

Pediatrics for the Primary Care Practitioner

presented by Children's Mercy Kansas City

Outstanding Pediatric CME ... In Hawaii

October 17 to 20, 2016

Hapuna Beach Prince Hotel
Big Island, Hawaii

Children's Mercy
KANSAS CITY

Out of the Office ...
Enjoying Outstanding
Pediatric CME
in Hawaii

Hotel Description

The magnificent Hapuna Beach Prince Hotel is nestled on the famed Kohala Coast of Hawaii's Big Island, just 30 minutes north of the Kona International Airport. Most of the 350 spacious guest rooms offer spectacular ocean views, private lanais and all modern amenities. Guests enjoy the fresh-water swimming pool and whirlpool spa, health club and a myriad of water sports. Golfers enjoy challenging courses designed by Arnold Palmer and Robert Trent Jones Sr.

The sister property to the Hapuna Beach Prince Hotel, the Mauna Kea Beach Hotel, needs no introduction. Built in 1965 by Laurence Rockefeller, this world-class resort overlooks the crescent white sandy beach and azure waters of Kauna'oa Bay, one of the finest beaches in the Hawaiian Islands. In addition to the amenities mentioned above, this is home of the priceless Rockefeller collection of Asian and Oceanic art.

... rejuvenating!

– 2015 survey respondent

**Group rates will be honored from
Friday, Oct. 14 – Saturday, Oct. 22,
2016 as follows:**

**Reserve early to get the category of
your choice.**

**"Loved the audience
participation!"**

— 2015 survey respondent

Accommodations

To receive the negotiated group room rates, which include complimentary self-parking and daily buffet breakfast for two at the Hapuna Beach Prince Hotel and/or the Mauna Kea Beach Hotel, reservations **MUST** be made through Travel Store, Inc. at (800) 274-2517 nationwide or (310) 750-9422, if calling from southern California. The deadline for hotel reservations is Sept. 9, 2016.

Reservations may be confirmed with a one-night deposit either by credit card or by check. Deposits become nonrefundable after the deadline date listed above.

Travel Information

Travel Store can assist participants with competitive airfares and car packages from any city nationwide to Kona International Airport. Available from select cities nationwide, Travel Store can also arrange packages and excursions to the other Hawaiian Islands.

By staying at the host hotel, you will help Children's Mercy Kansas City meet its contractual obligations and keep registration fees reasonable. Please take this into consideration when making your accommodation decisions.

Children's Mercy employees must follow Children's Mercy travel policies.

Take Your CME to the Islands Earn up to 16 AMA PRA Category 1 Credit(s)[™] and/or 16 AAFP Prescribed Credit(s).

Accreditation

Children's Mercy Hospital is accredited by the Missouri State Medical Association to provide continuing medical education for physicians. Children's Mercy Hospital designates this live educational activity for a maximum of **16 AMA PRA Category 1 Credit(s)[™]**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This Live activity, **Pediatrics for the Primary Care Practitioner 2016**, with a beginning date of 10/17/2016, has been reviewed and is acceptable for up to 16.00 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**"High ratio of clinical
pearls per time spent!"**

– 2014 survey respondent

Objectives

Upon completion of this course, active participants will be able to:

1. Employ evidence-based practices for office-based evaluation and management of head injuries and concussion
2. Discuss national clinical practice guidelines for diagnosis and treatment of sinusitis and pneumonia in children
3. Review how to identify disordered eating in teens and youth
4. Identify possible complications of tattoos and body piercings that may present to the primary care provider
5. Choose best diagnostic tests for evaluation of food allergy
6. Examine the current Advisory Committee on Immunization Practices vaccine recommendations for children and adolescents
7. Describe treatment options for anxiety and depression in youth
8. Explain the difference between celiac disease and gluten sensitivity
9. Review the utility of urinalysis in the diagnosis of urinary tract infection and determine optimal treatment strategies
10. Review the latest research-based evidence in the emergency care of children
11. Identify means to address toxic stress and build child and family resilience in the primary care setting
12. Provide an overview on current management of infants and children with an inguinal hernia, an undescended testis or testicular torsion
13. Identify age and travel location anticipatory guidance for children traveling internationally
14. Identify techniques to simplify office-based procedures and indications for emergency department referral
15. Describe new management approaches for children undergoing appendectomy and summarize current concepts regarding non-operative management of appendicitis
16. Select pharmacotherapy based on predominant symptom pattern
17. Decide which diagnostic tests are indicated given presence or absence of “red flag” symptoms for chronic abdominal pain
18. Review suicide screening for the primary care practitioner
19. List initial steps for evaluation and treatment of pelvic floor dysfunction
20. Review common presentations of unusual disease and unusual presentations of common disease

**"... speakers are very
approachable"**
