the ACC.16 Program Committee.

Contemporary Management of Valvular Disease: Putting the Guidelines and Trials into Perspective

Description

While national guidelines inform care, controversies in diagnosis and treatment of valvular disease remain. This program will focus on clinical decision making while combining the most relevant medical, surgical, and interventional options for patient care.

Objectives

- Assess advantages and limitations of medical, surgical and interventional therapies for structural heart disease based on individual case parameters and accepted guidelines.
- Compare and contrast the usefulness and limitations of imaging techniques in the setting of structural heart disease.
- Recognize and understand the management of complications following TAVR.

Target Audience

This course is intended for cardiologists, interventional cardiologists, cardiothoracic surgeons, physicians assistants, advance nurse practitioners, nurses, and health care professionals involved in the evaluation, diagnosis, and/or management of patients with structural heart disease.

Accreditation

The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this live activity for a maximum of 1.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association for Category 2 credit.

Faculty Disclosure

The Cleveland Clinic Foundation Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Commercial Support requiring resolution of all faculty conflicts of interest. Faculty declaring a relevant commercial interest will be identified in the activity syllabus.

AGENDA

Chair: Lars G. Svensson, MD, PhD

7:00 pm	Registration and Dinner Buffet
7:30 pm	Should All Patients with Asymptomatic Valve Disease be Offered Valve Replacement? The Crucial Role for Pre-procedural Evaluation David Brown, MD
7:45 pm	Diagnostic Imaging and Assessment of Valve Disease Ron Waksman, MD
8:00 pm	Surgery in the setting of AS or MR: What Do the Guidelines Say? Paul J. Corso Jr, MD
8:15 pm	Outcomes of AVR, AV Repair, and Ascending Aorta Replacement Lars G. Svensson, MD, PhD
8:30 pm	Recognizing Complications of TAVRs: Procedural and Echocardiographic Lessons Samir Kapadia, MD
8:45 pm	New TAVR Devices, Technology, Access Approaches Robert C. Stoler, MD
9:00 pm	Panel Discussion
9:15 pm	Adjourn

REGISTRATION

Please go to www.ccfcmc.org/ACC.16 to register for this course. Pre-registration is preferred; however, on-site registration will be accepted on a first come, first served basis. For questions about registering online, email us at cmeregistration@ccf.org or call 216.448.8710.

For further information about registration and the Americans with Disabilities Act, contact the Cleveland Clinic Center for Continuing Education at 216.444.9990.
