Lisa A. Miller CNM, JD

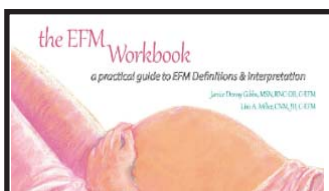

Fetal Monitoring Expert
Nurse Midwife - Educator - Lawyer

Formerly an Assistant Professor of OB/GYN at Northwestern University Medical School, Lisa is a renowned expert in fetal monitoring and perinatal safety. Lisa

teaches multi-disciplinary fetal monitoring programs, and provides risk management/patient safety consultation to individuals, hospitals and other organizations. She is a member of the Illinois State Bar, an active member of AWHONN currently serving on the AWHONN Board of Directors.

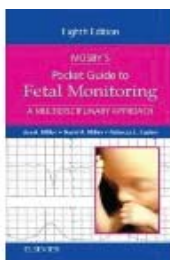

Lisa joined Drs. Roger Freeman, Thomas Garite, and Michael Nageotte as the fourth author (and first nursing author) of the classic textbook, *Fetal Heart Rate Monitoring 4th Ed.*, published May 2012 by Lippincott, Williams, & Wilkins. She is on the editorial board of the *Journal of Perinatal and Neonatal Nursing*, where she currently authors a column on Legal Issues and Risk Management. Lisa is a co-author of the latest Mosby's Pocket Guide *Fetal Monitoring: A Multidisciplinary Approach*, and the developer and creator of the ReadRight EFM Ruler. Along with co-author Dr. David Miller, Lisa has provided "Train the Trainer" sessions for a joint initiative between ACOG District II and the Healthcare Association of New York State, with physician, midwife, and nursing participants from over 90 hospitals. Her new EFM workbook provides full sized FHR tracings for review and practice; text available through Lisa's website: www.prmes.com. Developed as a companion to the Mosby Pocket Guide, the EFM Workbook allows clinicians to develop expertise in application of the NICHD terminology and standardized FHR tracing interpretation. Lisa continues to actively focus on patient safety in obstetrics and brings her extensive experience as a legal consultant to every course, providing a unique viewpoint to risk management and clinical practice.

CONFERENCE SPECIALS...

NEW the EFM Workbook
Full sized FHR tracings for review
View at class
Available at www.proedcenter.com

HomeStudy Unit: 8th Ed.
Mosby's Pocket Guide Series: *Fetal Monitoring: A Multidisciplinary Approach*

\$5.00 Discount available at Conference or if ordered w/Registration for class.

Miller's ReadRight EFM Ruler
Included at class free!

This innovative tool makes EFM strip evaluation EASY! Additional ReadRight Rulers available at \$5.00 each.

WHO SHOULD ATTEND?

- Labor & Delivery & LDRP Nurses
- Advanced Practice Nurses
- Nurse Midwives • Physicians • PAs
- Nurses Needing Cross-Training to L&D
- Individuals planning to take NCC's EFM Subspecialty Certification Exam

This course has key elements to update and validate your clinical knowledge base in EFM and prepare for the NCC EFM subspecialty certification exam. The new NICHD, AWHONN, ACOG, and ACNM fetal monitoring standards and guidelines are presented. On site paper-pencil NCC EFM exam available to those individuals who have applied and been accepted as a NCC exam candidate*.

Pre-class review of EFM concepts is strongly recommended.

Taking the review course does not guarantee passing the exam.

PROGRAM OBJECTIVES:

Following comprehensive lecture, discussion, A-V presentation, and case review, you will be able to:

- Demonstrate knowledge of EFM equipment for external and internal FH and UC monitoring.
- Understand the physiology of labor, maternal and fetal physiology, and the impact of labor on maternal and fetal systems.
- Identify fetal oxygenation needs, mechanical and pharmacological factors influencing fetal oxygenation.
- Recognize EFM elements consistent with normoxia and possible evolving metabolic acidemia, noting interventions for each.
- Describe a variety of fetal assessment methods for antepartal and intrapartal evaluation of fetal status.
- Define and recognize elements of EFM tracing including: FHR baseline, variability, accelerations, decelerations; and uterine contraction characteristics using standard NICHD nomenclature.
- Discern abnormal FHR tracings relative to dysrhythmias.
- Recognize common perinatal complications, noting both maternal and fetal responses.
- Evaluate interventions and modify the plan of care.
- Apply current standards of practice, documentation essentials and legal principles relative to electronic fetal monitoring.

WHAT PEOPLE SAY...

"Great conference. Took this as a review for testing and feel very prepared now!"

"Love the Clickers - makes you commit but anonymously"

"As usual....**AWESOME INFORMATION**, really helps to understand the physiology of fetal heart mechanisms!"

ELECTRONIC FETAL MONITORING

Advanced Concepts - Certification Exam Option (NCC)

Day One

- 7:30 Check In - Continental Breakfast**
- 8:00 EFM EQUIPMENT:**
- External versus Internal
 - Limitations & Troubleshooting
- ANTEPARTUM FETAL EVALUATION:**
- NST • CST/OCT • Modified BPP
 - BPP • Doppler Flow Studies
- PHYSIOLOGY REVIEW**
- Uteroplacental Physiology
 - FHR Regulation
- FETAL ACID-BASE**
- Cord Blood Gases • Base Deficit/Base Excess
- 11:30 Lunch Provided**
- 12:30 EFM DEFINITIONS, INTERPRETATION, MANAGEMENT**
- NICHD Definitions • 3 Tiered Category Approach
 - Understanding Variability
 - Accelerations • Decelerations
 - Intrauterine Resuscitation
 - Uterine Activity & Tachysystole
 - Special Clinical Considerations
- LEGAL ISSUES**
- Informed consent/Refusal
 - Documentation • Chain of Communication
- HOMEWORK: TEST PREPARATION**
- 3:30 Adjourn**

Day Two

- 7:30 Check In - Continental Breakfast**
- 8:00 FHR TRACING REVIEW:**
- NICHD Application
 - Standardized Interpretation
 - Applied Knowledge Approach
- READY - SET - GO**
- Simulated NCC Test Conditions
 - Multiple Choice Practice Exam & Review
 - "Best" versus "Right" Answer
- 11:30 Lunch Provided**
- 12:30 Check in for NCC EFM Exam**
- 1:00 NCC Electronic Fetal Monitoring Examination***
- 3:00 NCC Testing Conclude**

- * NCC on site examination is limited to participants who:**
- Attended both days of the PEC EFM course
- AND**
- Applied to NCC (at least 21 days prior), have been accepted, and have an NCC EFM exam admission letter for the PEC site

***NCC Candidates see Below

NCC exam registration see below

*The NCC EFM Specialty exam is separate from and has no affiliation with this course. It is PEC's goal to support higher standards of continuing education and to assist nurse's seeking certification, thus PEC has established the option for PEC EFM course attendees to sit the NCC exam. NCC sends an email following receipt/approval of exam application. **Must print off letter and bring to test site.** Contact NCC if you have applied and have not received your admission to exam letter. Testing site inclusion does not constitute NCC endorsement of course, course content, or materials provided. NCC and PEC are not affiliated organizations. A collaborative effort has provided an educational (PEC) and testing (NCC) opportunity to clinicians nationwide. PEC has no authority to approve, disapprove or vary any requirement for qualifying for or taking any NCC exam.

Registration for the onsite NCC exam following attendance at the course is separate, and \$160; we suggest registering using the link to NCC on our website: proedcenter.com. Please note there is a \$25 nonrefundable test administration fee due PEC for the onsite exam. This is not the NCC exam registration fee, it is additional.
