Here's What You'll Receive When You Attend the Course

✓ **Instruction by a small, select cadre of award-winning Emergency Medicine educators/clinicians**

The faculty have been specially chosen for their ability to communicate effectively, their knowledge and enthusiasm for the specialty and prior experience working in a collaborative environment.

✓ **45 fast-paced & concise 30-minute presentations**

A refreshing break from long lectures, topics are presented concisely in rapid sequence to maximize one's attention and retention of information.

✓ **7 Q&A sessions with the faculty**

In addition to the faculty panels, you'll be able to ask questions in real time with the **slido** app and receive clarification and expanded information on material presented throughout each day.

slido

✓ **An emphasis on key documentation and risk management concepts**

The many traps that wind up being the source of errors and potential litigation are discussed throughout the course presentations.

✓ **A focus on essential, up-to-date content**

No "fluff" or "nice to know" material to distract from retention of core material.

✓ **A comprehensive course manual**

The 450+ page printed course manual is designed for rapid review and easy retrieval of key concepts and essential information covered in the course.

✓ **Up to 26 AMA PRA Category 1 Credits™**

Both PA and NP organizations recognize AMA PRA Category 1 credit™ as approved CME. ACEP, AOA & AAFP Prescribed credit also provided.

About the EM Pharmacology Workshops

As a faculty member of Vanderbilt University's Emergency Nurse Practitioner program, Michael Gooch, DNP, has specialized for over 10 years in the instruction of clinicians in the pharmacotherapeutics of drugs related to emergency care. Join him as he presents a comprehensive, state-of-the-art program designed to provide a detailed working knowledge of the vast majority of drugs that are applicable to emergency practice.

Space is Limited. Register early while spots are open!

Workshop Topics Part 1 & Part 2

EM Pharmacology Workshop (Part 1)

Morning Session: 8:00am - 12:15pm

- Antimicrobial Therapy: An Empiric Approach
- Respiratory/Allergy Meds: Anticholinergic, Beta-Agonists, Corticosteroids and Antihistamines
- OB/GYN/GU Meds: Tocolytics, Hormones and Alpha-Blockers
- Cardiovascular Meds: Vasoactives, Inotropes, Chronotropes; Antiarrhythmics
- Medications for Chronic Conditions: Diabetes, Hypertension, Heart Disease
- IV Fluids - When? Why? Which Ones?

EM Pharmacology Workshop (Part 2)

Afternoon Session: 1:45pm - 6:00pm

- Cardiovascular Meds: Anticoagulants, Antiplatelets, Fibrinolytics and Tranexamic Acid
- GI Medications: Antiemetics, Acid Control and Antidiarrheals
- CNS: Sedation, Antipsychotics, Paralytics and Antiepileptic Drugs
- Toxicology: Common Ingestants, Drugs of Abuse and Reversal Agents
- Pain Control: Opioids, Non-Opioids, Local Anesthetics and Migraine Abortive Meds

Dates & Duration

The optional Advanced EM Pharmacology Workshops are presented in two 4-hour parts – **Part 1: Morning Session (8:00am-12:15pm)** and **Part 2: Afternoon Session (1:45pm-6:00pm)**. Both workshops, Part 1 and Part 2, are presented the day before the main course begins (**December 12th, 2018 / July 9th, 2019**). Register for Part 1: Morning Session, Part 2: Afternoon Session or bundle both and save \$35 off your tuition. If you're flying in for the Original Boot Camp course most flights can get into Las Vegas by 1:00pm so you can take Part 2: Afternoon Session and not miss a day at home or work. The pharmacology workshops will be videoed and both sessions will be subsequently available as a self-study program.

Hands-on Emergency Procedures Workshop

Spend 4.5 hours of intensive, hands-on training in essential emergency medicine procedures.

No lectures, no slides - just supervised training on life-like simulators.

About the Hands-on Procedures Workshop

The Original EM Boot Camp course now offers an optional half-day Emergency Procedures course for EM Boot Camp registrants. Come a day early and receive an immersive educational experience with seasoned physician instructors.

Produced by the well-established **Hospital Procedures Consultants** educational company, the course is unique in that the didactic portion of the program is covered in a series of online lectures that are available in advance on any internet connected device. These modules review all of the specifics of how to perform a wide spectrum of procedures and include step-by-step instructions and actual videos of the procedures being performed from start-to-finish.

Plus, you'll be able to receive CME credit for completing the online procedures course (**up to 11.5 hours**) and also for participating in the live procedures course (**up to 4.5 hours**). In addition, the online lectures and videos will be accessible for 12 months so you can brush up by watching the procedure on your smartphone before you actually perform the procedure in the ED.

Limited to 40 participants per half-day session. Register early while spots are open!

Workshop Topics

Hands-On Procedures Include:

- Ultrasound-guided central line placement
- Landmark-guided central line placement
- Intraosseous line placement using the EZ-IO
- Ultrasound-guided peripheral IV placement
- Endotracheal intubation
- Laryngeal mask airway placement
- The King Airway tube placement
- Stylet-guided intubations
- Glidescope intubations on adults and children
- Lumbar puncture
- Spinal ultrasound to aid in lumbar punctures
- Ultrasound-guided paracentesis
- Ultrasound-guided thoracentesis

Online Videos Include All of the Hands-On Procedures, Plus:

- Procedural sedation
- The RUSH exam
- The E-FAST exam
- Mechanical ventilation
- Arterial line placement
- Needle chest decompression
- Chest tube placement
- Pigtail catheter placement
- Obtaining informed consent

Access instructions to the online lectures and 20 procedure instructional videos for 12-months will be emailed in approximately 3-5 business days from the date of registration.

Dates & Duration

The optional Emergency Procedures course is presented as a half-day session with two sessions being presented the day before the main course begins (**December 12th, 2018 / July 9th, 2019**). You will have the option of registering for the **Morning Session (8:00am-12:30pm)** or the **Afternoon Session (1:30pm-6:00pm)**.

Don't Just Take Our Word for It, See What Your Colleagues Are Saying About the Original EM Boot Camp Course.

"Finally a conference for NPs who work in the ED. Thanks! Should be mandatory."

- Barbara Beyna, CRNP

"Amazing, engaging speakers, very educational."

- Megan Oestreich, PA

"Content and flow was excellent."

- Theophilos Yphantides, MD

"Excellent, entertaining, knowledgeable speakers / presenters... great format."

- G.J. Willden, MD

"Overall was an extremely informative conference presented in an optimally digestible format."

- Lynne Duran, ARNP

"The content was excellent, lectures were very informative and highly entertaining."

- Nancy Moody, PA-C

"I think all the staff did an amazing job with the tough and varied subjects."

- Jon Anczak, PA-C

"This program was amazing... so incredibly helpful."

- Meredith Graham, NP

"Boot Camp was awesome! Great speakers, very knowledgeable."

- Michael Browne, PA

"Lots of bare-bones, no frills, evidence-based teaching that was effective. Good work!"

- Tony Fantozi, PA

"Very practical and immediately applicable to day-to-day practice."

- Hugh Halbeck, DO

"Fantastic overview of the must knows of ER practice."

- Tabitha Miller, PA-C

"This was the BEST conference I have been to in the past 11 years."

- Sharon Sikkelee, PA-C

"Best CME course I've ever been to!! (16 years as a NP)."

- Kathryn Machuga, FNP-BC, ACNP-BC

"The best group of speakers I have had at a conference in years. Funny, to the point."

- Julie Brozovich, PA

"This was a fantastic, informative program that covered a wide variety of topics."

- Nakia Lynise Taylor, NP

"Top notch. World-class experts in emergency medicine."

- Sylvia Vedder, NP

"One of the best conferences I have been to - learned a lot without overkill."

- Peggy Lively, FNP

CME Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the Center for Emergency Medical Education (CEME) and The Center for Medical Education, Inc. The Center for Emergency Medical Education is accredited by the ACCME to provide continuing medical education for physicians.

The Center for Emergency Medical Education (CEME) designates this Live activity for a maximum of 26.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Approved by the American College of Emergency Physicians for a maximum of 26.00 hour(s) of ACEP Category I credit.

The AOA Council on Continuing Medical Education has approved this program for 26.00 credits of AOA Category 2-A CME credits.

This Live activity, Emergency Medicine Boot Camp, from 06/04/2018 - 12/16/2018, has been reviewed and is acceptable for up to 25.75 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Both PA and NP organizations recognize AMA PRA Category 1 credit™ as approved CME.

Target Audience

The Emergency Medicine - An Intensive Boot Camp course is intended for Physician Assistants, Nurse Practitioners and Primary Care Physicians who want an intensive, evidence-based course focusing on the provision of efficient, safe and medically appropriate care to a wide variety of patients with emergent or urgent complaints.

Learning Objectives

After attending this course, participants will be able to:

- Incorporate strategies into practice to reduce the likelihood of misdiagnosis in common emergencies
- Identify historical, physical and testing strategies to consistently provide evidence-based care to a large variety of ED and urgent care patients
- Enhance clinical skills with regard to the day-to-day care of emergency department and urgent care patients
- Enhance clinical skills for the delivery of care to patients with emergent or urgent complaints in a variety of ambulatory care settings
