PROGRAM DESCRIPTION

THIS CONTINUING MEDICAL EDUCATION COURSE is designed to provide general and community based gastroenterology physicians, physician assistants and nurse practitioners an opportunity to learn about and discuss the advances in the diagnosis and treatment of patients with liver disease and luminal GI diseases. Lectures will cover topics on rational approaches to pancreatic cysts, managing necrotizing pancreatitis, management of severe inflammatory bowel disease, risk factors and management for portal vein thrombosis, drug induced liver disease, management of alcoholic hepatitis, colon dysmotility disorders, management of pelvic floor disorders, polypectomy tools such as snares, needles, clips, etc., obesity and the microbiome and hepatology cases such as viral hepatitis and primary biliary cholangitis. Because of its popularity, we will feature again this year a formal resident poster symposium with presentations of the top abstracts.

EDUCATIONAL OBJECTIVES

**AT THE CONCLUSION OF THE CONFERENCE, ATTENDEES
SHOULD BE ABLE TO:**

- 1 Describe post endoscopic pediatric recovery guidelines and state three post-procedure complications and treatments
- 2 Develop a rational algorithm for the management of pancreatic cysts
- 3 Determine the optimal treatment algorithm for necrotizing pancreatitis
- 4 Develop a treatment plan for patients with severe inflammatory bowel disease
- 5 Understand the strategy in recognizing and treating portal vein thrombosis
- 6 Develop a plan for the recognition and treatment of drug induced liver disease
- 7 Review the options for the management of alcoholic hepatitis
- 8 Understand the disorders in gut motility and tools to diagnose them
- 9 Recognize the options available for the treatment of pelvic floor disorders
- 10 Differentiate the proper snare, injection needles, polyps and thermal coagulation tools used for polypectomies
- 11 Understand the connection of the microbiome and obesity
- 12 Review the algorithms and drug regimens available for Hepatitis C management
- 13 Understand treatment strategies in primary biliary cholangitis
