1330-1500	Exercise - an under-used intervention for improving health	Improved cancer care in older people Chairs: Siri Rostoft (Norway)	Technical tools in education	Update in Sarcopenia Chairs: Tommy Cederholm (Sweden) and Antonio Cherubini (Italy)	Cognition and dementia Chairs: Anne Rita Øksengård (Norway) and S. Bonin-Guillaume (France)	Comorbidity and multimorbidity Introduction state-of-the-art lecture:	Delirium and psychiatric illnesses Introduction and state-of-the-art lecture:
1330-1500	KL-07 Exercise as primary and secondary prevention Taina Rantanen (Finland) KL-08 An integrated element of medical treatment for age-related diseases Ivan Bautmans (Belgium) KL-09 Adverse events and negative consequences of physical exercise in older people Marius Myrstad (Norway)	S-03 Surgical oncology – what does the surgeon need from the geriatrician? Riccardo Audisio (United Kingdom) Geriatric intervention in frail older patients operated for colorectal cancer - does it improve outcome? Nina Ommundsen (Norway) Geriatric assessment in older cancer patients - what is the evidence? Marjje Hamaker (Netherlands) Common biology of cancer and ageing Claire Falandry (France)	S-11 Using innovative teaching to tackle the big issues facing geriatric medicine Adam Gordon (United Kingdom) Simulation James Fisher (United Kingdom) eLearning Desmond O'Neill (Ireland) Social media Joanne Pattinson (United Kingdom)	S-17 Assessment of sarcopenia parameters in usual practice: results of a EUGMS survey. Olivier Bruyere (Belgium) Standardisation and cut-off points for measuring grip strength. Laura Schaap (Netherlands) The current regulatory environment for sarcopenia and frailty research. Francesca Cerreta (European Medicines Agency)	Dementia guidelines, able to follow? Anne Rita Øksengård (Norway) Depression, when to treat? Sylveie Bonin-Guillaume (France) Dementia and delirium – the missing link Maria Krogseth (Norway)	O-016 Usefulness of cerebrospinal fluid tap test as a treatment for idiopathic normal pressure hydrocephalus in the elderly: a pilot study Valeria Scottichini (Italy) O-017 Association of circadian blood pressure alterations and disease features in Parkinson's disease Davide Liborio Vetrano (Italy) O-018 Oral Health in Older Patients Admitted in a Medical Ward Maria João Serpa (Portugal) O-019 Multimorbidity among the elderly Polish deportees to the Soviet Union who suffer from posttraumatic stress disorder Karolina Piotrowicz (Poland) O-020 Hypotension in nursing home residents on antihypertensive treatment: How significant is it? Birkan Lihhan (Turkey) O-021 Cardiovascular comorbidity in 29 000 patients with different dementia disorders. Religa Dorota (Sweden) O-022 Increased risk of hip fracture in people with self-perceived memory loss. A NOREPOS based prospective cohort study of 10449 individuals aged 67-78 years. Maria Garcia Lopez (Norway)	O-068 Plasma melatonin levels in older hip fracture patients and the occurrence of delirium: signs for a phase shift? Rikie Scholtens (Netherlands) O-069 Physiological melatonin levels in healthy older people Rikie Scholtens (Netherlands) O-070 Heterogeneous cognitive trajectories in the first year after hip fracture Sara Beishuizen (Netherlands) O-071 Feasibility study of the long term impact of acute illness, hospitalisation and delirium on cognitive outcomes after TIA and stroke Sarah Pendlebury (UK) O-072 Characteristic and outcomes of clinical subtypes of delirium in old patients admitted in a sub-acute care unit Maria Gabriela Carrizo (Spain) O-073 Association of depressive symptoms with circadian blood pressure alterations in Parkinson's disease Davide Liborio Vetrano (Italy) O-074 Antidepressant use and cognitive decline in elderly people. Isabelle Carriere (France)
