ECE 2019

21st European Congress of Endocrinology

Dear Colleague,

It is with great pleasure that the Programme Organising Committee and Local Organising Committee invite you to join us in Lyon, France, for the 21st European Congress of Endocrinology (ECE). We will be convening over three days filled with the latest endocrine research and developments at the Centre de Congrès de Lyon from 18-21 May 2019.

Attracting over 3,700 delegates, from more than 90 countries, ECE continues to develop as the world-leading congress for endocrine specialists. As many of us work within a number of areas of research, or see patients across a wide range of conditions, the benefit of ECE is that you can access a comprehensive programme covering the breadth of the speciality. Our continued aim is to further the understanding and application of endocrine science within our community; ultimately benefiting the life of patients. Whatever your interest there will be sessions that are of direct relevance, as well as unparalleled networking opportunities.

The programme is organised so that you can easily find the topics which will appeal to you; these are defined through the following Focus Areas: Thyroid; Adrenal and Neuroendocrine Tumours; Calcium and Bone; Diabetes, Obesity and Metabolism; Pituitary; Reproductive Endocrinology; Interdisciplinary Endocrinology; and Environment, Society and Governance.

ECE 2019 congress is on track to be the best yet, and will feature leading names in our field who will explore some of the most topical and controversial issues in endocrine research and practice.

During the congress you will also have time to explore the history and gastronomy that Lyon, third largest city in France and birthplace of cinema, has to offer.

We encourage you to participate in ECE 2019, through submitting your abstract, registering for the pre-congress events and, of course, attending the congress itself.

We look forward to welcoming you to Lyon!

Márta Korbonits (UK)

ESE Scientific Programme Chair

Manuel Tena-Sempere (Spain)

Basic Science Joint Chair, POC

Sebastian Negggers (The Netherlands)

Clinical Science Joint Chair, POC

Françoise Borson-Chazot (France)

Chair, Local Organising Committee

Patrice Rodien (Angers)

Sophie Christin-Maître (Paris)

Submit an abstract!

Make your work part of ECE 2019

Do you have an interesting or challenging case that would improve the others' ability to treat endocrine disease? Or a piece of cutting edge research that would advance the understanding of endocrinology? Don't miss the chance to submit your latest work to the premier European endocrinology congress.

Visit www.ece2019.org for more information on how to prepare and submit your abstract using our simple online submission system.

Important Dates & Deadlines

ABSTRACT SUBMISSION DEADLINE:

Monday 4 February 2019

EARLY BIRD REGISTRATION DEADLINE:

Thursday 4 April 2019

ECE On Demand

Fast, simple 24 hour access to content including plenary lecture and symposia webcasts, abstracts and eposters is available to all ESE members and ECE 2019 delegates at www.eceondemand.org

CME Accreditation

ECE 2019 has applied for accreditation from the European Accreditation Council for Continuing Medical Education (EACCME).

ESE Meeting Grants

ESE members can apply for a Meeting Grant (worth up to €400) each or a Basic Science Meeting Grant (worth up to €450 each) which can be used towards the cost of attending the Congress.

To find out more information about the grants available please visit the ESE website at www.ece-hormones.org

Welcome to Lyon

We are delighted to welcome you to the beautiful city of Lyon for the 21st European Congress of Endocrinology.

Congress Venue

Centre de Congrès de Lyon

50 Quai Charles de Gaulle

69463 Lyon, France

Getting to Lyon

Lyon's Airport (Lyon-Saint Exupéry Airport) is located 28km from the city centre. There are daily flights to and from the major cities in Europe and the rest of the world. There is direct connection by express tram between the airport and Lyon's central train station (Part-Dieu), located a short walk from the Centre de Congrès de Lyon.

Part-Dieu Station is connected to the French (SNCF) and international rail networks.

The Centre de Congrès de Lyon is also easily accessible by car, bus and tram.

Where to stay

A wide range of accommodation is available for your selection at reduced rates exclusively for ECE 2019 delegates.

All hotels are located within a reasonable distance from the congress venue, with good transport links across the city. A full list of accommodation is available on the congress website.

Book online at www.ece2019.org to ensure you receive your exclusive ECE 2019 rate, along with priority 'preferred guest' booking at some of Lyon's top hotels.

ESE Membership

Be part of the leading European society dedicated to driving excellence in research, education, clinical practice and patient care in endocrinology. ESE membership is open to researchers, nurses, clinicians and students in the field of endocrinology and hormonal systems.

National Affiliate Membership is available to all members of ESE's National Affiliated Societies and grants you full membership at a discounted rate.

ESE member benefits:

- Up to €300 reduction on ECE registration fees
- Free access to ESE's five journals online and exclusive discounted print subscriptions
- A 40% discount on Open Access publishing in *Endocrine Connections*
- Access to ECE On Demand providing you with the most up-to-date scientific content from ECE
- Exclusive access to ESE grants and awards
- Networking within the endocrine community
- Voting rights and attendance at the ESE AGM
- Reduced fees to other ESE events
- The latest endocrine news direct to your inbox

Join today and become part of the Society's influential global endocrine community.
