Course Information

Course Overview

The Scripps Cancer Care Symposium is designed for nurses, nurse practitioners, physician assistants, clinical nurse specialists, and other health care professionals dedicated to the field of hematology/oncology that practice in settings across the continuum of care. During this two and a half day conference, attendees will benefit from an intimate learning environment in which renowned faculty will present the latest in evidence-based oncology care and provide practical strategies and tools helping you to improve quality of life and outcomes for patients with cancer and their families. Don't miss this opportunity to interact and network with like-minded colleagues while earning a generous amount of CE credits!

Conference Highlights

- Comprehensive presentations of the latest advances in cancer diagnosis and treatment with a strong patient care focus
- Small group workshops allowing for additional interaction with expert faculty on pertinent topics
- A mobile app will provide you with access to conference course materials from the convenience of your mobile device or computer

Target Audience

- Hematology & Oncology Nurses
- Hematology & Oncology Nurse Practitioners
- Clinical Nurse Specialists
- Physician Assistants
- Experienced Hematology & Oncology Health Care Professionals

Educational Objectives

After attending this activity, participants should be able to:

- Assess the impact health care reform initiatives and proposed deficit reduction plans will have on your practice.
- Analyze how age, culture, race, and ethnicity differentially impact decision making in cancer care.
- Examine the pathophysiology of Renal Cell Carcinoma as well as current approved therapies, emerging research and side effect management.
- Discuss current prognostic and treatment strategies in Myelodysplastic Syndrome.
- Summarize evidence-based applications of pharmacogenomics in clinical settings.
- Identify the physiological and emotional benefits of using laughter in the oncology setting.
- Evaluate Positron Emission Tomography (PET) and other medical imaging techniques for the oncology patient.
- Acquire the skills needed to become a Nursing Leader.
- Review plastic surgery options for the oncology patient.
- Demonstrate effective communication skills in a way that is sensitive, honest, compassionate and attentive when engaging palliative care patients and their families and identify the need and importance of these conversations.
- Describe technical advances in robotic therapy.
- Define integrative oncology and the role of integrative medicine modalities in the care of the oncology patient.
- Demonstrate effective communication skills to address sexual health concerns for patients and develop an assessment framework for common sexual complaints while formulating a simple treatment paradigm for common sexual problems.
- Acquire an understanding of what compassionate care means and how to apply it to the oncology patient.
- Differentiate the two large groups of non-Hodgkin lymphoma.
- Evaluate factors that affect adherence to oral oncolytics and employ strategies to increase adherence.
- Examine new developments in the field of clinical cancer genetics.
- Establish networking relationships with clinical colleagues on contemporary nursing and advanced practice provider solutions.

Cultural and linguistic competency was incorporated into the planning of this activity.

About Scripps

Scripps Health is committed to combating cancer. That's why we mobilized the collective resources of five hospital campuses, our affiliated physicians and a renowned research center to form the Scripps Cancer Center. These providers work collaboratively toward prevention, early detection and coordinated treatment. The center's multidisciplinary approach ensures a comprehensive treatment plan that pairs leading-edge technology with an experienced, respectful care staff

who are sensitive to the whole person and a range of healing approaches. Patients benefit from a collective array of cancer-specific personnel and services, as well as vigorous dialog between researchers and clinicians that brings the latest medical knowledge bedside. For more information on Scripps Cancer Center visit: www.scripps.org/services/cancer-care.

Scripps Conference Services & CME, which offers nationally recognized live conferences in a variety of specialty areas, is committed to improving the quality of health care and advancing the practice of medicine by providing exceptional educational courses for physicians and other health care professionals.
