Join us for a conversation across the country including surgical skills demonstrations and increased hands-on skills lab time at each location!

Emerging techniques. Exceptional instruction. Unparalleled access!

Immerse yourself in the latest advances and controversies related to primary and revision joint arthroplasty during this unique, two-day skills/didactic course combination.

- All three locations are connected live! You and your colleagues gain simultaneous access to lectures, faculty surgical demonstrations, and panel discussions by renowned orthopaedic surgeons.
- This unprecedented course provides a unique opportunity to learn in small interactive groups at each location—as well as form a consensus with orthopaedic surgeons across the country.
- The 2013 schedule features even more hands-on surgical skills labs with expert faculty teams at each location. Practice and refine the latest surgical techniques and approaches for primary and revision total hip and knee arthroplasty.
- **New subjects this year include performing direct anterior THA without the use of a specialized table, as well as demonstration and performance of extensile surgical approaches for the hip and knee.**

Who should take this course?

This course is designed for orthopaedic surgeons, as well as fellows in training, with an interest in adult reconstruction of the hip and knee.

This course is designed to give you the knowledge and skills to:

- Limit soft tissue morbidity for joint preservation for various arthroplasty procedures of the hip and knee
- Manage hip pain in the young adult patient; manage post-operative pain in total joint patients
- Perform various joint preservation and reconstruction procedures using alternate surgical approaches for primary and revision THA and TKA

**Don't miss this fast-paced, innovative educational program.
Space is limited at each site. Please register today.**

To register or for more information, call AAOS toll-free at **1-800-626-6726**, or go to www.aaos.org/3366 for Rosemont; www.aaos.org/3365 for Philadelphia; and www.aaos.org/3367 for San Francisco

AAOS and AAHKS members receive discounted tuition of only **\$1,049** for this course.
