UNITE TO TRANS

The pace of change in today's healthcare ecosystem is constant. Exciting, disruptive innovations abound at every turn, followed by the struggle to acquire, implement and optimize them for the greatest impact. There is a health revolution on the horizon.

But you're not worried. You don't just rise to a challenge – you soar over it. You demand more from health information and technology... and the innovation that powers it. You see past the disruptions and distractions, to the bigger, global picture of transforming health and lives. Your mission: to advance the safety, efficiency and quality of care, outcomes, health and well-being for us all.

You are undeterred. You are unmovable. You are unstoppable.

You're a champion of health. You're a superhero. You belong at HIMSS19.

From the C-suite to clinicians to administrators to information and technology professionals to innovators and beyond, champions of health rise to meet the challenges of complex issues like artificial intelligence, blockchain, the consumerization of health, cybersecurity, the silver tsunami and healthy aging, interoperability, population health, telehealth and so much more. You fight the good health fight every day for individuals and populations worldwide.

FORM HEALTH.

Join forces with 45,000+ other health information and technology champions at HIMSS19, where you'll:

- › Connect with the who's who in health and wellness
- › Experience five days of powerful education, innovation and collaboration
- › Get the latest policy announcements

HIMSS[®]19

WHAT MAKES A CHAMPION OF HEALTH?

In a fictional world, a champion is a superhero – someone with superhuman powers and who is dedicated to fighting the evils of the universe, protecting the public and battling supervillains. In the healthcare universe, a champion is a human, like you and me, who chooses to fight the evils of disease, illness, inefficiencies, cost disparities, bureaucracy, complacency and comfort with the status quo.

HIMSS celebrates all champions of health – people like you who are committed to transforming health and well-being around the world through information and technology.

CHAMPIONS OF HEALTH UNITE

WHICH CHAMPION ARE YOU?

Champions of health come from across the healthcare continuum – in the form of clinical executives, physicians, nurses, senior executives, patient advocates, innovators and entrepreneurs, programmers, educators, investors, compliance officers, security professionals, information and technology executives, pharmacists, students, government employees, hospitalists and so many more... they:

- › Create customized technology-based tools and systems to support patients recovering from opioid and alcohol abuse and dependence
- › Participate in leadership development programs to build the skills they need to help lead their fields and take better care of future patients
- › Take joy in teaching medical and nursing students and ensuring they are well-prepared for the challenges they will face when they graduate
- › Problem-solve to maximize the usability of their organizations' electronic health records for all their residents and patients
- › Collaborate with community-based organizations and stakeholders on public health issues to provide the most effective care to their communities
- › Work tirelessly every day to advance the safety, efficiency and quality of care, outcomes and health for us all in so many other ways

YOU'RE A CHAMPION OF HEALTH. YOU BELONG AT HIMSS19.
