

ABOUT CONFERENCE

World Congress on **Cancer Research & Therapy (WCCRT -2019)** September 09- 11, 2019, Rome, Italy

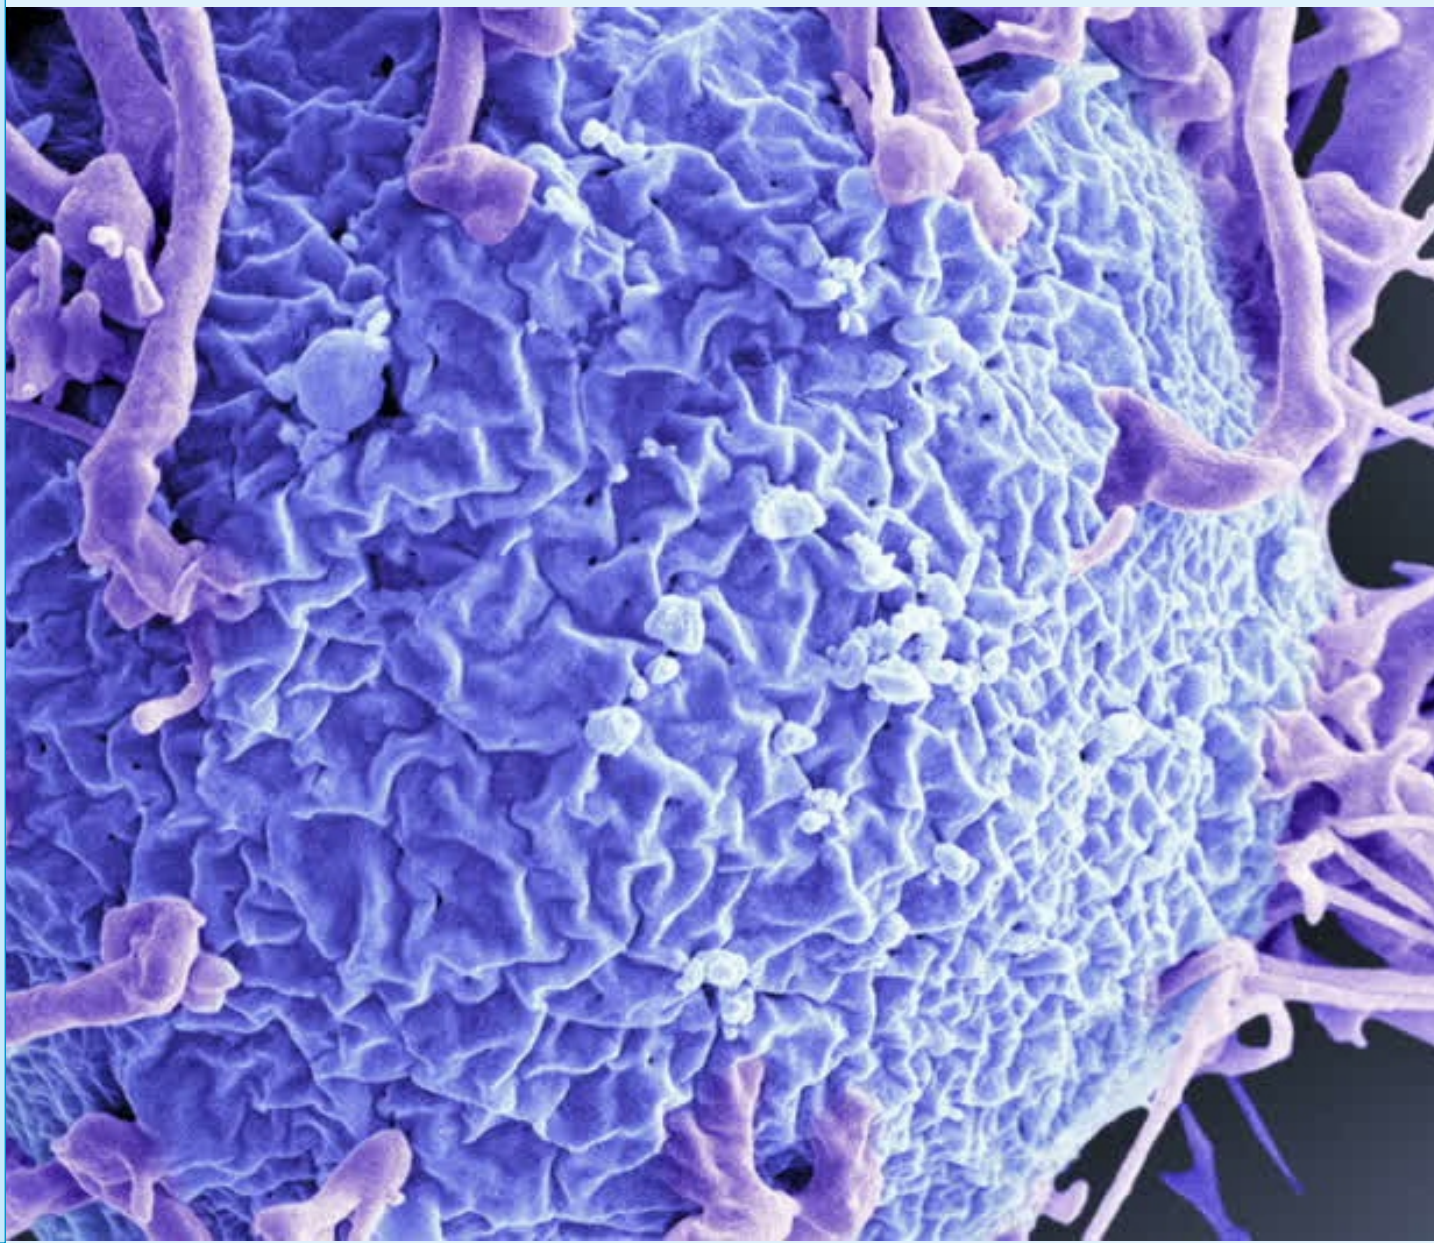

Deligon international invites you to participate in the “**World Congress on Cancer Research & Therapy**” on **September 09 - 11, 2019 at Rome, Italy**. Cancer Congress-2019 is designed to be a relaxed and friendly meeting where delegates and invited speakers have a chance to interact on both a scientific and social basis.

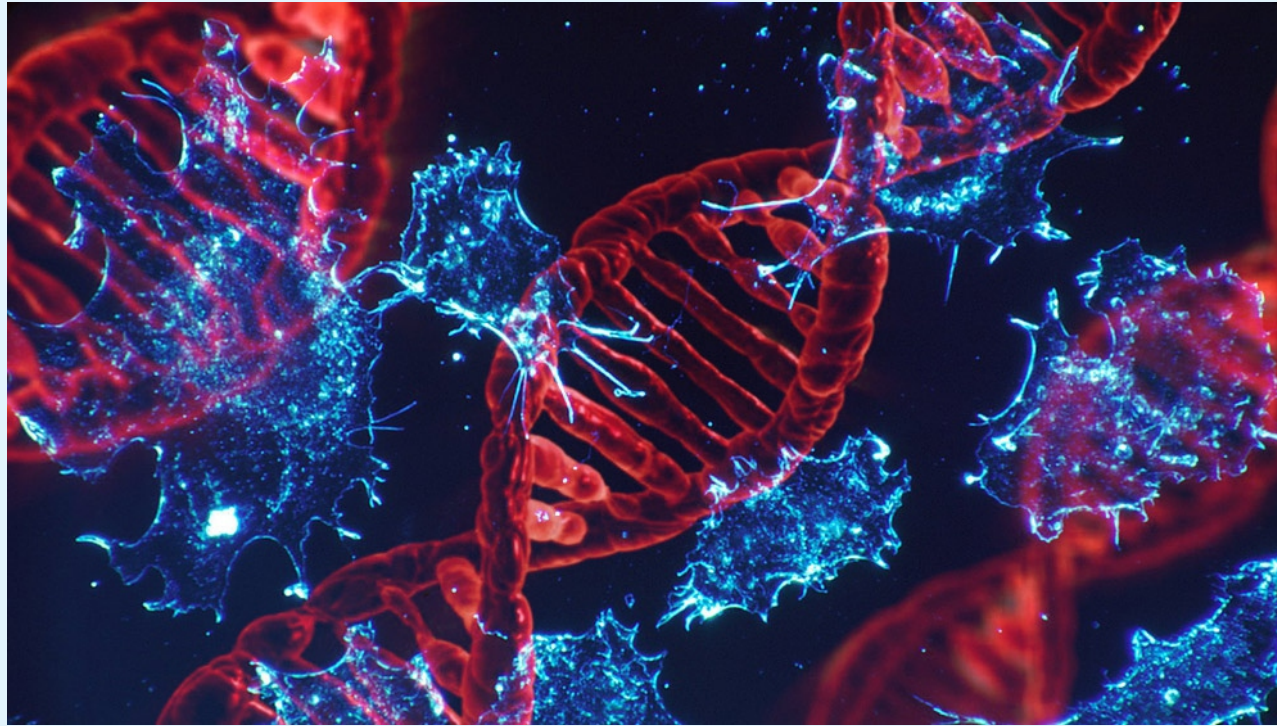

Cancer Congress – 2019 is anticipating participants from 20 and more countries across the globe and the three day conference will provoke Plenary sessions, Keynote speeches, Oral and Poster presentations. This program provides three days in depth discussions on recent advancements and insights in Cancer research. We encourage the speakers to stay for the duration of the conference to ensure this interaction. We will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

Cancer is an abnormal growth of cells which tend to proliferate in an uncontrolled way and, in some cases, to metastasize. Cancer is not one disease; it is a group of more than 100 different and distinctive diseases. The development and progression of cancer involves complex interplay between the tumour itself and numerous other cell types and physiological processes. Thus, to study the mechanisms of malignancy in a way that is meaningful requires sophisticated in vivo models.

If you require any further information please do not hesitate to contact the conference Manager at cancercongress@deligon.org

Aboutus

Deligon is an international conference organizer, our conferences bring together internationally renowned speakers and scientists to create exciting and memorable events filled with lively interactive sessions and world-class exhibitions and poster presentations. Deligon promotes open discussions and free exchange of ideas at research frontiers, mainly focusing on the science field. Intense discussions and examination based on professional interests will be an added advantage for the scientists and help them learn the most advanced aspects of their field. Our goal is always to focus on innovative trends, covering topics up to date and working with the best minds in the industry to prepare and execute major events of high quality.

We are here to serve the worldwide academic and scientific communities, learners, researchers etc.

Regards,

Cancer Research & Therapy-2019 Organizing Committee

Conference Highlights

Conference sessions may be geared toward participants with different levels of experience or different positions. Main conference sessions include the following 12 tracks. Choose to follow one track or move between tracks to create your own personalized conference experience.

- Clinical Oncology
- Cancer Nursing
- Pediatric Oncology
- Radiation, Surgical and Medical oncology
- Cancer Genetics
- Breast Cancer Research
- Cancer Stem Cell Therapy
- Anti-Cancer Drug Discovery & Therapy
- Cancer Immunology & Vaccines
- Cancer Screening & Diagnosis
- Organ Specific Cancers and Effects
- Innovations in prevention and screening
- Cancer pharmacology
- Cancer Care and Psychological Support

World Congress on Cancer Research & Therapy (WCCRT -2019)

September 09- 11, 2019, Rome, Italy

Why Should You Attend

Here are our reasons (Networking and developing new partnerships, Continuing education and skill development, Learning and sharing best practices and Advancement of the profession) why it is important for you to attend our World Cancer Conference.

- Directors of Oncology and Radiology or related Programs or Associations
- Heads, Deans and Professors of Radiology and Oncology department
- Chance to collaborate with research organizations with industries
- Best opportunity for each to exchange ideas and assemble participants from Dementia Societies
- To share their research ideas and implement them in Dementia diagnosis and treatment
- Radiology and Oncology Doctors
- Business Professionals
- Academic professionals
- Radiographers and Radiology Technologists
- Educators, Scientists, and Researchers
- Research Scholars
- Oncologists
- Radiologists
- Radiation Oncologists
- Radiology Consultants

About Rome, Italy (Holiday Inn Rome Pisana)

Rome is the capital city of Italy and of the Lazio region with 2.9 million residents in 1,285 km² (496.1 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an

independent country within the city boundaries of Rome, the only existing example of a country within a city: for this reason, Rome has been often defined as capital of two states.

Rome has the status of a global city. In 2016, Rome ranked as the 14th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year, and the city hosted the 1960 Summer Olympics.
