

Pediatric Advanced Life Support (PALS) Update Course

Course Description

The goal of the PALS course is to aid the pediatric health care provider in developing the knowledge and skills necessary to efficiently and effectively manage critically ill infants and children, resulting in improved outcomes.

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the AHA.

Intended Audience

Registered nurses, nurse practitioners, pediatricians, emergency physicians, family physicians, physician assistants, paramedics, respiratory therapists, and other health care providers who initiate and direct advanced life support in pediatric emergencies.

Course Pre-requisites

- Current AHA PALS Provider card.
- Precourse Self-Assessment test with a score of 80% or higher (registrants must bring a printout of the test to class; ***no admittance without the precourse self-assessment test with a passing score***). Instructions for completing the Precourse Self-Assessment test can be found in the PALS Provider Manual (copyright 2016).
- Please dress appropriately in casual business attire or scrubs. We do not allow shorts, jeans, tank tops or slippers.

It is mandatory that you bring your PALS Provider Manual with you to class. You will need it at various stations during the course.
