Dear Fellow Sarcomatologists,

We are honored and delighted to host the 20th Anniversary Meeting of the Connective Tissue Oncology Society in beautiful Salt Lake City Utah, November 4-7th, 2015. The meeting will be in the glamorous, one-of-a-kind Grand America Hotel. True to our roots, the meeting will address both newly-arising research areas and important clinical issues.

The invited lectures will be given by Christopher Fletcher (Nina Axelrad Lecture) and Julia Bridge (Herman Suit Lecture). As our mission is trans-disciplinary, we have developed the program to reflect our collaborative efforts. In addition to the three symposia we will have a presentation on circulating tumor DNA. A talented and diverse Program Committee has been charged with making all of the sessions dynamic, relevant and interactive.

While hemangioendothelioma is the chosen "Sarcoma of the Year," there will be several other plenary sessions focused on different tumor types hoping to encourage the submission of abstracts across collaborative disciplines.

The three symposia include:

- Preclinical Modeling in Sarcoma
- Sarcoma Predisposition Syndromes
- Adolescent and Young Adult Oncology

We trust that participants will submit their most provocative work. Collaborative abstracts across disciplines will be favored. Plenary sessions include

- | | |
|------------------------|--|
| • Hemangioendothelioma | • GIST |
| • Synovial Sarcoma | • Translocation Associated Sarcomas NOS |
| • Ewing Sarcoma | • Nontranslocation Associated Sarcomas NOS |
| • Osteosarcoma | • Benign/Borderline Lesions |
| • Chondrosarcoma | |

As we will be celebrating the Society's 20th birthday, members are also encouraged to contact Lor with any fun or interesting historical trivia about the founding of CTOS. We will also be recognizing Bruce and Beverly Shriver for their contributions to sarcoma advocacy, research and education.

The meeting site will be in downtown Salt Lake City, which is walking distance to many historical sites, shopping and wonderful varied-cuisine restaurants. Given that the state motto for Utah is "Life Elevated" we will also have some exciting optional events available, including a sunset hike, fun run and trail run. The Wasatch Front of the Rocky Mountains is immediately available by public transportation so the great outdoors awaits you. Utah is home to 5 National Parks (Arches, Bryce Canyon, Capitol Reef, Canyonlands, Zion), 7 National Monuments, 2 National Recreation Areas, 6 National Forests and 1 National Historic Site, all within a day's drive from the meeting. Bring the family and explore the natural glory that is Utah!

Your Program Committee is committed to making our 20th Anniversary a paragon of what we know is so special about our Society. The social calendar will certainly complement the provocative academic program. Come experience Life Elevated!

We look forward to seeing you in November!

R. Lor Randall, MD, FACS
