

SYMPOSIUM PROGRAM

- 46.5 Contact/CE hours plus 9.0 bonus hours
- New Program Feature: Rocky Mountain Retreat

National NURSE PRACTITIONER Symposium

Excellence in Continuing Education
and Professional Development

MOUNTAINS OF EDUCATION, NETWORKING, PROFESSIONAL DEVELOPMENT, AND REVITALIZATION

“Enjoyed the conference tremendously. Great topics and great speakers. Definitely plan on attending again. Love the location.”

— 2017 NNPS attendee

“It was a great experience and I learned some new things which I can use right away. The backdrop was unbelievable. It was an excellent CME.”

— 2017 NNPS attendee

July 19-22, 2018

(pre-symposium day July 18)
(Rocky Mountain Retreat July 17-18)

**KEYSTONE CONFERENCE CENTER
KEYSTONE, COLORADO**

This educational activity has been
a Joint Collaboration between
Dannemiller and National Nurse
Practitioner Symposium

Dear Colleagues:

Thank you for considering the 2018 National Nurse Practitioner Symposium (NNPS) to enrich your professional education. We understand there are many opportunities available to you and take great pride in offering what we believe to be the most comprehensive, high-quality, economical, and accredited program available to Advanced Practice Clinicians anywhere in the country. The NNPS is a unique opportunity to interact with peers from across the country, while enhancing your professional growth, all within the magnificent setting of the Rocky Mountains of Colorado.

The NNPS offers a vast range of content suitable for Nurse Practitioners, Nurse Midwives and Physician Assistants in acute and primary care roles. We are pleased to be able to offer over 40 contact/CE hours through ACCME, ANCC and AANP, with acceptance of pertinent content by ACNM, AAPA and NAPNAP. NNPS content consists of topics in adult, dermatology, geriatric, women's health, pediatrics and acute care, as well as workshops and sessions to enhance professional development. New to NNPS this year is the Rocky Mountain Retreat, a self-care retreat to reflect, regroup and re-charge. Led by Certified Nurse Practitioner and Wellness Coach, Eileen O'Grady, the Rocky Mountain Retreat is destined to be a crowd favorite. We are also pleased to offer you the opportunity to participate in satellite symposia, which consist of programs planned and conducted by the corporate community in conjunction with NNPS.

It is with great pleasure that we are able to present Jeffrey C. Bauer, PhD, as the 2018 Keynote speaker, providing expert insight into healthcare's economics and future. The ever-popular Ethics Forum will address the topic of the non-adherent patient. The Legislative Panel will elaborate on the roles of NPs as effective policy advocates and help you learn how to work on legislation in your home state.

Poster presentations offer an opportunity to learn about research projects and innovative programs. The exhibit hall will be available during dedicated hours to provide you with the opportunity to network with representatives from the healthcare industry, professional organizations, government agencies, colleges, and schools. Learn about new products, services, clinical findings, research findings, and opportunities for Advanced Practice Clinicians. Plan to attend the Awards Ceremony to recognize and honor your peers and their profession.

We strive to offer you an enjoyable and rewarding continuing education and professional development experience. We hope you will join us in Keystone.

DAILY SYMPOSIUM SCHEDULE

TUESDAY, JULY 17 & ONGOING

Play for Free — Play for Free at Keystone is valid for reservations of 2 nights or more booked through Keystone Resort Property Management (KRPm). All activities are subject to availability, weather, restrictions and change. Play for FREE Activities include:

- Free 9 holes of golf after 4 pm on day of arrival
(no advance reservations; call on arrival day to check availability)
- Free cookies at check-in
- Free yoga or fitness class
- Free guided hike
- Free 1 hour tennis court rental
- Free scenic lift ticket for kids 12 and under

TUESDAY, JULY 17 • ROCKY MOUNTAIN RETREAT

8:00 am – 8:30 am	Rocky Mountain Retreat Registration
8:30 am	Shuttle Departure from Keystone Conference Center to Keystone Ranch
9:00 am – 4:30 pm	Rocky Mountain Retreat <i>(optional)</i>
4:30 pm	Shuttle Departure from Keystone Ranch to Keystone Conference Center

WEDNESDAY, JULY 18 • PRE-SYMPOSIUM DAY & ROCKY MOUNTAIN RETREAT

8:00 am – 7:00 pm	Symposium Registration
8:30 am – 12:15 pm	Rocky Mountain Retreat <i>(required if attended Tuesday's Rocky Mountain Retreat)</i>
9:00 am – 10:00 am	"Welcome Warm-up Walk" <i>(optional – non-certified)</i>
10:30 am – 12:00 pm	Pre-Symposium CE Session <i>(optional)</i>
12:00 pm – 1:30 pm	Lunch on Your Own
1:30 pm – 4:30 pm	Pre-Symposium Session <i>(optional – non-certified)</i>
1:30 pm – 3:30 pm	Pre-Symposium CE Session <i>(optional)</i>
3:45 pm – 4:45 pm	Pre-Symposium CE Sessions <i>(optional)</i>
5:00 pm – 6:00 pm	Pre-Symposium CE Sessions <i>(optional)</i>
6:15 pm – 7:45 pm	Pre-Symposium CE Dinner Session <i>(optional)</i>

THURSDAY, JULY 19 • DAY 1

7:00 am – 7:00 pm	Symposium Registration
7:30 am – 8:00 am	Continental Breakfast <i>(complimentary)</i>
8:00 am – 9:30 am	Educational Sessions
9:30 am – 10:00 am	Beverage Break <i>(complimentary)</i>
10:00 am – 11:15 am	Keynote Address & Awards Ceremony
11:30 am – 1:00 pm	Luncheon Sessions <i>(optional – non-certified)</i>
12:00 pm – 6:30 pm	Book Displays & Sales
1:30 pm – 3:00 pm	Educational Sessions
3:00 pm – 3:30 pm	Beverage Break <i>(complimentary)</i>
3:30 pm – 5:00 pm	Educational Sessions
5:00 pm – 6:30 pm	Opening of Exhibits/Reception <i>(complimentary buffet)</i>
7:00 pm – 8:30 pm	Dinner Session <i>(optional – non-certified)</i>

FRIDAY, JULY 20 • DAY 2

7:00 am – 7:00 pm	Symposium Registration
7:00 am – 7:00 pm	Posters on Display
7:15 am – 7:45 am	"Walk & Talk" Around the Lake <i>(optional – non-certified)</i>
7:30 am – 8:00 am	Continental Breakfast <i>(complimentary)</i>
8:00 am – 9:30 am	Educational Sessions
9:00 am – 4:00 pm	Book Displays & Sales
9:00 am – 1:00 pm	Exhibits Open
9:30 am – 10:00 am	Beverage Break <i>(complimentary)</i>
10:00 am – 11:30 am	Educational Sessions
11:30 am – 1:00 pm	Bag Lunch Served in Exhibit Hall <i>(complimentary)</i>
12:15 pm – 1:45 pm	Ethics Forum <i>(optional)</i>
2:00 pm – 3:00 pm	Educational Session
3:00 pm – 3:15 pm	Beverage & Snack Break <i>(complimentary)</i>
3:15 pm – 6:15 pm	Workshops <i>(optional)</i>
3:15 pm – 4:45 pm	Educational Session
4:45 pm – 5:15 pm	Authors Present Posters <i>(complimentary beverages)</i>
5:30 pm – 6:15 pm	Educational Sessions
6:30 pm – 8:00 pm	Dinner Session <i>(optional)</i>
7:00 pm – 8:30 pm	Dinner Session <i>(optional – non-certified)</i>

SATURDAY, JULY 21 • DAY 3

7:00 am – 5:00 pm	Symposium Registration
7:00 am – 5:00 pm	Posters on Display
7:00 am – 7:20 am	"Walk & Talk" Around the Lake <i>(optional – non-certified)</i>
7:30 am – 10:30 am	Workshops <i>(optional)</i>
7:30 am – 8:45 am	Breakfast Sessions <i>(optional – non-certified)</i>
9:00 am – 12:00 pm	Exhibits Open/Book Displays & Sales
9:00 am – 10:30 am	Educational Session
10:30 am – 12:00 pm	Brunch Served in Exhibit Hall <i>(complimentary)</i>
12:00 pm – 1:00 pm	Educational Sessions
1:00 pm – 1:30 pm	Authors Present Posters <i>(complimentary beverages)</i>
1:30 pm – 3:00 pm	Educational Sessions
3:00 pm – 3:30 pm	Authors Present Posters <i>(complimentary beverages)</i>
3:30 pm – 5:00 pm	Educational Sessions
6:00 pm – 7:30 pm	Dinner Session <i>(optional – non-certified)</i>
6:00 pm+	Twilight's Highlights <i>(free time to explore the area)</i>

SUNDAY, JULY 22 • DAY 4

7:00 am – 12:00 pm	Symposium Registration
7:00 am – 10:00 am	Posters on Display
7:00 am – 7:30 am	Home "Stretch" <i>(optional – non-certified)</i>
7:30 am – 8:00 am	Authors Present Posters <i>(complimentary continental breakfast)</i>
8:00 am – 9:30 am	Educational Sessions
9:30 am – 9:45 am	Beverage Break <i>(complimentary)</i>
9:45 am – 10:45 am	Educational Sessions
11:00 am – 5:30 pm	Educational Seminar

CONTACT / CE HOUR CREDIT INFORMATION

A maximum of **46.5** contact/CE hours can be earned by attending the standard AND optional sessions. Final contact hours to be awarded are determined based on final schedule and sessions attended. These hours will be reflected on your individualized certificate, which is available online after completion of evaluations for all sessions attended. One contact/CE hour is equivalent to 60 minutes of educational instruction.

Educational sessions designated with Rx contain pharmacology content. A maximum of **20.0** contact/CE hours can be earned in sessions with pharmacology content by attending the applicable standard AND optional sessions.

Standard Session Contact/CE Hours:

- Thursday: 5.5 hours for Educational Sessions A, KN (Keynote), B, C
- Friday: 6.25 hours for Educational Sessions D, E, F, G, H and .5 hour for Poster Session for a total of 6.75 hours
- Saturday: 5.5 hours for Educational Sessions L, M, N, O and .5 hour for each Poster Session for a total of 6.5 hours
- Sunday: 2.5 hours for Educational Sessions P, Q, 5.5 hours for Educational Seminar R and .5 hour for Poster Session for a total of 8.5 hours

Optional Contact/CE Hours:

- Tuesday/Wednesday: 9.5 hours for Rocky Mountain Retreat Pre 1 (attendance required both days)
- Wednesday: 1.5 hours for Pre-Symposium Session Pre 2, 2.0 hours for Pre-Symposium Session Pre 3 (ANCC provided by Nurse Practitioner Healthcare Foundation), 1.0 hour for Pre-Symposium Session Pre 4 or Pre 5 and 1.0 hour for Pre-Symposium Session Pre 6 or Pre 7 and 1.5 hours for Pre-Symposium Dinner Session Pre 8
- Friday: 1.5 hours for EF (Ethics Forum), 2.5 hours for Workshops, and 1.5 hours for Dinner Session J
- Saturday: 2.5 hours for Workshops

BONUS – Optional Enduring Materials Contact/CE Hours:

- Up to **9.0** contact/CE hours will be offered online post-symposium, complimentary to all registrants. Enduring Materials contact/CE hours are in addition to the **46.5** contact/CE hours offered by attending the standard AND optional sessions in person. Registrants will be notified after the symposium, when online access to Enduring Materials is available. A separate CE Certificate of Completion will be issued for the Enduring Materials portion of contact/CE hours

CONTINUING EDUCATION CERTIFICATES

Participants must complete an electronic overall symposium evaluation (one time only) and individual session evaluations (for each session attended) in order to receive your certificate. Evaluations will be available online following the conclusion of each session and until August 15, 2018. You may print your certificate on-site using the Symposium-provided print station, or at a later point in time in the convenience of your home or workplace. *ANCC, AANP or AMA PRA Category 1 Credit(s)™* certificates will be issued depending upon your profession requirements. Once a certificate has been issued, it can be reprinted for a period of up to 5 years.

NURSE PRACTITIONER CONTINUING EDUCATION

Accreditation Statements

JOINT ACCREDITATION

DANNEMILLER
Healthcare Education

In support of improving patient care, this activity has been planned and implemented by Dannemiller and National Nurse Practitioner Symposium. Dannemiller is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

AANP Credit

American Association of
Nurse Practitioners

This activity has been planned and implemented in accordance with the accreditation Standards of the American Association of Nurse Practitioners (AANP) through the joint providership of Dannemiller and National Nurse Practitioner Symposium. Provider number: 090419. This program is accredited for **46.5** contact hour(s) which includes **20.0** hours of pharmacology.

ANCC Credit

Accreditation Statement (*Session Pre 3 only*): The Nurse Practitioner Healthcare Foundation is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Credit Designation (*Session Pre 3 only*): **2.0** contact hours may be earned for successful completion of this activity.

Dannemiller designates this educational activity for **44.5** contact hours.

ACCME Credit

Dannemiller designates this live activity for a maximum of **46.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ACNM CE Credit

AMA PRA Category 1 Credits™ are accepted by the Continuing Competency Assessment Program of the American College of Nurse-Midwives for programs relevant to nurse midwifery. Nurse Midwives should only claim credit commensurate with the extent of their participation in the activity. Final contact hours to be awarded are determined based on final schedule and sessions attended.

AAPA CE Credit

AAPA accepts certificates of participation for educational activities certified for *AMA PRA Category 1 Credits™* from organizations accredited by ACCME.

NAPNAP Credit

This program has been approved by the National Association of Pediatric Nurse Practitioners (NAPNAP) for NAPNAP contact/CE hours. A listing of NAPNAP approved sessions with Pediatric relevant content will be provided at the symposium information desk on-site.

NURSE PRACTITIONER WELLNESS: A ROCKY MOUNTAIN SELF-CARE RETREAT TO REFLECT, REGROUP AND RE-CHARGE JULY 17-18, 2018 KEYSTONE RANCH & KEYSTONE CONFERENCE CENTER *Optional, Limited Enrollment, Pre-registration required and a fee of \$250.*

WHO: Nurse Practitioners by nature are very giving people, but are you giving so much that you have little left when it comes time to take care of yourself? Are you looking for ways to confront a lifestyle or job that is not serving you? Do you need to learn when and how to say no, step out of the state of being overwhelmed and not feel guilty about it?

If you answered yes to any of these questions, then this retreat is for you!

WHAT: This day and a half retreat that will teach you to:

- gather motivation and set goals to make permanent lifestyle changes
- build on your core strengths
- interrupt the patterns that add stress to your life
- set boundaries and create your own personal policies
- master habit formation
- learn the art of self-care
-and so much more!

WHY: You and your patients are best served when you also take the time to do what's right for you. This retreat will help you reflect, regroup, take charge of this critical component and create the kind of life and work you deserve! We are all in the business of health: promoting it, helping others find it, teaching it and showing it. This retreat will help you master the art of self-care without feeling selfish, because you can't give away what you don't have.

This retreat will keep you in compliance with the ANA Code of Ethics, Provision 5, which states: The nurse owes the same duties to self as to others, including:

- responsibility to promote health and safety
- preserve wholeness of character and integrity
- maintain competence, and;
- continue personal and professional growth

The purpose of the retreat is to singularly focus on the personal and professional growth in caring for the self, which will allow each attendee to build a plan that reflects their most important values. Each person will leave with a sense of duty to make their own health, wellness and wholeness, not only possible, but a priority.

WHERE: Tuesday's program will take place at Keystone Ranch, an original 1930's Ranch homestead of rustic elegance, overlooking Keystone Ranch Golf Course, with spectacular views of Swan Mountain and the Ten Mile Range. Wednesday's program will take place at the Keystone Conference Center, a state-of-the-art facility nestled in a mountain valley in central Colorado's high country, with the magnificent Rocky Mountains serving as the surrounding backdrop.

It is approximately 3.6 miles from the Keystone Conference Center to Keystone Ranch. A complimentary symposium shuttle will transport you between Keystone Conference Center and Keystone Ranch (*see agenda*), however you are welcome to drive yourself if you would like to take a scenic ride at your leisure, before or after Tuesday's program.

RETREAT LEADER: Eileen O'Grady PhD, RN, NP

Dr. Eileen O'Grady is certified Nurse Practitioner and Wellness Coach who uses an evidence-based approach to practice extreme self-care to reverse or entirely prevent disease. She is an expert on intentional change in humans—with an emphasis on the importance of identifying and getting unstuck from lifestyles that do not support wellness.

She operates the School of Wellness near Washington, D.C. and has been featured on NPR's Talk of The Nation as an expert on battling obesity and empowering patients to make permanent lifestyle changes. Her newest book, *Advanced Practice Nursing: An Integrative Approach*, 6th edition, is due out in 2018.

ACCREDITATION: 9.5 contact/CE hours will be awarded to those that attend the entire retreat (partial credit is not available) and complete the required evaluations. Certificates will be offered by ACCME, ANCC and AANP, with acceptance of pertinent content by ACNM, AAPA and NAPNAP.

AGENDA: Tuesday, July 17

8:00 am – 8:30 am	Registration (located at Keystone Conference Center)
8:30 am	Shuttle Departure from Keystone Conference Center to Keystone Ranch
9:00 am – 10:30 am	How We Got Here
10:30 am – 10:45 am	Beverage Break (complimentary)
10:45 am – 12:00 pm	Extreme Self-Care
12:00 pm – 1:00 pm	Lunch (complimentary)
1:00 pm – 2:30 pm	How Adults Change
2:30 pm – 2:45 pm	Beverage Break (complimentary)
2:45 pm – 4:00 pm	Way of Growing
4:00 pm – 4:30 pm	Our Best Selves
4:30 pm	Shuttle from Keystone Ranch to Keystone Conference Center
Overnight	You will have a small overnight assignment

AGENDA: Wednesday, July 18

8:00 am – 8:30 am	Continental Breakfast (complimentary – located at Keystone Conference Center)
8:30 am – 10:30 am	Immunity to Change
10:30 am – 10:45 am	Beverage Break (complimentary)
10:45 am – 11:30 am	Owning Our Strengths
11:30 am – 12:15 pm	Making it Happen
12:15 pm	Adjourn

SYMPOSIUM DESCRIPTION

This multi-day Symposium provides a forum for discussing common matters related to the care of all age groups in a variety of healthcare settings. This year's Symposium will address current trends and issues confronting providers across the country.

THE OBJECTIVES OF THE SYMPOSIUM ARE TO:

- Measure self-reported knowledge gained on selected clinical topics in primary and acute care
- Identify current approaches to client care management which affect your patient population
- Reflect upon ideas and experiences gained from other professionals involved in the delivery of patient care, healthcare policy, entrepreneurial ventures, research activities, and the future of healthcare
- Evaluate possible changes to your current practice methods and barriers to achieving those changes

WWW**9:00 am – 10:00 am Non-Certified “Welcome Warmup Walk”**

A short nature walk to get you acclimated and acquainted with the area. Your group leader will point out features unique to the surroundings, as well as serve a concierge role, answering questions on where to go and what to do during your stay. The walk is informal and interactive. Comfortable walking shoes, a bottle of water and a light jacket are recommended.

Pre 2 10:30 am – 12:00 pm 1.5 Contact/CE Hours**Dermal Dilemmas: Interesting Case Studies 50% Rx****AG DM PED**

Most nurse practitioner courses are short on dermatology, leaving the graduate to seek more instruction outside the classroom. Lesion description and differential diagnosis are crucial to diagnosis and treatment or referral. Incorrect diagnosis can exacerbate the condition. Focus on common case studies presenting to the primary care provider. Lesion description, differential diagnosis and treatment options, as well as referral criteria will be discussed.

Peggy Vernon, RN, MA, C-PNP, DCNP, FAANP; Owner/Dermatology Nurse Practitioner, Creekside Skin Care; Greenwood Village CO

Pre 3 1:30 pm – 3:30 pm 2.0 Contact/CE Hours**AC AG**

This program discusses pain from a contextual perspective, patient selection and assessment of risk associated with opioid use for long-term management of chronic pain, the initiation and modification of ER/LA therapy, ongoing monitoring, and patient and caregiver education. The CDC guideline for prescribing opioids for chronic pain, as well as immediate release opioids, cannabis, and addiction treatment will also be discussed. The curriculum was developed to be compliant with the FDA Blueprint for ER/LA Opioid Analgesic REMS education by the Collaborative for REMS Education (CO*RE). This session meets the opioid education requirements for many states, and is presented by the Nurse Practitioner Healthcare Foundation (NPHF), a member of CO*RE.

Theresa Mallick-Searle, RN, MS, ANP-BC; Nurse Practitioner, Pain Management, Stanford Health Care; Stanford CA and Independent Contractor, Medical Expert Witness on Pain Management and Treatment; Stanford CA

SS1 1:30 pm – 4:30 pm Non-Certified**WH****NEXPLANON® (etonogestrel implant) 68mg Radiopaque Clinical Training Program**

You are invited to join your colleagues at a Clinical Training Program for NEXPLANON (etonogestrel implant) 68 mg Radiopaque. During the Clinical Training Program for NEXPLANON, you will receive hands-on

training for insertion and removal procedures, as well as implant localization techniques. Completion of this course will allow you to order the product from authorized distributor(s). Space is limited to 40 participants; please register early for the session.

This session, which is sponsored by Merck, is not accredited for continuing education credit. The training is open only to MD/DO, NP, PA or CNM's, and Residents authorized to perform the procedures entailed in the insertion and removal of NEXPLANON in the jurisdiction where they practice. And, for NP, PA or CNM's attest that there are specific state requirements and have met all appropriate state conditions including but not limited to collaborative or signing agreement with an MD/DO.

Residents must understand that they can only administer NEXPLANON under the supervision of an attending physician who has also been trained on the procedures to insert and remove NEXPLANON.

It is Merck's policy to verify all clinicians' practice, license, and eligibility information in advance of the training. Merck will contact you directly if there is a problem. Attendees are expected to attend the entire training which is approximately 3 hours in duration. Certificates of attendance will not be issued to those who arrive late or leave early.

Pre 4 3:45 pm – 4:45 pm 1.0 Contact/CE Hour**AG PED****How Probiotics and Prebiotics Affect the Gut Microbiota and Influence Digestive Health 50% Rx**

Hear how the role of the gastrointestinal microbiota on health and disease is emerging as one of the most important topics in public health. Ways that the intestinal microbiota become damaged and the health issues that this creates will be discussed. Understand the scientific basis for how probiotics and prebiotics can be used to improve human health. The latest science on gut health will be reviewed, including recent clinical studies.

Robert Hutkins, PhD; Khem Shahani Professor of Food Science, Department of Food Science and Technology, University of Nebraska; Lincoln, NE

Pre 5 3:45 pm – 4:45 pm 1.0 Contact/CE Hour
Finding a Needle in a Haystack: Using Evidence-Based Clinical Decision Tools to Select Diagnostic Tests 0% Rx

AG

In a busy adult primary care practice, clinicians are pressed to care for patients in a 20-minute visit and provide evidenced-based care. It can be difficult for primary care providers to stay current with the recommendations regarding diagnostic testing and treatment management. Key evidence-based clinical decision making tools will be identified, with demonstration of how to use these tools during a busy clinical day. Through case study discussion, learn cost-effective diagnostic testing, management and treatment goals to support best outcomes for patients, as well as how to navigate the electronic reference tools during the patient's visit.

Karley Trautman, DNP, ANP-BC, AGACNP-BC; Nurse Practitioner, Colorado Primary Healthcare; Littleton CO and Nurse Practitioner – PRN, Blood Cancer and Bone Marrow Transplant, University of Colorado Hospital; Aurora CO

Kandace Shepherd, PA-C; Senior Clinical Lead, Office of Advanced Practice, UCHHealth; Aurora CO and Senior Instructor, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Pre 6 5:00 pm – 6:00 pm 1.0 Contact/CE Hour
Managing Adult ADHD in Primary Care 25% Rx

AG

It is estimated that less than one third of adults who have attention deficit hyperactivity disorder (ADHD) are diagnosed with the disorder. As behavioral health diagnoses are increasingly being managed in the primary care setting, primary care providers, including nurse practitioners, need to obtain an understanding of these disorders and be comfortable in diagnosing and treating them. ADHD is one of the least understood behavioral disorders among primary care providers. Attendees will learn about adult ADHD, available screening tools, as well as treatment options.

Andrew Hoeffler, RN, DNP, NP-C; Family Nurse Practitioner/Element Leader, 355th Medical Group (USAF), Davis-Monthan AFB; Tucson AZ

Pre 7 5:00 pm – 6:00 pm 1.0 Contact/CE Hour
Radiographic Challenges 0% Rx

AC AG PED

Advancements in radiologic studies provide patients with access to minimally invasive diagnostic studies. What are the advantages, disadvantages, risks and benefits of computerized axial tomography (CT) versus magnetic resonance imaging (MRI) compared to ultrasonography? Does a plain film provide sufficient information? When should a patient undergo advanced radiographic studies? The use of advanced radiographic technology is being utilized on a daily basis by all practitioners to identify pathology and determine a patient's diagnosis. As the individual ordering these studies, it is imperative to know which modality will provide the best diagnostic information. Radiographic cases will be utilized to incorporate the principle diagnosis and patient management.

Helen Brown, MS, ACNP, FNP; Nurse Practitioner, Doctors Emergency Services PA, Anne Arundel Medical Center; Annapolis MD and Faculty, AG-ACNP/FNP Programs, School of Nursing and Health Studies, Georgetown University; Washington DC

Pre 8 6:15 pm – 7:45 pm Pre-Symposium Dinner
1.5 Contact/CE Hours
From Outpatient to Inpatient: Antimicrobial Management for Pulmonary Infections by the Non-Infectious Disease APRN 100% Rx

AC AG

Each year millions of Americans seek treatment for pulmonary infections and receive a prescription for antimicrobial therapy. Evidence has indicated these infections are the most common etiology for outpatient visits and a common etiology for inpatient hospitalizations. They represent greater than 40% of all antibiotic prescriptions. While a wide range of these infections require antibiotics, many others do not. The APRN is responsible for providing evidence-based care, while prescribing appropriate antimicrobial therapy and accounting for potential resistant microbes. Hear about commonly treated pulmonary infections and disorders (i.e. pneumonia, bronchitis, etc.) and appropriate antibiotic selection as indicated.

EDUCATIONAL SESSIONS A1 – A6

8:00 am – 9:30 am

1.5 Contact/CE Hours

A1

Pharmacology in Sleep Disorders (including Controlled Substance Prescribing) 100% Rx

AC AG

According to the American Sleep Association, 50-70% of Americans have a form of sleep disorder. Over 4% of adults over the age of 20 have used some form of prescription sleep aid in the past month. There are several reasons for poor sleep and daytime fatigue, and the use of prescription medications to treat these disorders is also increasing. Review medications used in the treatment of sleep disorders, both over the counter and prescription. Appropriate prescribing, dosing and monitoring of these medications, including controlled substances Scheduled II-IV is needed to safely treat your patient with sleep disorder.

Teresa B. Durden, MSN, RN, APRN-BC; Acute Care Nurse Practitioner, Palmetto Heart – Palmetto Health USC Medical Group; Lexington SC

A2

Geriatric Physiology: How Does It Alter Physiologic Response to Illness? 0% Rx

AC AG

The over 65 population is increasing at a rapid rate. All nurse practitioners need to be cognizant of the physiologic changes of aging and its impact on disease presentation. Review the normal physiologic of aging and the elders ability to adapt to acute illness. Using case studies, the changes in the cardiovascular, pulmonary, gastrointestinal, neurologic, hematologic and immune systems impact of disease presentation will be discussed. By contrasting the similarities and differences in disease presentation between elders and their younger counterparts, enhance your diagnostic acumen for managing with serious illness.

Helen Brown, MS, ACNP, FNP; Nurse Practitioner, Doctors Emergency Services PA, Anne Arundel Medical Center; Annapolis MD and Faculty, AG-ACNP/FNP Programs, School of Nursing and Health Studies, Georgetown University; Washington DC

A3

Inflamed Feelings: Understanding the Psychological Impacts of Inflammatory Dermatological Disorders 25% Rx

AG DM PED

The psychological impact of dermatological disorders is under diagnosed and under treated. There is mounting evidence that there is interplay between complex immunology and dermatological disorders. Review the current epidemiological data, screening tools and treatment options for mood and anxiety disorders. Understand where dermatology and psychiatry intersect to lay the ground work for improvement of quality of care for your patients. New data supporting the spectrum of dermatological disorders, the role of the immune system, the expression

www.npsymposium.com

of the disease and their total impact on the mental health of our patients will be presented.

Diane Hanna, APRN, DNP, FNP-C; Dermatology Nurse Practitioner, Modern Dermatology; Shawnee KS and Guest Clinical Faculty, School of Nursing, University of Kansas; Lawrence KS

A4

Estrogen and the Brain 25% Rx

WH

Moodiness, depression, "brain fog," fear of future dementia – perimenopausal women often present with these concerns. Explore the role of endogenous estrogen in brain function and the potential for hormone therapy in managing emotional and cognitive issues. Current evidence on estrogen's effect on mood and cognition will be reviewed, to give you the knowledge and tools needed to help patients with these concerns.

Jan Shepherd, MD, FACOG; Medical Director, Women's Wellness Connection, Colorado Department of Public Health & Environment; Denver CO, Consultant, Boulder Valley Women's Health Center; Boulder CO, and Clinical Associate Professor, Obstetrics & Gynecology, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

A5

Pediatric ENT: Foreign Body Removal 0% Rx

PED

Children put amazing things in strange places. Recommended techniques for removal of foreign bodies in pediatric ears, nose and throat will be discussed, along with dangerous options that should be avoided. Hear about techniques, including balloons, the Kiss, must have instruments, how to stabilize the patient, and when to refer to a specialist.

Peggy Kelley, MD; Director, Microtia and Voice Clinics and Attending Physician, Children's Hospital Colorado; Aurora CO and Assistant Professor, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

A6

Inpatient Hospital Medicine: Are You Up to Date on the Guidelines? 0% Rx

AC PD

Over the past several years, a mandated reduction in work hours for medical residents has increased the demand for nurse practitioners in the hospital setting; however, a deficiency of specialized education has the potential to limit the opportunity for NPs. Learn about the role of the nurse practitioner in the hospital setting. Strategies of the hospitalist NP for admissions and rounding will be discussed, along with approaches for precepting nurse practitioner students in the inpatient setting.

Nycole Oliver, DNP, APRN, RN, FNP-C, ACNPC-AG, CEN; Nurse Practitioner, Emergency Department, Sparks Health System-Van Buren; Van Buren AK and Nurse Practitioner, Hospitalist Group, Prime Physicians LLC; Van Buren AK

**KN****Mastering Chaos: Creativity 101 for Health Care's Daring Spirits 0% Rx****PD**

Innovation is essential for improving the efficiency and effectiveness of health care. Caregivers and the health systems that employ them must learn how to eliminate waste and improve quality, without increasing the overall costs of care. Health professionals who are motivated to reinvent the delivery of health care must understand how to nurture and structure the processes of making appropriate

changes. Hear a practical, entertaining overview of the key characteristics of innovation for leaders and caregivers who want to create something new of value. Examples of art, poetry, science, music, and other creative endeavors will be discussed to define the mind-set of people who make an enduring, positive difference in their respective fields. Obtain a detailed list of personal and professional steps that health care leaders, clinicians and managers alike, can take to enhance their success in meeting the ultimate challenge of health reform — reinventing the way health care is delivered.

Jeffrey Bauer, PhD is an internationally recognized health futurist and medical economist. As an independent industry thought leader, he forecasts the evolution of health care, and develops practical approaches for improving the medical sector of the American economy. He is widely known for his specific proposals to create efficient, effective health care through multi-stakeholder partnerships and other initiatives focused in the private sector. Dr. Bauer has more than 275 publications on health care delivery. His latest books are Paradox and Imperatives in Health Care: Redirecting Reform for Efficiency and Effectiveness (2015) and Upgrading Leadership's Crystal Ball: Five Reasons Why Forecasting Must Replace Predicting and How to Make the Strategic Change in Business and Public Policy (2014). Previous books include Statistical Analysis for Health Care Decision-Makers (CRC Press, 2009), Telemedicine and the Reinvention of Health Care: The Seventh Revolution in Medicine (McGraw-Hill, 1999) and Not What the Doctor Ordered (McGraw-Hill, 1998). As a consultant, he has assisted hundreds of provider, purchaser, and payer organizations with strategic planning and performance improvement initiatives. He served as Vice President for Health Care Forecasting and Strategy for ACS, a Xerox Company, from 1999 to 2010. His own consulting firm, The Bauer Group, specialized in consumer-focused strategic planning and clinical affiliation agreements for multihospital networks from 1984 to 1992. He received his Ph.D. in economics from the University of Colorado-Boulder. He graduated from Colorado College in Colorado Springs with a B.A. in economics and completed a certificate in political studies at the University of Paris (France).

SATELLITE SYMPOSIA
Luncheon Sessions SS2 – SS5

*Optional, Limited Enrollment,
Pre-registration required, No Additional Fee*
11:45 am – 1:00 pm Non-Certified

Please check www.npsymposium.com for updates on session topics.

Verification of clinician's practice and eligibility information may be provided to sponsor for auditing purposes.

EDUCATIONAL SESSIONS B1 – B6

1:30 pm – 3:00 pm

1.5 Contact/CE Hours

B1**Inflammation in Chronic Conditions: Prevention, Assessment & Treatment 100% Rx**

AG

Inflammation is recognized as a precursor or contributor to a myriad of diseases. Learn the latest about the role of inflammation in a range of conditions from diabetes to cardiovascular disease to malignancies and more. How select diagnostic testing can help reveal clinically significant inflammation will be discussed. Discover what measures are potentially helpful to minimize inflammatory risk.

Margaret Fitzgerald, DNP, FNP-BC, NP-C, FAANP, CSP, FAAN, DCC; President, Fitzgerald Health Education Associates, Inc; North Andover MA and Family Nurse Practitioner, Greater Lawrence Family Health Center; Lawrence MA

B2**Making a Cancer Diagnosis: Key Concepts 25% Rx**

AG

It is estimated that approximately 1.7 million new cases of cancer will be diagnosed in the US in 2017, and more than 15 million Americans are living today with a cancer history. Cancer is one of the leading causes of death and disease in the US. Understand the diagnosis and work up of five of the most common cancers: breast cancer, colorectal cancer, lung cancer, prostate cancer and melanoma. Potential barriers to diagnosis will be discussed, as well as what to expect for cancer therapies. The role of the Advanced Practice Provider as an essential member of the multidisciplinary care team making the cancer diagnosis will be highlighted.

Brianna Hoffner, RN, MSN, AOCNP, ANP-BC; Lead Advanced Practice Provider, Medical Oncology, University of Colorado Hospital; Aurora CO and Assistant Professor, Medical Oncology, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Johanna Crock, AGNP-C, MSN, OCN; Nurse Practitioner – GI/Phase I Clinical Trial Clinic, Cancer Center, University of Colorado Hospital; Aurora CO

B3**Pain Management in Pregnancy: It's Not That Complicated 50% Rx**

WH

In a population of pregnant women, most chronic pain situations emanate from musculoskeletal conditions, fibromyalgia, neuropathic pain or chronic headache including migraine. It is important to know the impact of the use of analgesic drugs on pregnancy and the embryo/fetus. Explore the effects of unmanaged pain on the pregnant female, as well as fetus. A sound, evidence-based approach will be provided to safely manage chronic pain in the pregnant patient, including those with an opioid-abuse disorder.

Theresa Mallick-Searle, RN, MS, ANP-BC; Nurse Practitioner, Pain Management, Stanford Health Care; Stanford CA and Independent Contractor, Medical Expert Witness on Pain Management and Treatment; Stanford CA

B4**Clinical Assessment and Management of Sport-Related Concussion: What is the Update from the 5th International Concussion in Sport Meeting? 0% Rx**

AC AG PED

The topic of sport-related concussion continues to take a center spotlight in today's media and science. An estimated 600,000 concussion visits to US Emergency Departments occur annually, and it is unknown how many additional visits occur in primary care, urgent care and specialty settings. Recent studies have revealed a low use of guidelines within the clinical setting, including unnecessary imaging and inconsistency in discharge recommendations. Important updates were discussed at the Berlin-based 5th International Concussion in Sport. Hear about the eleven sections outlined at this meeting: Recognize; Remove; Re-evaluate; Rest; Rehabilitation; Refer; Recover; Return to sport; Reconsider; Residual effects and sequelae, and Risk reduction.

Traci Snedden, PhD, RN, CPNP, CPN, CNE; Assistant Professor, School of Nursing, University of Wisconsin – Madison; Madison WI

B5**Fungal Infections and Antifungals: What You Need to Know 75% Rx**

AC AG

When a critically ill patient has an infection, fungal infections are an important consideration when directing care for this patient population. Fungal infections lead to increased morbidity and mortality. Neutropenic patients are at high risk for contracting fungal infections, but non-neutropenic patients also need to be included in the decision-making process when initiating early antifungal therapy. Treatment for candidiasis and aspergillosis will be explored, using case studies of common and complicated patient situations.

Nancy Munro, RN, MN, CCRN, ACNP-BC, FAANP; Senior Acute Care Nurse Practitioner, Critical Care Medicine Department and Pulmonary Consult Service, National Institutes of Health; Bethesda MD and Faculty Associate, Graduate School of Nursing, Georgetown University; Washington DC

B6**Dealing with Difficult People Effectively 0% Rx**

PD

Health care today is fraught with high stress, high complexity, and fast-paced, high volume expectations. Layer on that high technology, EMRs and over specialization, and then we have a cauldron of issues that lead to Accumulated Stress Disorder (Burnout). What often is lacking in our health professions education and continuing education, is current evidence-based science on effectively working with interpersonal or professional conflict with members of the health care team. When conflict emerges, many well educated health professionals are left without a set of tools to enhance communication within the health care teams. Learn skills which are essential to patient safety and improved health care quality, as well as reducing provider burnout.

Eileen O'Grady, PhD, RN, ANP-BC; Nurse Practitioner and Wellness Coach, Eileen O'Grady Wellness Coaching, LLC; McLean VA and Founder, The School of Wellness; McLean VA

EDUCATIONAL SESSIONS C1 – C6

3:30 pm – 5:00 pm

1.5 Contact/CE Hours

C1

Recognition and Treatment of Heart Failure (Systolic and Diastolic): Primary to Acute Care 25% Rx

AC AG

Diastolic heart failure, or preserved EF (ejection fraction) heart failure and reduced EF or systolic heart failure are two clinical subsets of the syndrome of chronic heart failure that are most commonly encountered in clinical practice. Focus on the recognition, treatment and prevention of heart failure. Current guidelines and research will be discussed to assist nurse practitioners to effectively manage these patients from the primary to acute care setting.

Kristine Scordo, PhD, RN, ACNP-BC, FAANP; Director and Professor, Acute Care Nurse Practitioner Program, College of Nursing & Health, Wright State University – Miami Valley; Dayton OH and Acute Care Nurse Practitioner, Schuster and Associates Cardiology; Dayton OH

C2

Adrenal Incidentalomas: Evaluation and Management 25% Rx

AG

The widespread use of radiographic imaging studies has contributed to increased detection of adrenal incidentalomas; defined as adrenal lesions incidentally discovered through imaging for reasons unrelated to adrenal dysfunction. NPs are integral in the inter-disciplinary assessment and management of these lesions. The two key concerns regarding adrenal incidentalomas: diagnosis of hormone excess function and determination of malignancy will be addressed. Gain knowledge of evaluation guidelines, multi-disciplinary coordination, and indications for specialty referral, which are critical to accurate diagnosis and proper intervention.

Rae Reynolds, MS, RN, ANP-BC; Manager of Advanced Practice Providers and Advanced Practice Nurse, Department of Surgical Oncology, MD Anderson Cancer Center, University of Texas; Houston TX

C3

Menopause: Dilemmas and Options 100% Rx

WH

Nurse practitioners see many women with significant menopausal symptoms, but based on the initial results of the WHI and subsequent press coverage, both they and their patients may be fearful of using menopausal hormone therapy (MHT) to manage the problems. Much reassuring data on MHT has emerged in the fifteen years since the initial publication from the WHI. Awareness of current evidence on the risks and benefits of hormone therapy can increase NPs comfort with helping patients make decisions about MHT. Menopausal hormone therapy (MHT) can be both safe and effective for managing symptoms of menopause. Review the most recent evidence on risks and benefits of MHT. Learn about both hormonal and nonhormonal treatment options for treating menopausal symptoms.

Jan Shepherd, MD, FACOG; Medical Director, Women's Wellness Connection, Colorado Department of Public Health & Environment; Denver CO, Consultant, Boulder Valley Women's Health Center; Boulder CO, and Clinical Associate Professor, Obstetrics & Gynecology, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

C4

The Little Professor Syndrome: A Clinical Update on Autism Spectrum Disorder (ASD) 50% Rx

PED

Children who present with communication disorders such as high functioning autism are often misunderstood, which leads to an array of behavioral and caregiver issues. Focus on applying the best medical and support practices for the ASD child. Evidence-based behavioral management approaches will be discussed, along with medication updates. Hear about parental counseling utilizing a trajectory model for short- and long-term care.

Sonya Montgomery, FNP-BC, PMHCS-BC; Nurse Practitioner, Psychiatry, Focus Behavioral Health; Asheville NC

C5

You Came in as a Trauma and Now You're a Stroke: A Look at Carotid and Vertebral Artery Dissection 50% Rx

AC AG

Cervical arterial (carotid or vertebral arteries) dissection occurs when the intimal wall of an artery is damaged as a result of trauma or defect, and this is increasingly recognized as a cause of transient ischemic attacks and stroke. Overall, dissections are estimated to account for only 2% of all ischemic strokes, but they are an important factor in the young, and account for approximately 20% of strokes in patients less than 45 years of age. Learn about the common presentation in blunt trauma, along with exploring cervical dissections, as they relate to cervical manipulation. Imaging used for diagnosis will be discussed, in conjunction with the latest evidence-based guidelines for the treatment of both traumatic and "spontaneous" dissections, in order to reduce the risk of stroke or further stroke symptoms.

Nancy Denke, DNP, ACNP-BC, FNP-BC, FAEN, CEN, CCRN; Stroke/Neuro Nurse Practitioner, HonorHealth Scottsdale Osborn; Scottsdale AZ and Associate Faculty, DNP Program, College of Nursing and Health Innovation, Arizona State University; Phoenix AZ

C6

The Art and Science of Looking Ahead: Upgrading the Crystal Ball for Creating a Viable Future 0% Rx

PD

Nursing leaders need to understand how to make strategic changes through informed analysis of actual trends and possible outcomes. The major difference between predicting and forecasting will be explained. See why forecasts must replace predictions, as the way to evaluate where organizations are headed and how to get where they want to be successfully. Resources will be identified, along with specific recommendations for executives and caregivers that want to expand their organizations' realm of future opportunities for success in the turbulent, uncertain future of health care.

Jeffrey Bauer, PhD; Health Futurist and Medical Economist; Madison WI

WELCOME RECEPTION (Exhibit Hall)

5:00 pm – 6:30 pm

Buffet and cash bar. Complimentary admission for all Symposium registrants. Tickets for guests of Symposium registrants, adults (21 and over), available for purchase (\$20) with registration or on-site.

SATELLITE SYMPOSIA DINNER SESSION SS6

Optional, Limited Enrollment,
Pre-registration required, No Additional Fee
7:00 pm – 8:30 pm Non-Certified

Dairy Foods and Health: A Body System Tour 0% Rx

AG **PED**

Lifestyle choices, including nutrition, are the cornerstone for health and wellness. Healthy eating patterns can improve nutrient adequacy and help lower chronic disease risk. However, the dietary choices that constitute healthy eating patterns have been debated both in lay publications and scientific literature. Research continues to show the importance of dairy foods, regardless of fat content, on health. Hear a growing body of scientific evidence which indicates that dairy food consumption is associated with multiple health benefits, including lower risk for type 2 diabetes and cardiovascular disease, as well as lower blood pressure and improved musculoskeletal function.

Christopher J. Cifelli, PhD; Vice President, Nutrition Research, National Dairy Council; Rosemont IL

D2

COPD: Utilizing the 2017 GOLD Guidelines to Effectively Manage Acute Exacerbations in the Ambulatory and Acute Care Settings 25% Rx

AC **AG**

COPD is the number one reason for hospitalization in the world and the third leading cause of death worldwide. Chronic obstructive pulmonary disease (COPD) can be complex to manage in the ambulatory or acute care setting. Hear the latest clinical guidelines and treatment options available for patients with COPD, including treatment options available for patients who experience a combination of COPD, asthma, and/or bronchiectasis. Goals of care will be discussed throughout the presentation, and case studies will be utilized to engage the audience in the application of the 2017 GOLD guidelines.

Jennifer Rodgers, DNP, APRN, ACNP-BC; Director, Office of Advanced Practice, University of Colorado Hospital; Aurora CO

D3

What's New in the Dermatology Drug Cabinet? Review of Therapies for Cutaneous Disorders 100% Rx

AG **DM** **PED**

Gain an overview of the most recent therapies for the treatment of common (and not so common) dermatologic conditions, including common bacterial, inflammatory and autoimmune skin disorders. The newest medications, both topical and systemic, will be discussed for the treatment of cutaneous disorders. Learn key patient teaching pearls in order to enhance adherence.

Lakshi M. Aldredge, MSN, RN, ANP-BC; Dermatology Nurse Practitioner, VA Portland Healthcare System; Portland OR

D4**Women's Sexuality at Midlife 50% Rx****WH**

Menopausal hormone fluctuations, life stresses, and aging itself can all affect women's sexuality at midlife. Learn how to help patients manage these issues, so they can continue to enjoy a healthy sex life through and beyond menopause. Hear practical advice on how to help patients adapt to physiologic changes that accompany pre- and post-menopause. Medical and alternate therapies for sexual dysfunction will also be discussed.

Jan Shepherd, MD, FACOG; Medical Director, Women's Wellness Connection, Colorado Department of Public Health & Environment; Denver CO, Consultant, Boulder Valley Women's Health Center; Boulder CO, and Clinical Associate Professor, Obstetrics & Gynecology, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

D5**Exciting New Developments in Pediatric Gastroenterology 25% Rx****PED**

New areas of pediatric gastroenterology will be highlighted. Learn how to use an on-line decision support tool for celiac disease testing. New therapies for pediatric IBD will be discussed, including use of enteral nutrition, SCD diet, and new biologics. Research on cannabis use by adolescents and young adults with IBD will be reviewed. A new type of endoscopy, the new trans-nasal endoscopy procedure will be described, as well as why it is gaining in popularity and how it is used in the clinical setting.

Edward Hoffenberg, MD; Medical Director, Pediatric Inflammatory Bowel Diseases Center, Children's Hospital Colorado; Aurora CO and Professor, Pediatrics, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

D6**Orthopedic Care for the Urgent Care or Acute Care Setting 25% Rx****AC AG**

Nurse practitioners and physician assistants are often the first provider to see orthopedic injuries in the urgent care setting. Management of these injuries can be unnerving for those without immediate access to orthopedic specialty care. Review the general techniques for evaluation, management and disposition of orthopedic injuries. It is imperative to understand when to refer an injury immediately and when a delay is acceptable. Though the use of case studies, orthopedic radiograph interpretation and appropriate use for applying or forming splints will be discussed, along with how to communicate your findings and assessment to the orthopedic specialist to facilitate follow-up.

David L. Priebe, MD; Director, Department of Sports Medicine, Lexington Family Medicine Associates; Lexington NE

**EDUCATIONAL SESSIONS E1 – E6****10:00 am – 11:30 am****1.5 Contact/CE Hours****E1****Pharmacogenomics: Exploring Genetic Variations in Drug Metabolism 100% Rx****AG**

Pharmacogenomics is the study of how genetic variations influence an individual's response to drugs. Evidence-based research on how genetic variations influence an individual's response to drugs is expanding. How do genetics influence drug metabolism? What ethnic groups are at greatest risk for genetically based adverse effects with select medications? How do pharmacogenomic factors affect clinical practice? Learn the answers to these questions and more in this informative case-based program.

Margaret Fitzgerald, DNP, FNP-BC, NP-C, FAANP, CSP, FAAN, DCC; President, Fitzgerald Health Education Associates, Inc; North Andover MA and Family Nurse Practitioner, Greater Lawrence Family Health Center; Lawrence MA

E2**Primary Care Considerations for Patients with Severe and Persistent Mental Illness 75% Rx****AG**

Patients with severe and persistent mental illness are an underserved population and can be challenging to provide with primary care services. Severe and persistent mental illness (SPMI) are disorders with complex symptoms, which seriously impair a person's ability to function, and thus require ongoing treatment and management. These include bipolar, schizophrenia, schizoaffective disorder, severe depression, delusional disorders, and psychotic disorders. Review the special considerations that must be taken when providing preventive maintenance, education, and disease treatment for this population.

Nick Nelson, MPH, MS, CNP, CCMS; Family Nurse Practitioner, Southeast, Inc Primary Care Clinic; Columbus OH and Adjunct Faculty, College of Nursing, The Ohio State University; Columbus OH

E3**So You Think You Want to Do Aesthetics? Key Landmarks and Pitfalls to Know and Avoid 25% Rx****AG DM**

People assume that Aesthetics is easy to begin practicing. The rise of popularity of dermatological aesthetic procedures have led to the "see one, do one, teach one" approach for these complex procedures. Often there are not adequate training and education opportunities for nurse practitioners, which increases the risk for a dissatisfied patient, poor outcomes or worse, complications. Key head and neck anatomy and landmarks will be reviewed, along with pitfalls to avoid. Case reviews of complications and treatment approaches will be discussed.

Diane Hanna, APRN, DNP, FNP-C; Dermatology Nurse Practitioner, Modern Dermatology; Shawnee KS and Guest Clinical Faculty, School of Nursing, University of Kansas; Lawrence KS

E4**Vulvar Biopsy: Indications and Effective Techniques 0% Rx****WH**

Vulvar lesions can present challenges: to biopsy or not. Review indications for vulvar biopsy, as well as how to appropriately interpret results and initiate treatment. Techniques that minimize patient discomfort will be discussed. Understand how to make appropriate decisions and treatments based on pathology results.

Kristina M. Tocce, MD, MPH; Assistant Dean for Student Affairs, Division of Medical Education, Assistant Dean for the Clinical Core, Office of Undergraduate Medical Education, Assistant Director, Fellowship in Family Planning, and Associate Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

E5**What Would you Do? Pediatric Case Studies 0% Rx****PED**

Pediatric case studies will be presented to encourage attendees to critically think about how to evaluate and/or treat an assortment of patient presentations. Review and discuss actual clinical cases to include current and pertinent clinical recommendations and guidelines in this highly interactive session. Learn when and how to best use a combination of history taking, physical exam, laboratory, and imaging information, through comparing and contrasting clinical approaches to the question: What would you do?

James Harrington, MD; Pediatrician, Greenwood Pediatrics; Littleton CO

E6**Cardiac Diagnostic Testing: What to Order When 25% Rx****AC AG**

In this cost conscious era, NPs need to be aware of what cardiac test will provide the most amount of information for them to make clinical decisions. Cardiac diagnostic tests help clinicians appraise and revise disease probability for their patients. Diagnostic tests should be ordered to answer specific questions. Clinicians need to be aware of the sensitivity and specificity of each test, as well as associated appropriate use criteria. Information will be provided on, but not limited to, multiple forms of testing such as EKG, stress testing, nuclear imaging, and ultrasound imaging.

Kristine Scordo, PhD, RN, ACNP-BC, FAANP; Director and Professor, Acute Care Nurse Practitioner Program, College of Nursing & Health, Wright State University – Miami Valley; Dayton OH and Acute Care Nurse Practitioner, Schuster and Associates Cardiology; Dayton OH

BAG LUNCHES (EXHIBIT HALL)**11:30 am – 1:00 pm****ETHICS FORUM (EF)****12:15 pm – 1:45 pm****1.5 Contact/CE Hours**

*Optional, Pre-registration required,
No additional fee.*

EF Ethics Forum: Non-Adherent Patient 0% Rx**PD**

What is the clinician's ethical obligation when a patient refuses to follow provider recommendations for treatment? How will your ethics training guide you? What are the ethical issues and options when patients choose treatments that you do not recommend? What is the NP's ethical obligation with the non-adherent patient with chronic conditions, when it affects outcomes and practice revenue in a pay for outcomes arrangement? Panel members and the audience will engage in a lively discussion to explore the legal, ethical, moral, and health ramifications involved.

Jacqueline J. Glover, PhD; Professor, Pediatrics, Preventive Medicine and Biometrics, and Center for Bioethics and Humanities, University of Colorado Anschutz Medical Campus; Aurora CO and Co-Director, Program in Bioethics, Children's Hospital Colorado; Aurora CO

Christine Kessler, MN, CNS, ANP, BC-ADM, CDTC, FAANP; Nurse Practitioner, Metabolic Medicine Associates; King George VA

Nancy Rudner, DrPH, MPH, RN; Health Coach and Consultant, Health Action; Maitland FL and Graduate Faculty, School of Nursing, George Washington University; Washington DC

**EDUCATIONAL
SESSION F1****2:00 pm – 3:00 pm****1.0 Contact/CE Hour****F1 Showcasing NP Value Through Initiatives Targeting High Value Care 0% Rx****PD**

As a way to improve healthcare and eliminate unnecessary testing, the concept of high value health care has been promoted as a way to produce the best health outcomes at the lowest cost. High value health care has been identified as a method for improving health, avoiding harms, and eliminating unnecessary testing and procedures. While reports of measures to promote high value health care exist in the literature, little is known about the impact of nurse practitioner led initiatives targeting high value health care. Hear about the role that NPs can play in promoting clinical practice changes by targeting implementation of initiatives, including an ongoing NP national collaborative to showcase their role in promoting high value healthcare.

April Kapu, DNP, APRN, ACNP-BC; Associate Chief Nursing Officer and Director for Advanced Practice, Center for Nursing Excellence, Vanderbilt University Medical Center; Nashville TN, Assistant in Critical Care, Department of Anesthesiology, School of Medicine and Associate Professor, School of Nursing, Vanderbilt University; Nashville TN

Ruth Kleinpell, PhD, AG-ACNP, FAANP; Assistant Dean for Clinical Scholarship and Professor, School of Nursing, Vanderbilt University Medical Center; Nashville TN, Professor, College of Nursing, Rush University; Chicago IL and Nurse Practitioner, Urgent Care Lincoln Park Clinic, Rush University Medical Center; Chicago IL

WORKSHOP SESSIONS WS1 – WS3**3:15 pm – 6:15 pm (break 4:45 pm – 5:15 pm)****2.5 Contact/CE Hours***Optional, Limited Enrollment,**Pre-registration required and a fee of \$95.**Enrollment is limited in order to maintain quality of instruction.***WS1****Orthopedic Exam 0% Rx (Repeated on Saturday, WS5)****AC AG PED**

Orthopedic examination continues to be a weak area for many primary care providers. However, musculoskeletal complaints, especially back pain, shoulder, and knee pain are some of the most common reasons for primary care visits. Develop your comfort level and a better understanding of the techniques of examination and their meaning. Participants will work in small groups with preceptors, while at a master station the techniques for a specific examination will be discussed and demonstrated. Practice common office based orthopedic exams specific to ambulatory care diagnosis, including cervical and lumbar spine examinations. Hands on workshop so please wear comfortable clothing.

Christopher R. Hemmer, DNP, ANP; Vice President and Adult Nurse Practitioner, Orthopedic Spine Surgery, Piper Spine Care; St. Peters MO, Assistant Professor, School of Nursing, Saint Louis University; St. Louis MO

WS2**Use of Advanced Radiology in the Diagnosis of Challenging Patient Problems 0% Rx****AG PED**

Focus on the use and interpretation of advanced radiographs of chest, abdomen and neurology cases. In this digital age radiographs are easily accessible to nurse practitioners to view and interpret. Using case studies, the radiographic findings will be correlated with the patient's presentation and assessment. Develop the skills needed to identify pathology on review of advanced radiographs to incorporate into the daily care of your patients. Radiographs across the life span will be reviewed including unusual findings on plain radiographs, CT scans, MRI, and Sonogram.

Helen Brown, MS, ACNP, FNP; Nurse Practitioner, Doctors Emergency Services PA, Anne Arundel Medical Center; Annapolis MD and Faculty, AG-ACNP/FNP Programs, School of Nursing and Health Studies, Georgetown University; Washington DC

WS3**Interpreting the 12 Lead ECG: Case Study Approach 0% Rx****AC AG**

Interpreting patients' 12-lead ECG is a skill that all nurse practitioners need to understand. However, it is a skill that requires practice. Through a case study approach, participants will learn how to approach interpretation of a patient's 12-lead ECG, starting with normal and progressing to bundle branch blocks, atrial and ventricular chamber enlargement, followed by ischemia, injury and infarction. Workshop is geared towards nurse practitioners who have an understanding of rhythm interpretations and want to pursue more advanced skills in identifying changes in the 12-lead ECG and their potential clinical significance.

Kathy Magdic, DNP, RN, ACNP-BC, FAANP; Coordinator, AG-ACNP Area of Concentration Acute & Tertiary Care and Assistant Professor, School of Nursing, University of Pittsburgh; Pittsburgh PA

EDUCATIONAL SESSION G1**3:15 pm – 4:45 pm****1.5 Contact/CE Hours****G1****Legislative Panel: Don't Get Mad—Get in There!****NPs as Effective Policy Advocates 0% Rx****PD**

Legislation affects you, your ability to practice, and your patients. NPs are excellent clinicians and effective patient advocates, but often do not feel knowledgeable or confident in their ability to impact policy, seeing this activity as far removed from their clinical expertise and skillset. Join speakers from the policy trenches of their home states, who will share practical advice for getting past self-doubt, getting psyched—and getting in there.

Gail Adcock, MSN, RN, FNP-BC, FAANP, FAAN; Representative, District 41, North Carolina House of Representatives; Raleigh NC and Chief Health Officer, SAS Health Care Center; Cary NC

Danielle Howa Pendergrass, DNP, APRN, WHNP-BC; President-Owner/ Women's Health Nurse Practitioner, Eastern Utah Women's Health; Price UT and Consultant, Center to Champion Nursing in America; Washington DC

AUTHORS PRESENT POSTERS**4:45 pm – 5:15 pm****.5 Contact/CE Hours****INTENSIVES H1 – H5****5:30 pm – 6:15 pm****.75 contact/CE Hours****H1****Marijuana and E-Cigarettes: Legal but SAFE??? 0% Rx****AG PED**

Marijuana for recreational or medical use is growing throughout the United States. E-cigarettes are available everywhere, including the Internet. While millions are being exposed to these products, their effects on development of disease, other addictions and on behavior of children are not fully understood. Hear the data that is currently available to make more informed decisions on recommendations for your patients.

David Tinkelman, MD; Medical Director, Health Initiatives, National Jewish Health; Denver CO

**H2****Regenerative Medicine: Opportunities and Challenges 25% Rx****AG**

In the past decade, mesenchymal stem cells (MSCs) have emerged as a novel treatment showing considerable promise for use in cartilage repair in degenerative joint disease. Understand the pathogenesis of pain and cartilage damage in Osteoarthritis and explore novel treatment options. Stem cell therapy, hyperbaric oxygen therapy and others currently being studied and utilized will be discussed, along with some of their limitations and challenges.

Nancy Denke, DNP, ACNP-BC, FNP-BC, FAEN, CEN, CCRN; Stroke/Neuro Nurse Practitioner, HonorHealth Scottsdale Osborn; Scottsdale AZ and Associate Faculty, DNP Program, College of Nursing and Health Innovation, Arizona State University; Phoenix AZ

H3**Bacterial Vaginitis: The Human Microbiome from Benchtop to Bedside 0% Rx****WH**

The interaction between human beings and the tens of trillions of microbes that live on and in us is a complicated and dynamic one. As our knowledge of the microbiome increases, so does the awareness of its importance in human health. Focus on how knowledge of the vaginal microbiome is radically altering the approach to the diagnosis and management of bacterial vaginosis, and how the puzzle of this common and yet elusive condition may finally be solved.

Charles Cartwright, PhD; Vice President and Director, Research and Development; Infectious Disease, Laboratory Corporation of America; Burlington NC

H4**Breastmilk as Epigenetic Medium 25% Rx****PED**

Breast milk, a complex, dynamic and highly adaptable biological system, provides optimal nutrients essential for an infant's growth and neurodevelopment. Its ability to prevent or reduce a risk of several acute and chronic diseases is widely documented. Hear emerging evidence which suggests that this highly adaptable biological system also contributes to gene regulation via epigenetic mechanisms, influencing an infant's health trajectory later in life.

Sylvia Metzger, MPH, MSN, FNP-C, IBCLC; Clinical Instructor /Home Visitor, Nurse-Family Partnership, University of Colorado—Colorado Springs; Colorado Springs CO and Lactation Consultant, St. Francis Medical Center, Centura Health; Colorado Springs CO

H5**Grow Your Own APRN Workforce 0% Rx****PD**

APRNs can be developed from existing nurses who live and work in rural and underserved communities which are in need of primary care providers, without the need to relocate someone from outside the community. Colorado has a statewide grant funded program in place currently that is successfully recruiting nurses in provider shortage areas to return to school and become the primary care providers of choice. Gain the evidence and the tools to allow any community in need of providers to build a new APRN provider workforce from within.

Ingrid Johnson, DNP, MPP, RN; Project Director, Rural and Underserved APRN Project, Colorado Center for Nursing Excellence; Denver CO

DINNER EDUCATIONAL SESSION J1**6:30 pm – 8:00 pm****1.5 Contact/CE Hours***Optional, Limited Enrollment,**Pre-registration required and a fee of \$25***J1****Opioids in Gastroenterology: The Good, Bad and Ugly 75% Rx****AG**

In the United States, 4% of adults are taking chronic opioids primarily for non-cancer pain. Healthcare providers need to consistently rule out opioid therapy as the cause of gastrointestinal symptoms, such as opioid-induced constipation, gastroparesis, ileus and the narcotic bowel syndrome. The pharmacologic effects of opioids in different regions of the GI tract and their clinical correlates will be reviewed, as well as the therapeutic approach to effectively treat specific opioid related disorders. Benefits of selective opioids, such as shorting the time to first postoperative stool, improving diarrheal conditions, and global symptoms in irritable bowel syndrome will also be discussed.

Carl Robert Dahl, MD; Staff Physician, VA Eastern Colorado Health Care System; Denver CO and Clinical Associate Professor, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

WT2

7:00 am – 7:20 am Non-Certified

“Walk & Talk” Around the Lake

A continuation of the previous day's “Walk & Talk” (WT1), however your group leader will revise the structured conversation points, so you can benefit from participating on one or both days of the “Walk & Talk”. This is your last opportunity to network with peers during a casual morning walk around Keystone Lake (approximately 1.2 mile). Remember to bring comfortable walking shoes and a light jacket.

WORKSHOP SESSIONS WS4 – WS7

7:30 am – 10:30 am (break 8:30 am – 9:00 am)

2.5 Contact/CE Hours

Optional, Limited Enrollment, Pre-registration required and a fee of \$95. Enrollment is limited in order to maintain quality of instruction.

WS4

Suturing Skills: Beginning to Advanced 0% Rx

AC AG DM PED

Gain an overview of the management of traumatic lacerations, followed by a hands-on workshop. Practice basic or advanced suture techniques on pig's skin, with guidance from a preceptor. Beginners with no experience will learn single-layer closure. Intermediate and advanced students will learn landmarks for peripheral nerve block, multi-layer and flap closure techniques.

Vincent Markovchick, MD, FAAEM, FACEP; Staff Physician, Emergency Medical Services, Denver Health Medical Center; Denver CO and Professor Emeritus, Emergency Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Maria Moreira, MD; Program Director and Physician, Emergency Medicine Residency, Denver Health Medical Center; Denver CO

WS5

Orthopedic Exam 0% Rx (Repeat of Friday, WS1)

AC AG PED

Orthopedic examination continues to be a weak area for many primary care providers. However, musculoskeletal complaints, especially back pain, shoulder, and knee pain are some of the most common reasons for primary care visits. Develop your comfort level and a better understanding of the techniques of the examination and their meaning. Participants will work in small groups with preceptors, while at a master station the techniques for a specific examination will be discussed and demonstrated. Practice common office based orthopedic exams specific to ambulatory care diagnosis, including cervical and lumbar spine examinations. Hands-on workshop, so please wear comfortable clothing.

Christopher R. Hemmer, DNP, ANP; Vice President and Adult Nurse Practitioner, Orthopedic Spine Surgery, Piper Spine Care; St. Peters MO, Assistant Professor, School of Nursing, Saint Louis University; St. Louis MO

WS6

Pulmonary Function/Spirometry 0% Rx

AG PED

Pulmonary Function Testing is a useful and common tool in the evaluation of respiratory symptoms. Spirometry is relatively easy to perform in clinic and yields reliable and reproducible data. The interpretation of this information aids in making management decisions to help take care of patients. Focus on Pulmonary Function Testing from two perspectives: 1) discussion to introduce the basic concepts of simple interpretation and case-based examples, and 2) a hands-on workshop to apply lecture concepts, self-perform and coach spirometry.

Steven E. Lommatzsch, MD; Physician Clinic Manager and Assistant Professor of Medicine, Division of Pulmonary and Critical Care Medicine; National Jewish Health; Denver CO and Assistant Professor, Pulmonary/Critical Care, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Deborah Fending, RN, BSN, AE-C; Staff Development Nurse, Nursing Education; National Jewish Health; Denver CO

WS7

Gynecology Office Procedures 75% Rx

WH

Gain confidence in a variety of gynecologic office procedures: long acting reversible contraception (LARC) insertions and removals, in-office hysteroscopy, and endometrial and vulvar biopsies. Understand when to refer patients for an office versus an operating room procedure. Gain hands-on experience with plastic pelvic models to prepare you to perform these new skills in your own practice

Kristina M. Tocce, MD, MPH; Assistant Dean for Student Affairs, Division of Medical Education, Assistant Dean for the Clinical Core, Office of Undergraduate Medical Education, Assistant Director, Fellowship in Family Planning, and Associate Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Jennifer S. Hyer, MD; Physician, Department of Obstetrics and Gynecology, Denver Health Medical Center; Denver CO and Assistant Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

SATELLITE SYMPOSIA

BREAKFAST SESSION SS8 – SS9

Optional, Limited Enrollment,

Pre-registration required, No additional fee.

7:30 am – 8:45 am Non-Certified

Please check www.npsymposium.com for updates on session topics.

Verification of clinician's practice and eligibility information may be provided to sponsor for audit.

Innovation (in-no-va-tion, ina 'vaSH(a)n): something original or novel that disrupts the usual way of doing things. It is NOT a small step or incremental change or a guideline implementation.

Nurse Practitioners have the experience and unique vision to re-create the healthcare system. NOW is our time! This Innovation Challenge is a way to stimulate action by all NPs and to recognize exciting innovations.

The Innovation Challenge will select top panelists to present how one goes about being open to creativity and innovation, grounded in the reality of what can better help patients and clinicians in creating new pathways to improve healthcare. You are encouraged to submit your innovation breakthrough for consideration as part of a panel on innovation in healthcare. You can submit an innovation already underway OR a good idea for an innovation you want to implement but have not yet begun.

The panel will take place on Saturday, July 21, 2018, as part of the National Nurse Practitioner Symposium in Keystone, Colorado. Selected panelists will have 5 minutes to present their innovative idea, as part of a 90 minute session. Selected panelists may also present their innovative idea or project as a poster at the National Nurse Practitioner Symposium. Selected panelists are expected to register for the National Nurse Practitioner Symposium and will receive a \$150 credit towards their registration.

Disruptive innovations change the way things are done creating new approaches. Some examples of past innovations include:

- group visits for diabetes and chronic care
- telehealth sessions with patients
- previsit sessions with a patient to establish an agenda for the visit
- expanding the role of the MA to manage immunizations using standing orders
- using health coaches

So, open your minds to making things better for your patients and dream a disruptive innovation.

If you would like to have your innovative idea considered for inclusion in the Innovation Challenge, access www.npsymposium.com (click on "Program Details" link, "Innovation Challenge" sublink) and complete the required information by March 1, 2018.

EDUCATIONAL SESSION L1

9:00 am – 10:30 am

1.5 Contact/CE Hours

L1

Innovation Challenge 0% Rx

PD

Healthcare is changing rapidly. New imperatives for aging in place, patient empowerment, shared decision making, patient centered care, prevention, and medical homes encourage us to think of new ways to provide care. Nurses are the heart and brains of healthcare. NPs lead the nursing profession as advanced practice nurses bringing quality and evidence-based practice to improve patient outcomes. However, healthcare is changing rapidly and in a time of chaos and change, opportunity exists for innovations to bring new care models, new patient and healthcare roles, and new ways of achieving improved outcomes. NPs must be among the leaders creating a new healthcare system. Learn how to unleash your power and vision to create your own practice innovation, by hearing from and celebrating those NPs who are already doing it. The process of design thinking will be described, and the participants will have the opportunity to engage in an idea brainstorming session with colleagues. Panel members will be chosen from submissions of ideas that have already been implemented or are still in the planning stage.

Maureen R. Courtney, APRN, FNP-BC, PhD; Associate Professor, Graduate FNP and DNP Programs, College of Nursing and Health Innovation, University of Texas at Arlington; Arlington TX and Family Nurse Practitioner, Walmart Care Clinic; Arlington TX

Kathryn Daniel, PhD, RN, ANP-BC, GNP-BC; Director and Associate Professor, Adult-Gerontology Primary and Acute Nurse Practitioner Programs, College of Nursing and Health Innovation, University of Texas at Arlington; Arlington TX and Nurse Practitioner, Baylor Scott & White House Calls and Transitional Care; Dallas TX

Panelists TBD

EDUCATIONAL SESSIONS M1 – M7

12:00 pm – 1:00 pm

1.0 Contact/CE Hours

M1

The Pocket Endocrinologist 25% Rx

AG

When should you “punt” to endocrinology (if a consulting endocrinologist is even available)? Gain expert tips on pertinent clinical assessments and initial interventions for common endocrine disorders, such as thyroid, diabetes, hypercalcemia, and hypogonadism. Those frequent and frustrating metabolic complaints, such as fatigue, hair loss, weight gain, and more will also be addressed.

Christine Kessler, MN, CNS, ANP, BC-ADM, CDTC, FAANP; Nurse Practitioner, Metabolic Medicine Associates; King George VA

M2

Cutaneous Disorders in the Veteran Population 50% Rx

AG DM

Gain an overview of common (and not-so-common) cutaneous disorders seen in the veteran population. Understand the characteristics of military lifestyle and exposures that can precipitate or contribute to the development of skin disease, by reviewing specific war/conflict eras and their unique environments. Key patient teaching tools will be provided to enable your veteran patients to appropriately treat and prevent skin conditions.

Lakshi M. Aldredge, MSN, RN, ANP-BC; Dermatology Nurse Practitioner, VA Portland Healthcare System; Portland OR

M3

Gastroesophageal Reflux Disease (GERD): Presentations, Complications, Mimics, and Treatments 50% Rx

AG

Gastroesophageal reflux disease, a very prevalent condition, has a variety of clinical presentations and under-recognized morbidity. Although a diagnosis of GERD can often be based on clinical symptoms alone, an understanding of the clinical features of GERD as well as conditions that may mimic GERD is crucial in establishing a correct diagnosis and appropriate therapy. The GERD mimics such as eosinophilic esophagitis and functional heartburn will also be discussed to help establish the correct diagnosis and appropriate therapy. Indications for further evaluation is important to appreciate, as is treatment with what, for how long, and at what risk.

Carl Robert Dahl, MD; Staff Physician, VA Eastern Colorado Health Care System; Denver CO and Clinical Associate Professor, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

M4

Mental Health Care in Reproductive Age Women 25% Rx

WH

The rates of depression are two times higher in women than in men, and onset of depression is highest from ages 12-24 and in the elderly. Explore the unique mental health challenges posed to reproductive age women. Careful consideration of treatment options is warranted due to the possibility of pregnancy. Integrated care models will be discussed, which can be utilized to help manage the medical and mental health care needs of all women.

Monika Jindal, MD; Outpatient Integrated Behavioral Health Psychiatrist, Denver Health Medical Center Denver, CO

M5

The Child with Allergic Rhinitis: When It's an Allergy and When It's Not 25% Rx

PED

Approximately 42% of U.S. children experience allergic rhinitis, with about 40% being perennial, 20% strictly seasonal, and 40% mixed (perennial with seasonal exacerbation). Virtually every child has bouts of increased nasal congestion and rhinorrhea that may lead parents to question whether their child has allergic rhinitis. Hear about the different types of allergic rhinitis of childhood and the features that distinguish allergic rhinitis from other causes of childhood rhinitis. A practical approach to treatment will be discussed, including allergen avoidance, pharmacotherapy, and when to consider referral to an allergist for the consideration of allergen immunotherapy.

Dan Atkins, MD; Chief, Allergy and Immunology Section and Co-Director, Gastrointestinal Eosinophilic Diseases Program, Children's Hospital Colorado; Aurora CO and Associate Professor, Pediatrics, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

M6

Sepsis Management in 2018 50% Rx

AC AG

The Center for Medicare and Medicaid Services and Institute for Health Care Improvement both have guidelines or bundles for managing sepsis. Clinicians are often obligated to follow such bundles for regulatory, financial, and reputational reasons. It needs to be recognized, however, which interventions are supported by data. While fluids and pressors are pivotal to successful management, prompt antibiotic therapy is the best validated intervention. Learn how the rationale and operationalization of prompt antibiotic administration, along with the judicious use of biomarkers can enhance patient outcome.

Henry Masur, MD; Chief, Critical Care Medicine Department, National Institutes of Health; Bethesda MD

M7

How to Cover Yourself when Patients Don't Comply 25% Rx

PD

Ever wonder whether you are liable for malpractice, if a patient does not follow your advice, and something goes wrong? Clinicians can be held liable for a patient's injuries, even when the patient did not do what the clinician told the patient to do. Hear about cases where patient compliance was an issue. Guidance will be provided on the extent to which you must follow up, persuade, cajole or use behavioral methods in order to get patients to take your advice. Learn how to document, in order to be in a good defensive position, if one does attempt to get the patient to comply, but still is sued.

Carolyn Buppert, JD, MSN; Attorney, Law Office of Carolyn Buppert, PC; Boulder CO

EDUCATIONAL SESSIONS N1 – N7

1:30 pm – 3:00 pm

1.5 Contact/CE Hours

N1

Diabetes: Outpatient to Inpatient Management 75% Rx

AG

The tools to treat diabetes in the ambulatory setting are effective, but complex and are best used in the setting of a thorough understanding of their mechanisms of action, efficacy, side benefits, side effects, and costs. Diabetic patients are admitted to hospitals frequently for management of uncontrolled hyperglycemia or severe hypoglycemia and, at any given time, a very large proportion of inpatients, hospitalized for other reasons, also have diabetes or stress hyperglycemia. Hyperglycemia of any cause in hospitalized patients increases the risk of infection, prolongs the length of hospital stay, and increases the risk of mortality from the primary disorder for which patients are hospitalized. Understand why the goals of glucose management are not the same for inpatients as outpatients, and how the tools and approaches utilized for glucose control are significantly different as well.

Michael T. McDermott, MD; Director, Endocrinology and Diabetes Practice, University of Colorado Hospital and Professor of Medicine and Clinical Pharmacy, Division of Endocrinology, Metabolism and Diabetes, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

N2

Preventing Limb Loss: Wound and Orthopedic Perspectives 0% Rx

AC AG DM

Learn how to identify the etiologies and pathogenesis of wounds via appropriate physical exam findings, labs, and imaging. Diabetic foot ulcer, chronic venous ulcer, and pressure injury evaluation and treatments will be discussed. Review wound healing stages in order to differentiate acute from chronic wounds, along with dressing selection utilizing moist wound theory, and identifying high risk patients in need of referral. Orthopedic limb threatening etiologies will also be discussed, including orthopedic traumatic injuries, infection and tumors, as well as care of the amputee. Case discussions will be utilized to improve comfort in identifying “red flag” physical exam findings, supportive diagnostic tools, and appropriate referral patterns.

Kristin Loker, MSN, NP-C; Clinical Coordinator and Nurse Practitioner, Limb Restoration Program, Department of Orthopedics, University of Colorado Hospital; Aurora CO

Shelley Brake, PA-C, MSHS; Physician Assistant, Wound and Ostomy Care Clinic, University of Colorado Hospital; Aurora CO

N3

First Step in Patient Care: Take Care of Yourself 0% Rx

AG

Obesity is a major problem in the United States, and healthcare providers are not immune. The healthcare industry is rated 5th among various industries for its rate of obesity with a rate of 32%. Understand the interrelationships between nutrition, activity, sleep, and stress in causing obesity and how to deal with these domains. Obesity is a direct cause of many chronic diseases such as diabetes, cardiovascular disease and

stroke. Hear why prevention and control of obesity is more than simply nutrition and how activity is a first step in dealing with this problem – for your own health and for your patients.

David Tinkelman, MD; Medical Director, Health Initiatives, National Jewish Health; Denver CO

N4

Gestational Hypertension 25% Rx

WH

Hypertensive diseases of pregnancy will be discussed, with special emphasis on gestational hypertension. Review how to make the diagnosis, recommendations for antenatal screening, and creation of delivery plan to optimize outcome for mom and baby. Postpartum management and recommendations for future pregnancy will also be presented.

Jennifer S. Hyer, MD; Physician, Department of Obstetrics and Gynecology, Denver Health Medical Center; Denver CO and Assistant Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

N5

Trafficking, Trauma and Proactive Preventative Care 0% Rx

AG PED WH

The ‘basics’ of the scourge that is human trafficking in the United States will be explained. Hear a case study about severe childhood abuse, which included trafficking and resulted in complex and chronic trauma. Learn about and actually participate in four different grounding techniques, which are critical to address secondary trauma. The power of resiliency will be explained. Gain proactive preventative care methods that can assist nurse practitioners in addressing human trafficking.

Robert R. Lung, JD; District Court Judge, 18th Judicial District, Arapahoe County & Douglas County Justice Centers; Kiowa CO

N6

Transcatheter Aortic Valve Implantation/Replacement (TAVI/TAVR) 25% Rx

AC AG

Aortic stenosis is an important condition affecting people of all ages, but more prevalent in an aging population. The mainstay of treatment for severe stenosis has been aortic valve replacement. Find out about a technology that has increased in use over the last few years, transcatheter aortic valve implantation or replacement. An overview of the procedure will be provided, along with the latest clinical trial data, indications for the procedure, possible complications, and recommendations for follow-up. Know how to better advise your patients on the most current technologies available.

Rose Do, MD; Cardiologist, VA Long Beach; Long Beach CA, Medical Officer/Senior Policy Associate, Accumen, LLC; Burlingame CA and Assistant Clinical Professor, Division of Cardiology, Department of Medicine, University of California – Irvine; Irvine CA

N7**Demonstrating Impact of APRN Practice: Essential Considerations**

0% Rx

PD

Outcomes of NP practice relate to the results of NP care and NP led interventions. Information on NP outcomes is required to understand how NP practice specifically contributes to access, as well as to clinical and cost of care metrics. A number of resources are available to enable practice-specific evaluation of NP roles and initiatives. Review the process of demonstrating outcomes, highlighting strategies for identifying patient care and professional role outcomes.

Ruth Kleinpell, PhD, AG-ACNP, FAANP; Assistant Dean for Clinical Scholarship and Professor, School of Nursing, Vanderbilt University Medical Center; Nashville TN, Professor, College of Nursing, Rush University; Chicago IL and Nurse Practitioner, Urgent Care Lincoln Park Clinic, Rush University Medical Center; Chicago IL

AUTHORS PRESENT POSTERS

3:00 pm – 3:30 pm

.5 Contact/CE Hours

EDUCATIONAL SESSIONS O1 – O7

3:30 pm – 5:00 pm

1.5 Contact/CE Hours

O1**Diagnosis and Management of Endocrine Emergencies 50% Rx**

AC AG

Thyroid disease, impaired adrenal function and hypercalcemia are common medical conditions which are frequently encountered and managed by primary care providers. However, each of these conditions may present in a decompensated state, exhibiting severe symptoms and posing a high risk for morbidity and a mortality rate as high as 50%. Thyroid Storm describes severe and decompensated hyperthyroidism. Myxedema is severe, decompensated hypothyroidism. Adrenal Crisis occurs with adrenal function so severely impaired that cardiovascular collapse, shock and multi-organ dysfunction ensue. Hypercalcemic crisis is present when serum calcium levels rise to levels that impair neurological, cardiovascular and renal function. Understand how to deal with these conditions, which are life-threatening without prompt recognition and adequate emergency treatment.

Michael T. McDermott, MD; Director, Endocrinology and Diabetes Practice, University of Colorado Hospital and Professor of Medicine and Clinical Pharmacy, Division of Endocrinology, Metabolism and Diabetes, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

**O2****Lower Back Pain: Evidence-Based Care 50% Rx**

AC AG

Lower back pain affects 90% of the adult population sometimes in their lives, and a third of those patients will have symptoms lasting over one year. It is one of the leading causes for missed work and lost productivity, and can lead to chronic opioid use. Lower back pain can be frustrating to manage for clinicians and overwhelming to patient. Review the anatomy, risk factors, and evaluation plan for patients in acute, subacute, and chronic lower back pain. Using a case study, current clinical guidelines for managing lower back pain will be discussed, as well as medical and modality treatments recommended and not recommended.

Vania Bernatsky, RN, MSN, ACNP-BC, AANN-BC, RNFA-S; Nurse Practitioner, Spine Division, Neurosurgery, Stanford Hospital and Clinics; Stanford CA

O3**Stroke Update 2018 25% Rx**

AC AG

Probably no aspect of neurological care is changing as rapidly as stroke and transient ischemic attack (TIA) management. Review basic clinical approaches to TIA and stroke in office and hospital, including recent updates in outpatient management. Special attention will be paid to patent foramen ovale, anti-platelet choices, and of course recent updates on acute clot retrieval. The clinical approach to diagnose and differentiate between various causes of transient neurological events will be described, along with in-patient acute treatment of stroke including intra-arterial and thrombectomy.

Bruce Morgenstern, MD; Neurologist, Blue Sky Neurology; Lone Tree CO

O4**Colposcopic Examination of the Lower Genital Track 25% Rx**

WH

Gain confidence in managing abnormal cervical cytology results. Principles of colposcopy will be discussed, including its limitations and the indications for referral to colposcopic assessment. Basic colposcopy techniques and normal colposcopic findings will be reviewed. Learn about pre-cancerous and cancerous features of the lower genital tract.

Kristina M. Tocce, MD, MPH; Assistant Dean for Student Affairs, Division of Medical Education, Assistant Dean for the Clinical Core, Office of Undergraduate Medical Education, Assistant Director, Fellowship in Family Planning, and Associate Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

05

Pediatric Food Allergies 0% Rx

PED

The incidence of food allergy has increased significantly over the past two decades to the point that now 1 in 13 children in the US is food allergic. Although sources of information about food allergies have increased over the years, parents still have basic questions about how to distinguish food allergy from food intolerance. There is also confusion about the different types of childhood food allergies, as they have different presentations and prognoses. Review the differences between food allergy and food intolerance, the presentation and evaluation of different types of food allergies, including IgE-mediated and non-IgE-mediated food allergies. Gain a practical approach to the accurate identification, evaluation and management of food allergic children.

Dan Atkins, MD; Chief, Allergy Section and Co-Director, Gastrointestinal Eosinophilic Diseases Program, Children's Hospital Colorado; Aurora CO and Associate Professor, Pediatrics, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

06

HIV Care in 2018: How Clinical Challenges Have Changed 25% Rx

AG

The availability of antiretroviral therapy has changed the clinical presentation of persons with HIV. As people with HIV live longer, the effects of concurrent health problems such as tobacco abuse, obesity, and substance use disorders need to be dealt with in coordinated care. A substantial fraction of patients continue to develop opportunistic infections because of poor access to medical care. For patients who have access and are adherent to ART, opportunistic infections occur, but unmasked infections and immune reconstitution syndromes become significant problems to manage. Patients who are fully suppressed

virologically have exaggerated inflammatory responses and accelerated cerebrovascular, cardiovascular, hepatic and renal diseases. They develop more HIV associated and unassociated malignancies. Learn why holistic care is required to assure that their longevity can be maximized.

Henry Masur, MD; Chief, Critical Care Medicine Department, National Institutes of Health; Bethesda MD

07

The Risks of Treating Family, Friends or Yourself 25% Rx

PD

NPs and physicians commonly write prescriptions for friends, colleagues, or family, and some write prescriptions for themselves. Many clinicians do not understand the risks they are taking. There may be no injury or damage to the friend or family, but significant damage to the provider's career. At least one nurse practitioner recently lost her license for prescribing for friends and colleagues, and it was not just because she prescribed some controlled drugs. Hear all the considerations NPs must take when deciding whether to write prescriptions outside of their employment setting.

The Practical Neurological Exam: Learn to Perform, Understand and Diagnose 0% Rx

AG

The key to understanding neurology is to know how the nervous system works and the best way to accomplish this is by learning to perform a meaningful neurologic exam. By learning how to perform meaningful neurologic examinations and by learning how to interpret the neurologic findings, one begins to understand how neurologic localization works, and the exam is transformed into a useful and practical tool both for understanding neurology and making a diagnosis. There will be a systematic review of each step of the exam, describing how to perform it, what types of abnormalities it may uncover, and how to translate those abnormalities into a localization and diagnosis.

Bruce Morgenstern, MD; Neurologist, Blue Sky Neurology; Lone Tree CO

P2

Diabetes Drugs and Happy Cardiologists: What's up with That? 100% Rx

AG

In recent years there has been a dizzying deluge of new diabetes medications that has led to understandable confusion regarding what, when, how, and in whom to prescribe them. Using a case study approach, gain clarity on these issues with endocrinology tips on how to more effectively use new and older diabetes medications. Explore stunning new cardiovascular outcomes data on selected diabetes drugs that currently have Cardiologists smiling and becoming “endocrinology-groupies.”

Christine Kessler, MN, CNS, ANP, BC-ADM, CDTC, FAANP; Nurse Practitioner, Metabolic Medicine Associates; King George VA

P3

An Approach to the Underestimated Trauma Impact in Women's Health 0% Rx

WH

The effects of trauma are far reaching and often impact neurological, psychological, biological, and social functioning. Trauma informed care seeks to understand the implications of trauma on receiving and administering health care. There is an emphasis on creating a sense of emotional, psychological, and physical safety for both patients and health care providers. Effects of trauma on psychosocial functioning will be discussed, particularly how it relates to the health care encounter. Hear practical ways to create a safe environment in health care interactions.

Monika Jindal, MD; Outpatient Integrated Behavioral Health Psychiatrist, Denver Health Medical Center Denver, CO

P4

Viral Lesions in the Pediatric Population 25% Rx

DM PED

Although immunizations are available for many viral conditions, it remains the responsibility of the clinician to recognize and treat patients who present with viral exanthems. This now is more challenging because the majority of our population is immunized against many of these rashes, therefore they are not as prevalent as they once were. Additionally, not all viral lesions have vaccines available. While it is important to identify and treat the exanthem, understand why it is also important to identify and execute isolation procedures when necessary for community protection, and which viral rashes and lesions do not need to be isolated.

Peggy Vernon, RN, MA, C-PNP, DCNP, FAANP; Owner/Dermatology Nurse Practitioner, Creekside Skin Care; Greenwood Village CO

P5

Use and Abuse of Prophylactic Antimicrobials 100% Rx

AC AG

One goal of the National Strategy to Combat Antibiotic Resistance is to slow the development of resistant bacteria and microbes. Antimicrobial prophylaxis is an intervention that is used in healthcare, but is coming under closer scrutiny in order to optimize use, but avoid development of resistance. Understanding the principles for prescribing prophylactic antimicrobials is imperative in order to meet the goal of care. Surgical prophylaxis, as well as prophylaxis for the immunocompromised patient, will be reviewed and national guidelines will be discussed.

Nancy Munro, RN, MN, CCRN, ACNP-BC, FAANP; Senior Acute Care Nurse Practitioner, Critical Care Medicine Department and Pulmonary Consult Service, National Institutes of Health; Bethesda MD and Faculty Associate, Graduate School of Nursing, Georgetown University; Washington DC

EDUCATIONAL SESSIONS Q1 – Q5

9:45 am – 10:45 am

1.0 Contact/CE Hours

Q1

The ABCs of Viral Hepatitis: A 2018 Update of Hepatitis A, B and C
50% Rx

AG

Gain a better understanding of the disease burden and natural history of viral hepatitis A, B and C. Although HAV vaccine is highly effective in prevention, HAV is still a problem with outbreaks still occurring. Hear which categories of people require HAV vaccination. With new insight into the rate of and risk of advanced fibrosis in patients with HBV and with improved hepatitis B screening and treatment strategies, formulate therapy to prevent HBV disease progression and liver decompensation. Learn about the new highly effective antiviral drugs and treatment strategies that allow for most patients be cured of HCV and significantly reduce the morbidity of chronic HCV.

Carl Robert Dahl, MD; Staff Physician, VA Eastern Colorado Health Care System; Denver CO and Clinical Associate Professor, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Q2

Managing Cardiac Emergencies in the Outpatient Setting 25% Rx

AC AG

Focus on cardiac emergencies with a special emphasis on how to manage them when they present in an outpatient setting. Case-based presentation with the opportunity for open discussion will be utilized. Diagnostics and immediate treatment plans will be discussed, as well as ways to use outpatient resources to stabilize a patient for higher level of care.

Rose Do, MD; Cardiologist, VA Long Beach; Long Beach CA, Medical Officer/Senior Policy Associate, Accumen, LLC; Burlingame CA and Assistant Clinical Professor, Division of Cardiology, Department of Medicine, University of California – Irvine; Irvine CA

Q3

Integration of Mental Health into Obstetric Care 25% Rx

WH

Perinatal mood and anxiety disorders are the number one complication of pregnancy. Based on the frequency of this condition, screening, referral, and treatment for behavioral health should be the standard of care at all facilities that provide prenatal care. Review the process to create or accentuate this process in your community. Timing of screening for perinatal mood and anxiety disorder will be discussed, including a best practice screening tool that can be used in clinics. Hear about resources that can assist in the referral process for treatment.

Jennifer S. Hyer, MD; Physician, Department of Obstetrics and Gynecology, Denver Health Medical Center; Denver CO and Assistant Professor, Department of OB/GYN, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Q4

Hypotonia: The Floppy Baby Syndrome 0% Rx

PED

Hear about the examination, localization and differential diagnosis of the floppy baby. Specific neuromuscular disorders will be discussed, including myotonic dystrophy (MD), Duchenne muscular dystrophy (DMD) and spinal muscular atrophy (SMA). Review novel treatments for SMA and DMD, as well as care guidelines.

www.npsymposium.com

Julie Parsons, MD; Co-Director, Neuromuscular Clinic and Haberfeld Family Endowed Chair in Pediatric Neuromuscular Disorders, Children's Hospital Colorado; Aurora CO and Associate Professor, Pediatrics and Neurology, School of Medicine, University of Colorado Anschutz Medical Campus; Aurora CO

Q5

Non-invasive Ventilation for the Management of Acute Respiratory Failure 0% Rx

AC AG

Although the use of non-invasive ventilation (NIV) continues to increase, it remains underutilized as a method of managing acute respiratory failure. Understanding how to use NIV can improve treatment of patient with acute respiratory failure, decrease the need for endotracheal intubation and decrease in hospital mortality. Multiple settings where NIV is helpful will be discussed, including the emergency department, post-anesthesia care unit and the ICU. Review evidence regarding NIV, when to initiate, how to recognize when intubation is needed, and how NIV can facilitate weaning from invasive ventilation.

Ann Granchelli, MD, SM; Assistant Professor of Medicine, Division of Pulmonary Critical Care and Sleep Medicine, National Jewish Health; Denver CO

EDUCATIONAL SEMINAR R1

11:00 am - 5:30 pm

5.5 Contact/CE Hours

R1

The Bridge: A Comprehensive Headache Education Program 0% Rx

AG PED

Attend a seminar featuring didactic presentations and two workshops. Current pathophysiologic models will be addressed. Hear acute and preventive treatment strategies for adult and pediatric populations along with appropriate patient selection, administration (timing and route), and potential medication misuse and/or overuse concerns. Learn how to address comorbid medical complaints in appropriate medication selection and monitoring.

The American Headache Society® (AHS) Nurse Practitioner / Physician Assistant (NP/PA) Special Interest Group developed this educational offering for Primary Care Nurse Practitioners and Physician Assistants. This comprehensive overview of migraine is delivered by Nurse Practitioner and Physician Assistant members of AHS.

To view the full agenda for this seminar, access www.npsymposium.com, click on "Program Details" link, "The Bridge: A Comprehensive Headache Education Program" sublink.

TUESDAY

- Morning and Afternoon Beverage Breaks if registered for optional Session Pre 1
- Lunch if registered for optional Session Pre 1

WEDNESDAY

- Continental Breakfast if registered for optional Session Pre 1
- Morning Beverage Break if registered for optional Session Pre 1
- Dinner if registered for optional Session Pre 8–\$25

THURSDAY

- Continental Breakfast
- Morning and Afternoon Beverage Breaks
- Lunch if registered for optional Session SS2, SS3, SS4 or SS5
- Welcome Reception Buffet in Exhibit Hall
- Dinner if registered for optional Session SS6

FRIDAY

- Continental Breakfast
- Morning and Afternoon Beverage Breaks
- Bag Lunch in Exhibit Hall
- Afternoon Snack Break
- Dinner if registered for optional Session J1–\$25
- Dinner if registered for optional Session SS7

SATURDAY

- Breakfast if registered for optional Session SS8 or SS9
- Brunch in Exhibit Hall
- Afternoon Beverage Breaks
- Dinner if registered for optional Session SS10

SUNDAY

- Continental Breakfast
- Morning Beverage Break
- Lunch if registered for Seminar R1
- Afternoon Beverage Break if registered for Seminar R1

ADA

Dannemiller and the National Nurse Practitioner Symposium fully comply with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of assistance, please contact info@npsymposium.com by June 19, 2018

COLORADO TIPS

High Altitude: Keystone is at an elevation of 9,300 feet and the climate is dry. Even healthy individuals can experience symptoms of altitude sickness. It is suggested that you increase the amount of water you drink both before traveling to Keystone and while at Keystone. You should also limit your activity level on the first day, while your body adjusts to the higher elevation and lower oxygen levels. Be aware that the effects of alcohol are increased at higher elevations.

Weather: In July, Keystone temperatures are usually in the 80s in the daytime, dropping to the 40s in the evening, with late afternoon thunder storms. Bring a hat, sunglasses and plenty of sun-screen.

What to Wear: Dress is casual. Layer your clothing to accommodate temperature changes. Warm clothing is essential for evenings. Comfortable walking shoes are recommended.

GUEST POLICIES

All educational sessions, exhibits and special events will be limited to Symposium registrants with badges. The exception is the Thursday Welcome Reception, where a limited number of tickets for guests of Symposium registrants, adults (21 and over) will be available for purchase at a cost of \$20 per ticket.

TWILIGHT'S HIGHLIGHTS FEATURE—Back by Popular Demand!

Saturday, July 21 • 6:00 pm – 8:30 pm

As part of Twilight's Highlights, Don Watson and the Vail Valley Band will provide musical entertainment at the pavilion overlooking Keystone Lake. The Vail Valley Band delights audiences with an uncanny ability to segue from song to song and from one style or genre of music seamlessly into another. The band takes great pride in honoring guest requests.

You are encouraged to attend with your family, friends and/or symposium constituents. The entertainment is complimentary. If you would like to treat it as a picnic, the Adventure Center will be offering a limited menu for purchase, Xtreme Pizza will have take-out available, or you are welcome to pack in your own picnic. The pavilion has very limited table seating. You are welcome to bring a blanket and/or lawn chairs for seating surrounding the pavilion.

MOBILE APP

Stay connected to the latest and greatest information and keep things at your fingertips with the National Nurse Practitioner Symposium's Mobile App. Access www.npsymposium.com to download the App

NNPS STORE

Take home a piece of the National Nurse Practitioner Symposium, with our logoed items, jewelry designs and metal arts. The NNPS Store will be conveniently located in the Shavano Foyer at the Keystone Conference Center.

Hours of operation:

Thursday, July 19	9:00 am – 6:00 pm	Saturday, July 21	9:00 am – 6:00 pm
Friday, July 20	9:00 am – 6:00 pm	Sunday, July 22	9:00 am – 1:00 pm

TRAVEL INFORMATION

AIRLINE RESERVATIONS

There are 3 airport possibilities:

- Denver International Airport (DEN) located approximately 93 miles from Keystone Conference Center. It is the airport of choice of many of the attendees.
- Eagle County Regional Airport (EGE) located approximately 72 miles from Keystone Conference Center. It offers a more limited flight selection.
- Colorado Springs Airport (COS) located approximately 148 miles from Keystone Conference Center.

United Airlines is offering special meeting fares for all attendees of the National Nurse Practitioner Symposium. Earn a 2% – 10% discount on United, United Express or certain United code share flights. The percentage of discount depends on the class of service booked. Special meeting fares are being offered for flights to/from Denver International Airport (DEN), Colorado Springs Airport (COS) and Eagle/Vail Airport (EGE).

To achieve maximum savings, book travel at www.united.com. Enter ZEA4434853 in the "Offer Code Box".

You may also book through Frosch Travel (303-874-7175 or Debbie.outcalt@frosch.com), your preferred travel agent or call United Meetings Reservations directly at 800-426-1122. Be sure to give your Z code, which is ZEA4 and meeting code of 434853. For all tickets issued through United Meetings Reservations (800-426-1122), a booking service fee will be collected.

GROUND TRANSPORTATION

Keystone is 93 miles from Denver International Airport. Travel time by car is approximately 2 hours through the scenic Rocky Mountains. To reach Keystone, take I-70 west to Exit 205 (Dillon/Silverthorne). Turn left and go 6 miles east on US Highway 6, following the signs to Keystone. (GPS coordinates entry should be Keystone Conference Center, 0633 Conference Center Drive, Keystone, CO 80435)

Shuttle Service:

Colorado Mountain Express is offering group rates for attendees of the National Nurse Practitioner Symposium. Denver to Keystone is \$56 one-way per person on scheduled shared ride service. Private charter services are also available using 5-passenger and 10-passenger vehicles. Advance reservations are recommended. Call Colorado Mountain Express at 800-525-6363 and mention Group ID "Nurse18" when making reservations.

COLORADO MOUNTAIN EXPRESS

Rental Car:

Avis Rent-A-Car is offering special rates for all attendees of the National Nurse Practitioner Symposium. These special rates are being offered at Denver International Airport (DEN), Colorado Springs Airport (COS) and Eagle/Vail Airport (EGE) locations. For reservations contact your preferred travel agent, call Avis directly at 800-331-1600 or access www.avis.com. Use AWD # J992313 to receive these special rates.

AVIS

SYMPOSIUM LODGING

Keystone offers a variety of accommodations to suit your needs. Hotel guest rooms, studios and one bedroom condominiums work well for single and double occupancy housing. Larger condominiums provide additional space to allow attendees to bring their families or share accommodations with friends. National Nurse Practitioner Symposium participants are entitled to special group rates for lodging units in the following areas:

Keystone Lodge & Spa: A Four Diamond (AAA) property, offering three restaurants, a deli, business center, concierge, and spa with fitness center. The Lodge is accessible by complimentary resort shuttle or underground walk way to the Conference Center.

Hyatt Place: Located in the center of the resort offering spectacular views of Dercum Mountain, the surrounding peaks and the protected wetlands. Hyatt Place is a short complimentary shuttle ride to the Conference Center.

Conference Village: The Conference Village encompasses the Conference Center area and Keystone Lake. A limited number of lakeside condominiums surround the picturesque Keystone Lake and are a short walking distance to the Conference Center.

River Run: River Run is a lively, pedestrian village located at the base of Dercum Mountain. Many of Keystone's signature events take place in the main plaza, the site of boutiques and shops, restaurants and lounges. River Run is a short complimentary shuttle ride to the Conference Center.

Reservations: Reference Group Code **CC3RSE** when making reservations

- Phone: 800-258-0437
- Fax: 970-496-4343
- Online: www.npsymposium.com (click on "Travel" link, "Lodging" sublink)
- Mail: Keystone Reservations, PO Box 38 K-25, Keystone, CO 80435

Deposit Policy: One night deposit is required at time of reservation, with full balance due on arrival date. Full payment at time of reservation if made inside of 30 days of arrival date.

Cancellation Policy: Full refund less \$30 if canceled more than 30 days prior to arrival date. Full forfeiture of deposit if canceled 30 days or less prior to arrival date..

Cutoff Date: Room rates are valid through and including June 25, 2018. After June 25, 2018 rooms and rates are subject to availability. Early reservations are recommended as rooms, or certain types of rooms, may sell out prior to June 25, 2018.

Check In/Check Out: Check in time is 4:00pm/Check out time is 11:00am

Incidentals/Damage Pre-authorization: At check-in, your credit/debit card will be pre-authorized for 30% of the total room charge to secure payment for incidentals, and possible damage to the accommodations. Unused funds will be released upon check-out and available according to your credit/debit card issuer's processing timeframe.

Roommate Referral Service: If you are interested in sharing a condo connect with others that would like to share a condo by accessing www.npsymposium.com, then click on the "Travel" link and "Roommate Referral Service" sublink.

Other: All lodging requests and questions should be directed to 800-258-0437.

BENEFITS OF EARLY REGISTRATION

- The earlier you register, the more you can save on registration rates (tiered pricing cutoff dates of Feb 15, April 15, June 15)
- Early registration allows higher probability of receiving your desired sessions before they fill up
- The sooner you register, the sooner you will start receiving announcements and/or special offers

CHECK PAYMENTS PAYABLE TO "National Nurse Practitioner Symposium"

Cancellations on or before June 15, 2018 are fully refundable less a \$50 cancellation fee. Cancellations after June 15, 2018 are non-refundable, however substitutions are allowed.
