Welcome Message

Dear friends and colleagues,

We are very pleased to have prepared an annual meeting for you all again. Especially during the time of the webinars and online meetings, we learned how important personal exchange is. The constant further development of our knowledge and our skills is the central concern of ISGE and to enable this anywhere in the world.

Therefore, we are very pleased that we can provide you with a rich program of high scientific quality in a very fruitful cooperation with IGES. It was important for us to focus on your daily concerns and specific practice.

IGES and ISGE have a common goal to make minimally invasive surgery (laparoscopic or vaginal) accessible to as many patients as possible according to local possibilities. We would therefore like to offer you as many tools as possible to achieve this goal.

We are therefore pleased about the support from the healthcare industry, which makes these events possible in the first place. At this point, so a big thank you in advance.

You too can support the value of the congress by becoming active and asking the faculty members many questions or making your own contributions. Send us your work to offer you a platform to present your work under free communication.

I wish you a fruitful congress and hope to see you in Bali

Your sincerely

Guenter K. Noé
ISGE President
Professor University Witten Herdecke
Head of Dep. Rheinlandclinics Dormagen (Germany)

Dear Colleagues and Friends,

The ISGE Annual Meeting 2023 will be held in conjunction with IGES 10th National Congress.

It is really an honor for us to collaborate with ISGE in hosting this magnificent event with distinguished faculties. We will provide you the best scientific discussions, and the hospitality of Bali.

The scientific program will comprehensively provide a forum for intellectual discussions on new, exciting and controversial issues in Gynecologic Minimal Invasive Surgery.

Bali is a truly beautiful tropical island inhabited by remarkably artistic people, breathtaking panoramas of cultivated rice terraces, impressive volcanoes and pristine beaches. You can explore some of the stunning natural habitats that Bali has to offer, from coral reefs to volcanoes, traditional temples and culture, and also exotic dining.

Let us serve you with our hospitality and beautiful culture to get the experience from the magnificent congress.

We will ensure that all of you will have so many fond memories, not only about the scientific discussion, but also the beautiful panorama and Bali Culture.

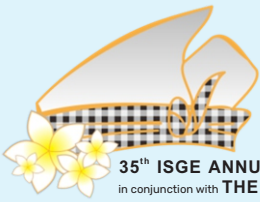

Once again, We would like to say "Come to Bali and Feel the Experience"

Looking Forward to See You!

Sincere Regards,

Relly Yanuary Primariawan

35th ISGE ANNUAL MEETING 2023
in conjunction with THE 10th IGES NATIONAL CONGRESS

Warm Regards from us

The Island of Bali has colorful traditional community make it a refreshingly different destination for events.

It is amongst a handful of destinations in the world which are a perfect blend of scenic landscapes, unique cultural experiences, comfortable climate conditions and world-class MICE facilities.

Other than natural attractions, Bali also offers various supporting facilities for travelers to indulge in, such as: International Airport I Gusti Ngurah Rai, (DPS): Commonly known as Denpasar International Airport, it is the third-busiest international airport in Indonesia. A hub for major Indonesian airlines, the Ngurah Rai International Airport provides access to most part of the world. The airport offers Visa On Arrival facility, as Indonesian Government grants visa upon arrival to 52 countries, including Canada, Germany, South Africa, UAE, UK and USA. The government also offers the 30-day Visa-Free facility to another 11 countries, including Singapore, Thailand, Malaysia and Morocco.

In Bali you can find everything from basic guest houses (Losmen) run by friendly Balinese families, to luxurious beach resorts, and privately-serviced beachfront villas with a driver and a cook. Accommodation is comparably cheap and Bali's high level of service and the friendliness of staff are well known.

Travelers can dive into the busy social scene in popular areas or enjoy an exclusive getaway in the boutique hotels, tranquil private villas, and vacation rental properties found all over the island. Backpackers will be surprised by the clean, relaxing accommodation available on a tight budget, while those who want luxury can live like royalty at a very reasonable price.

Well.. there are many reasons why you should come to Bali,

Please come and Enjoy!

INSTRUCTIONS FOR ABSTRACTS

Committee requires a structured abstract which includes the following segments:

Objective

Begin with a clear, concise statement of the precise objective or question presented in the study.

Methods

Indicate the measurement(s) of primary study outcome which has been planned before data collection begins. If the manuscript does not report the main planned-outcomes of a study, this fact should be stated and the reason should be indicated. State clearly whether the hypothesis, which was being tested, was formulated during or after data collection. Explain some outcomes or measurements which might be unfamiliar to the general medical readership.

Results

Describe the methods of assessing patients and state the key results; this section must include data, even if preliminary.

Conclusion

State clearly the conclusions and clinical applications that are supported by the data. Advice, if additional study is required before this information, should be used in clinical settings.

AWARD COMPETITIONS FOR ABSTRACTS

Awards will be made to acknowledge excellent research in advancing minimally invasive gynecology. The award competitions for paper, poster, and video are open to all.

There will be an Award Ceremony at the Closing Ceremony on **May 27th, 2023**. If you are selected as an awardee, please be sure to attend the ceremony.

ORAL PRESENTATION GUIDELINES

Your cooperation is appreciated in keeping the meeting on schedule for the benefit of all attendees.

Please note the following guidelines:

Authors must be prepared before presenting to allow fast and easy transition from one talk to another to avoid unnecessary delay between presentations. All talks are limited to the amount of time listed in the program.

- **Standard Audio-Visual Package:** LCD projector, screen, laser pointer and wireless lapel microphone.
- **Speakers:** A laptop will be provided in each technical session room. You can bring your own laptop as a back-up only but remember to bring the necessary video connectors as well.
- **Speaker Ready Room:** In order to be prepared for your presentation, a speaker Ready Room is provided in the **LEGIAN room (lobby level)** to help presenting authors give a smooth and trouble-free presentation. Testing your presentation in the Speaker Ready Room will minimize potential equipment compatibility issues. PowerPoint presentation to be used during the session should be uploaded in the Speaker Ready Room no later than **AN HOUR** before your scheduled presentation.

- **Oral Presentation:** presentation duration **10 minutes (including Q&A session)**. The program has an extremely tight time schedule, you are therefore requested to keep to this schedule precisely. Given the brevity of presentation, we suggest you limit your presentation slides to 10.
- **PowerPoint Screen:** size is 16:9.
- **Audio Visual Assistance:** only minimal audio-visual assistance can be expected from your session chair. If a problem arises, please relay the issue to the staff on-site, who will contact the appropriate personnel.
- **Preparing Your Presentation:** in order to use MAC presentations on a PC compatible computer please note that you need to prepare it according to the instructions below, before bringing it to the Speakers' Ready Room:
 1. Use a common font, such as Arial or Times New Roman (special fonts might be changed to a default font on a PowerPoint based PC)
 2. Insert pictures as JPG files (and not TIF, PNG or PICT - these images will not be visible on a PowerPoint based PC)
 3. Use a common movie format, such as AVI, MPG and WMV (MOV files from QuickTime will not be visible on a PowerPoint based PC)

REGISTRANT / BOOKER SIGNATURE

The Indonesian government has added 12 countries subject to a Visa on Arrival (VoA), which was previously only intended for citizens from 60 countries. The 12 countries include Bahrain, Belarus, Bosnia, Kuwait, Egypt, Morocco, Oman, Peru, Russia, Serbia, Ukraine, and Jordan. Citizens from these 72 countries can enter Indonesia through 9 airports, 11 seaports, and 4 cross-border posts. The new list is regulated in the Circular Letter of the Director-General of Immigration (DGI) Number IMI-0603.GR.01.01 of 2022 on Immigration Ease in Supporting Sustainable Tourism During the Corona Virus Disease . Meanwhile, there are no additions in countries subject to Visitor Visa Exemption (VVE) arrangement. This new policy comes into effect as of 30 May 2022. Accordingly, the Circular Letter of the Director-General of Immigration Number IMI-0584.GR.01.01 of 2022, signed on 27 April 2022, is revoked and declared invalid.

To obtain VVE or VoA, foreigners must show a valid nationality passport valid for at least 6 (six) months, a return ticket or connecting ticket to continue traveling to another country, proof of payment for VoA", and proof of insurance ownership at an insurance company with an Indonesian legal entity which includes medical financing while staying in Indonesia.

The VoA fee is Rp500,000 according to Government Regulation No. 28 of 2019, and for VoA extension is the same, Rp500,000. The stay permit originating from the VoA can be extended one-time for 30 days and carried out at the immigration office near the area where the foreigner lives while in Indonesia.

VVE and VoA cannot be changed to another stay permit. Holders are also not eligible to apply for an extension of their stay permit with an onshore visa .In addition, Achmad also demanded that both foreigners and tourism industry players comply with immigration regulations. Owners or managers of hotels are obliged to provide information or data regarding foreigners staying overnight to facilitate the supervision of foreigners.

Foreigners who have misused their stay permits will be subject to immigration sanctions. Likewise, suppose they are proven to have violated health protocols and disrupted public order. In that case, they will be subject to sanctions according to the applicable laws and regulations.

Foreigners can use VVE or VoA to engage in tourism activities or government duties in state or international government events. To carry out these activities, apart from meeting the requirements stated above, foreigners must also attach an invitation letter to attend the conference/forum/meeting issued by the Ministry/Agency/Agency of the Republic of Indonesia.
