Learning Objectives

At the conclusion of this activity, the learner will be able to:

1. Apply real life situations to clinical practice;
2. Integrate knowledge and performance in the assessment and diagnosis of musculoskeletal sports injury, tumors, trauma and degenerative disease;
3. Identify the anatomy of normal MSK tissues, variants and mimicker of disease;
4. Identify morphologic, histologic and imaging characteristics of MSK disease;
5. Describe the specific pathology that accounts for the appearance of osseous and soft tissues in the setting of trauma, overuse, degeneration, inflammatory/autoimmune and neoplastic conditions on various imaging modalities;
6. Recognize the relationship of specific biomechanical activities, injuries and treatments to the appearance of joints, bone, and soft tissues on imagine, arthroscopic, and pathologic assessment;
7. Review the optimal role of imaging, surgery and histopathology in the diagnosis and management of musculoskeletal disease and health;
8. Identify the complementary role of emerging imaging techniques, modalities, and interventional/therapeutic procedures in the diagnosis and management of specific musculoskeletal conditions;
9. Illustrate competency in Ultrasound, MRI, and therapeutic approaches in the assessment and management of the musculoskeletal system.

*Rush University Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Rush University Medical Center designates this live activity for a *maximum of **20 AMA PRA Category 1 Credit(s)**[™] Physicians should claim only credit commensurate with the extent of their participation in the activity.*

**Actual number of CME has not yet been determined, and may vary slightly.*
