WELCOME!

I am honored to present the fourth annual Practical Symposium in Beaver Creek, Colorado. Our conference emphasizes essential dermatologic topics and how dermatologists and dermatopathologists work together to establish accurate diagnoses and optimal treatment plans. Based on the popularity of last year's CME hike, we plan to expand our educational activities for those who desire to learn while enjoying the great outdoors. Also, the symposium agenda allows numerous networking opportunities between attendees, faculty and industry executives.

The symposium is a great fit for dermatologists, Mohs surgeons, dermatopathologists, pathologists and physician extenders who seek to deepen their knowledge base. Industry research doctors who attend will have a better understanding of the important roles their companies play within the dermatology specialty.

Our self-paced slide exam assists residents, fellows, and physicians who are preparing for the certification or re-certification exam. Approximately 25 CME hours and 100 MOC credits will be available to be earned.

The symposium offers sessions in the morning and early evenings which allows ample free time for enjoying the majestic Colorado Rocky Mountains, which are truly spectacular in the summer. I look forward to seeing you in Beaver Creek and sharing a weekend of learning, networking and socializing.

With my best personal regards,

Clay J. Cockerell, MD

AREA INFORMATION

Discover what Vail Valley locals know:

We came for the winters but stayed for the summer. With Beaver Creek's superb climate, you'll want to spend the long days outdoors. Whether your idea of fun is active or relaxed, the choices are plentiful. Here are some of the local's favorite things to do in summertime.

- Hiking & Biking
- Golf & tennis
- Festivals and wine tastings
- Ziplining & ballooning
- Rafting, kayaking & fishing
- Jeeping & horseback riding
- And so much more!
