

The Romanian Society for Colposcopy and Inferior Genital Tract Pathology already has a tradition of more than one decade. During this time, a number of meetings, lectures and seminars have been held, including the International ESGO Workshop 2012 and the International ESGO Workshop 2016.

It is our honor to invite you at the **First European Advanced Colposcopy Course**, organized by the **Romanian Society for Colposcopy and Inferior Genital Tract Pathology** under the patronage of the **European Federation of Colposcopy** on 19-20 September 2018, in Iași, Romania.

The aim of the seminar is to train gynecologists who have completed their education in basic colposcopy, for the comprehensive management of clinical problems in the field of lower genital system pathology. The program of the Advanced Colposcopy seminar was developed following the standards of the European Federation for Colposcopy. The lecturers are our distinguished colleagues from European Federation for Colposcopy and members of the Colposcopy Society from our country.

We warmly invite you to work together on improving the quality of the medical act and introducing the standards of colposcopy in our work.

Dr. Mihaela Grigore, MD, PhD
Course director
Univ. of Medicine and Pharmacy "Grigore T. Popa"
Iași, ROMANIA

A handwritten signature in blue ink, appearing to be 'M. Grigore'.
