LODGING INFORMATION

Ocean Edge is located at 2907 Main Street, Brewster (Cape Cod), Massachusetts. It is a one and one-half to two hour drive from Boston, or a 12-mile drive from the Barnstable/Hyannis Airport, which has daily air service from New York, Hartford, and Boston. In addition to being an excellent conference facility, Ocean Edge offers multiple recreation activities, including a championship golf course, tennis courts, swimming pools, exercise rooms, and biking and jogging trails.

A block of rooms has been reserved for registrants attending this seminar at a special conference rate. The block includes hotel rooms on the ocean side of the property as well as 1-bedroom villas across the street on the golf course side of the property. In order to receive the special rate, reservations must be made before the room block fills or before the expiration date of June 18th, whichever comes first. After that date, reservations will be accepted on a space available basis. Registrants may call Ocean Edge for reservations at 1-800-343-6074 or 508-896-9000. Please ask about any additional resort/early departure fees. To view their website: www.oceanedge.com

DIRECTIONS TO OCEAN EDGE

Pick up Route 6 (Mid-Cape Highway) at the end of the Sagamore Bridge and follow Route 6 to the Brewster/Harwich Exit, #10. Turn left onto Route 124 and follow to the intersection of Route 6A (approximately 10 minutes). Turn right on 6A East. From this point, it is 1.8 miles to Ocean Edge Resort and Conference Center. Check in is available on both the golf course and ocean side of the property.

COURSE OBJECTIVES

This annual course is designed to provide gastroenterologists, surgeons, internists and mid-level practitioners with a clinically oriented update on the advances and controversies on critical topics in gastroenterology and liver disease. This 4-day course will cover multiple subjects, examining the science underlying the issues in gastroenterology and providing the information by which to guide patient treatment and management strategies.

The following address the ACGME/ABMS Medical Knowledge and Practice Based Learning and Improvement Competencies

Upon completion of this course participants will be able to:

- Discuss the role and technique of fecal microbiota transplantation for refractory C. Difficile colitis
- Identify the latest modalities in the diagnosis and treatment of pelvic floor dysfunction
- Understand emerging risks of blood transfusion
- Implement and use the new FODMAP diet for patients with food sensitivities
- Delineate the role of deep small bowel enteroscopy for management of obscure GI hemorrhage
