

October 26-27, 2013 – New York, NY

AGENDA

Draft 6.1.13

Co-Directors: Derek H. Jones, MD and Lisa M. Donofrio, MD

As a sponsor accredited by the ACCME, ASDS must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. ASDS is committed to providing dermatologic surgeon learners with fair and balanced continuing medical education.

The purpose of this course is to familiarize participants with the latest advances in soft-tissue fillers and neurotoxins and the appropriate techniques for their use in patient care.

Course Learning Objectives:

Upon completion of this course, participants should be able to:

- Identify new techniques and advances in the broad range of soft tissue fillers and neurotoxins
- Apply an evidence-based approach to selection of appropriate fillers and neurotoxins
- Describe anatomical considerations and techniques to optimize procedural predictability and safety
- Demonstrate the various techniques and approaches for efficacious use of soft tissue fillers and neurotoxins
- Implement peri-procedural assessment and strategies for avoidance and management of complications

ACGME/ABMS Desirable Physician Attributes / Competencies:

The ASDS acknowledges the need for CME content to be designed within the context of desirable physician attributes as expressed by the ACGME/ABMS Core Competencies and the Dermatology Residency Committee. Aligned with Criterion # 6 of the Accreditation Council for Continuing Medical Education's Provider Requirements for CME, the ASDS has developed the content of this educational activity to address the ACGME/ABMS Core Competencies according to the following list:

Patient Care

That is compassionate, appropriate and effective for the treatment of health problems and the promotion of health.

Practice-based Learning and Improvement

That involves investigation and evaluation of their own patient care, appraisal and assimilation of scientific evidence and improvement in patient care.

Medical Knowledge

About established and evolving biomedical, clinical and cognate (e.g. epidemiological and social behavior) sciences and the application of this knowledge to patient care.

Interpersonal & Communication Skills

That results in effective information exchange and teaming with patients, their families and other health professionals.

Professionalism

As manifested through a commitment to carry out professional responsibilities, adherence to ethical principles and sensitivity to a diverse patient population.

Systems-based Practice

As manifested by actions that demonstrate an awareness of and responsiveness to the larger context and system for health care and the ability to effectively call on system resources to provide care that is optimal value.

Course Faculty and Disclosures:

The American Society for Dermatologic Surgery controls the content and production of this live CME activity and attempts to ensure the presentation of balanced, objective information. In accordance with the Standards for Commercial Support established by the Accreditation Council for Continuing Medical Education (ACCME), faculty, abstract reviewers, paper presenters/authors, planning committee members, staff and any others involved in planning the educational content and the significant others of those mentioned must any relationship they or their co-authors have with commercial interests which may be related to their content. The ACCME defines “relevant financial relationships” as financial relationships in any amount occurring within the past 12 months that create a conflict of interest.
