co.uk)
