Oct 21-25 - Milwaukee, WI
Nov 11-15 - Las Vegas, NV

Online Webinar:

Jul 15-19
Oct 21-25
Dec 9-13

- **94% Board Pass Rate** -

Student Testimonials:

- This course is an outstanding educational baseline for new mammo techs who are either starting out new to the field, or who are pursuing their ARRT registry!
- This class is filled with so much information. Miranda, Kathy, and Cheryl all were excellent. They were all so thorough with their explanations and answered all questions to the best of their knowledge. I would highly recommend this class to anyone who is wanting to learn mammography. Thank you again.

MTMI Medical Technology
Management Institute

A Continuing Education Division of CHCP

Day 1 - Monday 7:30am (registration) 8:00am - 4:00pm *

- Introduction to Mammography
- Patient Care
 - Education and Assessment

- Quality Control
- DBT Implementation
- Positioning

**You can choose any DBT day offered.*
It does not have to follow the course you have chosen.
 ~ schedule subject to change ~

Course Credit:

- The Initial Training in Mammography provides 40 hours of credit and fulfills all requirements of the Mammography Quality Standard Act (MQSA) for initial mammography training. It also fulfills the 8 hours of credit of digital mammography training required by MQSA before operating digital units.
- Day 6 - the Digital Breast Tomosynthesis (DBT) day provides 8 hours of credit of DBT training which is required by MQSA before operating Hologic, GE, Siemens and Fujifilm DBT units.

this course is supported by:

**About this Course**

The focus of our 5 day course will include all MQSA mandated material as well as an emphasis on mammography registry review. This course will cover all ARRT mammography exam content specifications as well as serve as a review for the California state mammography exam. Our course will incorporate the MQSA requirement of 8 hours of digital mammography throughout the 5 days. Hands on positioning workshops for those who attend the **on-site programs** will allow attendees the opportunity to work one on one with instructors and models to practice and learn the basic mammographic screening procedures. The week concludes on Day 5 with a registry review in an interactive and fun learning style.

Attendees staying for a 6th day of instruction will receive 8 hours of Category A credit in Digital Breast Tomosynthesis training also required by the Mammography Quality Standards Act (MQSA) before performing Digital Breast Tomosynthesis exams on Hologic Selenia Dimensions, GE SenoClaire, Siemens Mammomat Inspiration and Fujifilm Aspire Cristalle.
