June 23-25, 2022

ICRS Focus Meeting Cartilage & Sports

The Impact of Sports in Cartilage - How Much is Normal? & Optional Workshop for Rehabilitation on Cartilage Cases

ICRS

International Cartilage Regeneration
& Joint Preservation Society

www.cartilage.org

WELCOME

We are honored to welcome you in Thessaloniki to discuss “The Impact of Sports in Cartilage Health”. We all understand the severity of the morbidity caused by cartilage injuries or posttraumatic – postsurgical osteoarthritis and we are happy to announce that in this special ICRS Focus Meeting we will all manage to get in depth knowledge of the real problem, focusing on the mid and long term results of injury, or even no-injury!!

Epidemiological and pathophysiological data will be presented with the surgical techniques that are already used worldwide for the treatment of cartilage lesions. Special credit will be paid in evidence-based rehabilitation and prevention, parallel to presentation of surgical or conservative treatment that can lead to better outcome. Our main aim is that all the participants, at the end of the Focus Meeting, will understand the impact of sports in joint homeostasis and cartilage health, and we hope that we open the discussion regarding consensus of how much is optimal and what is the best treatment algorithm. In the meantime, delegates and faculty will have the time to enjoy the famous Greek hospitality in the emblematic city of northern Greece next to mountain Olympus and the birthplace of Alexander the Great. Museum visits, exceptional cuisine, and relaxing time everywhere inside this lively city, will add to the value of the scientific event.

Hope to see you real soon,
Emmanuel Papacostas & Christoph Ergelet, Course Chairs

International Faculty (Tentative)

Aftosmidis Dimitrios (GR)	Kon Elizaveta (IT)	Sinopidis Christos (GR)
Bozkurt Murat (TR)	Minas Tom (US)	Slynarski Konrad (PL)

Venue Workshop: PAOK FC Training Center or Rehabilitation Center

PRELIMINARY PROGRAMME

Thursday, June 23, 2022

12:00 - 18:00 Registration & Badge Pick-Up

13:00–14:15 Session 1: Effect of Activity in Joint Homeostasis

Moderators: Ergelet Christoph (CH), Sciarretta Fabio (IT)

- 1.1 How Big is the Problem (Epidemiology)? – Sideris Aristotelis (GR)
 - 1.2 Any Markers to Measure? – Vonk Lucienne (DE)
 - 1.3 UEFA Champions League Study: Are There Any Clues? – D’Hooghe Peter (QA)
 - 1.4 Different Sports - Different Problems – Sas Kristof (BE)
- Q&A / Discussion

14:15–15:30 Session 2: Acute Traumatic Injuries in Sports: What Happens in the Cartilage

Moderator: D’Hooghe Peter (QA)

- 2.1 The Ankle – D’Hooghe Peter (QA)
 - 2.2 The Knee – Papacostas Emmanuel (GR)
 - 2.3 The Hip – Tzaveas Alexandros (GR)
 - 2.4 The Shoulder – Sinopidis Christos (GR)
- Q&A / Discussion

15:30–16:30 Coffee Break / Exhibition

16:30–17:15 Session 3: Chronic Damage & Early OA in Athletes: Any Evidence?

Moderator: Verdonk Peter (BE)

- 3.1 Young Patients With Old Knees – Ergelet Christoph (CH)
 - 3.2 What Happens in the Long Term – Iosifidis Michael (GR)
- Q&A / Discussion

17:15–18:00 Session 4: Keynote Lecture

Minas Tom (US)

- 4.1 How a Cartilage Injury Impacted my Career – Professional Athlete (GR)
- Q&A / Discussion

18:00–19:00 Welcome Reception
