Welcome from GAPA's President

Dear Conference Attendees,

It is with great pleasure that I welcome you all. The GAPA Conference Planning Committee and Management Team have been hard at work putting together an incredible schedule of events for GAPA's upcoming 2016 Spring and Summer Conferences. With such a vast selection of informative lectures and workshops, there is an abundance of valuable skills and knowledge available to everyone attending. Along with providing quality education, they've found a way to throw in some fun packed events and family fun time for all ages to enjoy!

While GAPA's mission is to empower and afford Physician Assistants a voice in legislation, protect the right to practice, provide meaningful connections and the edge to succeed through quality education, GAPA conferences are open to all colleagues and we welcome you with open arms. When we stand together, we make a difference in our patients' lives and in the communities we serve.

Due to overwhelming response from our last conference, we are happy to announce that our Spring Conference will again be held at the Cobb Energy Center in Atlanta. While this location seems to be a very convenient meeting site for attendees, it also offers up families the opportunity to enjoy many of the activities the great city of Atlanta has to offer.

For our Summer Conference in July, we will be heading back to beautiful Sandestin, Florida to the Sandestin Golf and Beach Resort. The week long venue will not only offer up intensive instruction and skill building workshops, but will also allow you to catch up with old friends and make new ones. And when you're in the mood to relax or play hard, you'll be able to take in some fun family activities on and off the beach.

Whether your main focus is to learn, network or kick back, GAPA Conferences have something for YOU! Don't miss out on these phenomenal opportunities which await you. Register today!

Tim Dare, PA-C
GAPA President

Take Advantage of New Opportunities

AT TWO OF THE LARGEST
PA CONFERENCES IN THE US!

EXHIBITION HALL & JOB OPPORTUNITIES:

GAPA's Exhibition Hall will feature dozens of companies presenting the latest medical products, services, career opportunities and professional services. This is an excellent opportunity to learn more about the resources available to today's health care professionals. Looking for a new job? Representatives of employment services, large hospitals, clinics and other employers will be there waiting to talk with you.

CME CREDIT – PAs, NPs & ATs

PHYSICIAN ASSISTANTS:

SPRING – This program has not yet been approved for Category 1 CME credit. GAPA will request 26 Category 1 CME hours (plus up to 6 hours for optional Wednesday workshops) from the American Academy of Physician Assistants.

SUMMER – This program has not yet been approved for Category 1 CME credit. GAPA will request 34 Category 1 CME hours (plus up to 8 hours for optional Sunday workshops) from the American Academy of Physician Assistants.

NURSE PRACTITIONERS:

According to the American Nurses Credentialing Center, you are now permitted to earn and file CE credits for programs accredited by the AAPA. For more information, please visit www.nursecredentialing.org.

ATHLETIC TRAINERS:

GAPA will offer continuing education for Certified Athletic Trainers. This is a great opportunity to obtain your CEU/CME if you are dual certified. In addition, a separate CEU certificate will be available for athletic trainers to submit to their own licensing and/or certification board. Please visit www.bocatc.org for details.

CONNECT WITH GAPA

Enjoy Great Destinations Where You Can Learn & Play

Spring Conference & Exhibition March 30 – April 2 **ATLANTA, GA**

COBB ENERGY PERFORMING ARTS CENTER

2800 Cobb Galleria Parkway
Atlanta, GA 30339

HOST HOTEL

Embassy Suites Atlanta – Galleria
2815 Akers Mill Road
Atlanta, GA 30339

Located in Northwest Atlanta, just minutes from Downtown and Buckhead, the Cobb Energy Performing Arts Centre is easily accessible for those who would like to tour the city.

In Atlanta, fine dining, shopping and rich history combined with inspiration-inducing attractions to create a city with Southern charm and world-class sophistication.

Rooms for GAPA conference attendees begin at \$129 a night. Call the Embassy Suites at 770-984-9300 and mention that you will be attending the GAPA Spring 2016 Conference to receive special rates. Make your reservations early as a sell-out is expected. Visit gapa.net to make your online hotel reservations. Discounts are only available until March 19, 2016.

Summer Conference & Exhibition July 10 – 14 **SANDESTIN, FL**

SANDESTIN GOLF AND BEACH RESORT

9300 Emerald Coast Parkway W
Miramar Beach, FL 32550

Located on the northwest Florida Gulf Coast in Destin, Sandestin® Golf and Beach Resort is a 2,400-acre premiere resort with 30 charming village neighborhoods featuring condos, townhomes and villas with luxury hotel accommodations that you would expect from a beach resort.

GAPA's special conference rate of \$215 is guaranteed only until Thursday, June 9, 2016 and it is possible the property will sell out before then. To receive this discount, call Sandestin Golf and Beach Resort at 866-668-1948 and mention that you are a GAPA conference guest while making your reservation. Make your reservations early, as a sell-out is expected.

Uncover More at GAPA Workshops!

ACLS Recertification

This course is a review course for those with a current ACLS course card. This workshop will cover the skills and didactic information necessary to treat a cardiac arrest patient. Participants will review various clinical applications.

Advanced Techniques for Orthopedic Patients

Hands on skills will be emphasized during this comprehensive orthopedic workshop. Basic to advanced skills will be covered enabling practitioners an opportunity to learn and perfect their skills. Individual instruction will be provided as well as lecture demonstration. Skills covered include; casting, splinting, intra-compartmental pressure monitor system, X-ray evaluation, techniques in dislocation relocation, ACL risk evaluation, and other hot topics.

The Booger Factory: How to Manage Allergic Rhinitis in Your Patients

This workshop will assess the clinical findings, symptoms, and risk factors associated with the diagnosis of allergic rhinitis; consider recommendation for skin testing in patients with allergic rhinitis; and develop an optimal pharmacotherapeutic treatment regimen for a patient with allergies.

Basic Dermatology Procedures & Management of Common Skin Lesions

Provide a broader range of services to your patients by understanding and learning basic dermatology procedures! This hands-on workshop provides participants an opportunity to identify basic skin lesions and learn procedures and treatment options.

Basic EKG & 12 Lead EKG

For those that are comfortable with ECGs, the focus turns to the interpretation of a 12-Lead ECG. At the conclusion of this session you will be able to recognize a properly performed 12-Lead ECG; determine the mean QRS axis and state the common causes of axis deviation (LAD, RAD, IAD); describe 12-Lead ECG features of ischemia, injury, infarction; chamber enlargement, bundle branch blocks, hemiblocks, pericarditis, electrolyte and drug effects; plus interpret 3 (three) 12-Lead EKGs and identify the pathological condition causing the abnormality.

BCLS

This is a refresher for the AHA Basic Life Support course. Healthcare professionals will learn to recognize several life-threatening emergencies, provide CPR to victims of all ages, use an AED, and relieve choking in a safe, timely and effective manner.

Casting/Splinting

Casting and Splinting is a 'hands-on' case-based lecture workshop with 'hands-on' practice. This course concentrates on common orthopedic conditions warranting the application of a splint and or cast. At the conclusion of this course individuals will improve their assessment and management skills in Orthopedic splinting and casting; identify 'red flag' patients, and increases confidence with important splinting/casting procedures; and understand the basic indications for various types of splints and casts, and when to best use each.

Chest X-Rays

Everything you always wanted to know about a CXR, but were afraid to ask! This hands-on workshop will provide the tools necessary for interpreting CXRs in a primary care setting. Review radiographic images along with brief case studies while expanding your knowledge of CXRs and making the appropriate diagnosis.

Concussion Management

Concussions in sports continues to evolve as we discover new and improved techniques in clinical assessment and management. This workshop will discuss the assessment, management and treatment options for sports concussions.

Crash Course in Quick Clinical Skills

Learn new clinical skills with an explanation demonstration workshop. Literally from head to toe, this workshop will cover a multitude of skills necessary for treating conditions encountered in the acute care setting. Skills such as fish hook removal, ring removal; body piercing jewelry removal, abscess/felon/paronychia drainage, central line placement, chest tube placement, lumbar puncture, and various nerve blocks will be covered in lecture. Equipment will be available to have hands-on practice of other skills (should time allow) but emphasis will be given to the skills most often requested in the past. Individual instruction will be provided and everyone will have the opportunity to practice on life-like models. Pearls and techniques of various clinical skills will be discussed.

Dermatopathology for the Dermatology PA

This workshop will cover the basics of skin anatomy, as well as a review of biopsy techniques for inflammatory dermatoses, neoplastic & melanocytic cutaneous lesions.

Documentation & Coding: Advanced

This advanced workshop will enable participants an opportunity to learn the skills to identify elements required in documentation for coding and correctly document various levels of patient examination in the medical chart. This will be an interactive open discussion presentation.

Documentation & Coding: Basic

Learn basic skills that will help you identify key elements required in documentation for coding and correctly document various levels of patient examination in the medical chart.

Eye Exams

Sharpen your skills and master that mysterious slit lamp exam. This lecture workshop on the examination of the eye will instruct you in the correct examination of the eye utilizing the ophthalmoscope and slit lamp. Hands-on practice with the slit lamp will be provided. The all-important basic eye exam and eye pathology will be covered. What should you see with the Wood's lamp? How do you flip an eyelid? Is it an abrasion or an ulcer? What constitutes an ophthalmic emergency? Attend this workshop to better understand these and many more eye-related topics.

Imaging of the Spine with X-Ray and MRI

This hands-on workshop will cover basic spine imaging and will provide you with the tools necessary for interpreting spine x-rays and MRI. By learning how to review radiographic and spine MRI images and brief case studies, you will be able expand your knowledge in making the appropriate differential diagnosis.

Nightshift in the ED

This comprehensive workshop presents multiple short cases encountered in the ED setting. Cases will be presented with a description of the complaint, the x-ray taken, and the appropriate labs ordered in order to formulate a differential diagnosis of the patient.

Orthopedic Exam: Knee and Ankle

Knee and Ankle complaints continue to fill the clinics and emergency rooms. Clinicians must be able to formulate a differential diagnosis efficiently and effectively in order to expedite treatment options.

Orthopedic Exam: Shoulder and Elbow

Shoulder and elbow pain are one of the most common complaints that present to the clinic. Narrowing the differential diagnosis for the shoulder joint is a complex yet simple task. This lecture is designed to familiarize participants with evidence based physical exam techniques for the shoulder and elbow.

Learn from Our Skilled Instructors!

Pediatric Advanced Life Support

This is a refresher course for those with a current PALS course card. The workshop covers the infant/child in respiratory failure, shock, or arrest. At the conclusion, participants will be proficient in their ability to recognize the infant or child at risk of cardiopulmonary arrest; resuscitate and stabilize infant/child in respiratory failure, shock, or arrest.

Procedure Skills

Literally from head to toe, this workshop will cover a multitude of skills necessary for treating conditions encountered in the acute care setting. Skills such as fish hook removal, ring removal; body piercing jewelry removal, abscess/felon/paronychia drainage, central line placement, chest tube placement, lumbar puncture, and various nerve blocks will be covered in lecture. You will have hands-on practice in lumbar puncture, central line placement, and chest tube placement. Equipment will be available to have hands-on practice of other skills (should time allow), but emphasis will be given to the skills most often requested in the past. Individual instruction will be provided and everyone will have the opportunity to practice on life-like models.

Suture Techniques

All Participants will take home a new suture kit and material! Update your knowledge and practice suture skills. This workshop will cover various suture skills which include; simple interrupted, corner stitch, vertical/horizontal and running suture.

When Joint Injections are Appropriate & Beneficial

Many mid-level practitioners have never been taught basic joint injection and aspiration techniques. Although basic musculoskeletal anatomy has been taught, hands on application of the anatomy in aspirating and injecting joints has been limited with few opportunities to demonstrate hands on skills.
