Japan Cherry Blossoms on Silversea

Roundtrip Tokyo on Silver Moon

April 3 – 17, 2027

Kobe | Kochi | Hiroshima | Busan | Kanazawa | Hakodate | Miyako

Join PES on a 14-night cruise during the height of spring cherry blossom season and discover ancient temples, serene gardens, and vibrant cities, while sailing aboard the ultra-luxury, all-inclusive, 596-guest Silversea Silver Moon.

Cruise Highlights:

- Overnight in **Kobe** to experience its vibrant culinary scene, or travel to nearby **Osaka** or **Kyoto**
- Discover **Kochi**, home to one of Japan's best-preserved feudal castles
- Reflect in **Hiroshima** at the Peace Memorial Park, or visit **Miyajima Island's** iconic floating torii gate
- Explore **Busan, South Korea**, known for its colorful markets and dramatic seaside temples
- Visit **Kanazawa's** renowned gardens and geisha and samurai districts
- **Hakodate** is famous for panoramic views from Mount Hakodate and its historic waterfront
- See dramatic coastal cliffs and enjoy fresh local seafood in **Miyako**

Your Cruise Includes:

- **Dining** in a diversity of venues with regional delicacies and gastronomic excellence, plus in-suite dining and 24-hour room service
- **Beverages in-suite and throughout the ship** including select wines, premium spirits, specialty coffees, and soft drinks, plus your own tailored mini-bar
- **Butler service in every category** with included gratuities for butler, housekeeping, bar, and dining staff
- **Sophisticated entertainment including full-scale production shows**, soloists, cultural entertainment, and enrichment lectures
- **\$960 shore excursion credit per guest**
- **\$200 shipboard credit per suite**

for Medical, Dental, Nursing and Allied Healthcare Professionals**

Medical/Dental Advances in Japan

Healthcare practitioners are currently faced with the challenges of both treating and preventing the ever-increasing incidence of chronic diseases in the US population. In addition, the need to adapt best practice models in the context of emerging healthcare reforms impacting patient care delivery and access to care is an important issue for all healthcare practitioners to address.

For the last 20 years, Japan has been ranked number one in the world in both life expectancy and healthy lifestyles, but Japan should not be complacent simply because of its high life expectancy. Japan's healthcare system is fundamentally a system of universal health insurance coverage. Japanese citizens belong to the national health insurance, workplace-based health insurance, or government-managed health insurance system. It is a free-access system with no gatekeepers that allows people to be examined and treated at the medical institutions of their choice, regardless of their symptoms. We explore these challenges with in-country professionals and provide opportunities for practitioners to enhance healthcare delivery models and best practices to prevent and control disease in cross-cultural environments.

Planned In Country Healthcare Topics Include:

- Healthcare System Overview
- Treatment and Prevention Strategies for Common Chronic Illnesses
- Dental Healthcare Updates: Delivery & Treatment
- Top Medical/Disease Issues: Challenges & Conquests
- Updates in Travel Medicine & Medicine at Sea
- Preventive and Intervention Strategies to Improve Population Health
- Updates in General Medicine/Primary Care: A Year in Review

Educational Goals: Our goal is to provide unparalleled CME/CE travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Conduct educational healthcare programs to learn about best practice models reflecting current approaches in medicine and healthcare across different cultures for providing quality patient outcomes
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

Learning Objectives: Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care. By design, this program permits medical experts to collaborate with colleagues and international counterparts to realize cross cultural viewpoints and updates within the treatment and prevention of disease and offers opportunities to compare and contrast current best practices to supply quality patient care and outcomes in their own professional setting.

Note: All sessions are lecture based, and we do not offer any participation/hands-on seminars.

Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

Physicians: Programs are reviewed by the *American Academy of Family Physicians* for a minimum of 12 Prescribed Credit Hours. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s) toward the AMA Physician Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

Dentists: The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The *Professional Education Society* designates this activity for a minimum of 12 continuing education credits.

Nurses: The *Professional Education Society* is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to 12 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

For Other Healthcare Professionals: Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. In order to receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

Tax Deduction: This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the Professional Education Society.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed, and we recommend that every attendee should consult with their Tax Consultant about their Individual situation to determine the appropriate amount and reporting of deductible expenses.

Disclosure: Our PES Distinguished Speakers do not have any significant financial interest in or affiliation with any commercial supporter of this educational activity and/or with the manufacturer(s) of commercial products and/or providers of any commercial services discussed in this educational lecture presentation/material. The content of lecture material(s)/presentations(s) in this CME/CE activity will not include discussions of unapproved or investigational uses of products or devices.
