

WHO SHOULD ATTEND THIS MEETING?

The AAP Annual Meeting is designed for psychiatrists who are interested in learning about academic development, teaching psychiatry and conducting educational research. Other professionals are welcome to attend and will likely find the meeting relevant if they have significant involvement in teaching, education, and academic career development within psychiatric contexts.

WELCOME FROM THE PRESIDENT

As teachers we strive to train our learners for what they will encounter in their future careers. While we can prepare them for common situations in current practice, we can't prepare them for all possible problems they will face in an ever-changing healthcare environment. How best can we teach them so that they have the expertise to effectively deal with novel and unexpected cases? This year's keynote speaker Maria Mylopoulos, an education researcher at the University of Toronto's Wilson Centre, will guide us through the relevant educational theory and evidence so we can help our learners develop the knowledge and skills needed to address the challenges they will experience in the future.

But that's not all. Our fearless Program Planning Committee, led by Marika Wrzosek, is planning a smorgasbord of scintillating workshops, a panoply of posters, our register-before-it-sells-out Master Educator program, our hugely popular Career Development luncheon, and so much more. There's plenty to learn for everyone, from trainees right up to seasoned faculty leaders. And in case you are sick of learning, we also have lots of fun planned, including the return of the mashed potato bar (line-ups!) at the Welcome Reception and the Night Out at the Skywalk Observatory, 50 floors up in the Prudential Center. Plus, you can't go wrong in Boston with tons of history, baseball, cannoli, non-rhoticity...

Looking forward to seeing you all this September!

John Teshima, MD
AAP President

EDUCATIONAL GOALS

As a result of attending this educational activity, participants will be able to:

- Describe teaching approaches that improve and enhance your current educational practice;
- Identify at least one new pedagogical approach to incorporate into your current teaching practice;
- Discuss challenges facing the field of academic psychiatry and identify strategies to address these challenges effectively;
- Identify experienced medical educators who can serve as mentors in developing an effective teaching portfolio and career, as well as peers who can serve as collaborators for new educational projects and scholarly work.
